HEALTH FACILITIES &
SERVICES REVIEW BOARD

to whom it may concern:

My name is Mona Assi and my husband is on hemodialysis. He travels from Summit, IL to Berwyn IL for treatment. There's a lot of traffic inbetween.

I depend on transportation to bring him for treatment and take him home. I worry about him because he waits for 1/2 for transportation. He is too tired to eat; ~~when~~ I feed him and give medications. I get up at 4:00 AM and we have a hard time especially in the winter time.

It would be better, more convenient to have a clinic in my neighborhood so I can drop him off and pick him up.

Mona Assi

Project # 14-019

6/12/14

I live in Summit, IL and am a dialysis patient at the FMC Berwyn clinic. I am writing this letter to you to voice my support for a new dialysis clinic Fresenius hopes to build in Summit. This would be so much closer for me to go for dialysis and would save me a lot of time. The traffic between my home and my facility in Berwyn can be overwhelming especially when I am not feeling good.

A new clinic in Summit would also give us a better choice of what time we get our treatment since it will not be so full. It is very hard to schedule your whole life and your family's life around a three times a week treatment.

Thank you for listening and I hope you will allow Fresenius to put this much needed clinic in Summit.

Sincerely,

Andrea Jaseca

Hello, my name is

Andrea Gasca and I've been a dialysis patient for a little over 4 yrs. When I got sick (peritonitis) something so simple as to come into the clinic and give me antibiotics. I couldn't because I wouldn't have enough money to do so.

Re: #14-019, Fresenius Medical Care Summit

Dear Ms. Olson:

I live in JUSTICE and am a dialysis patient at the MIDWAY clinic. I am writing this letter to you to voice my support for a new dialysis clinic Fresenius hopes to build in Summit. This would be so much closer for me to go for dialysis and would save me a lot of time. The traffic between my home and my facility in Chicago can be overwhelming especially when I am not feeling good.

A new clinic in Summit would also give us a better choice of what time we get our treatment since it will not be so full. It is very hard to schedule your whole life and your family's life around a three times a week treatment.

Thank you for listening and I hope you will allow Fresenius to put this much needed clinic in Summit.

Sincerely,

June 11, 2014

Thank you for listening and I hope you will allow Fresenius to put this much needed clinic in Summit.

Sincerely,

A facility in Summit would make the process of dialysis easier on both myself and my family. Allowing a shorter commute and less time on the road would mean more family time.
