Re: Project 13-072 NorthPointe ASTC Public Hearing Notice

Beloit Health System has asked us to assist them in preparing for the upcoming public hearing.

On reading the public hearing notice, it indicates the project is to relocate an existing ASTC from Beloit to the NorthPointe Campus. In fact, the proposed project is to relocate current ambulatory surgery and GI cases from Beloit Memorial Hospital's surgical suite and GI procedure center to the proposed ASTC on the NorthPointe campus. The System does not now operate an ASTC.

Does the notice need to be corrected?

Can I assume Ms. Avery will be the Hearing Officer and Ms. Olson the Review Board member given the location of the Hearing? If not, do you know who will be present from the Agency?

Also, can you send me samples of the Public Hearing sign-in sheets so I can help the Beloit folks know what to expect?

Thanks for your assistance.
