RE: Project No. 13-076, Holy Cross Hospital Chicago,  
Request for Public Hearing

As President and CEO of Roseland Hospital, I am submitting this letter in strong opposition of the Holy Cross CON which calls for an expansion of behavioral health beds.

Roseland Hospital operates then only inpatient behavioral health unit for adolescents and we understand the need and capacity for adult and geriatric services.

However, we believe institutions such as St. Bernard's Hospital, Loretto Hospital, South Shore Hospital and others can meet the needs of that population. Therefore an expansion is unwarranted.

Sincerely,

Tim Egan, President/CEO  
Roseland Community Hospital
