

STATE OF ILLINOIS  
HEALTH FACILITIES AND SERVICES REVIEW BOARD

525 WEST JEFFERSON ST. • SPRINGFIELD, ILLINOIS 62761 • (217) 782-3516 FAX: (217) 785-4111

<b>DOCKET NO:</b> H-02	<b>BOARD MEETING:</b> November 12, 2014	<b>PROJECT NO:</b> 14-039	<b>PROJECT COST:</b> Original: \$0
<b>FACILITY NAME:</b> Memorial Medical Center-Woodstock d/b/a Centegra Specialty Hospital-Woodstock, South Street		<b>CITY:</b> Woodstock	
<b>TYPE OF PROJECT:</b> Substantive			<b>HSA: VIII</b>

**PROJECT DESCRIPTION:** The applicants (Centegra Specialty Hospital-Woodstock, South Street and Centegra Health System) are proposing to discontinue Centegra Specialty Hospital in Woodstock, Illinois. There is no cost to the project. **The anticipated completion date is December 31, 2015.**

## **EXECUTIVE SUMMARY**

### **PROJECT DESCRIPTION:**

- The applicants are proposing to discontinue Centegra Specialty Hospital - Woodstock, South Street (Centegra Specialty Hospital) as a licensed general hospital. This Certificate of Need (“CON”) application is contingent upon approval of a CON application that is being submitted at the same time for the discontinuation of Centegra Specialty Hospital's General Long-Term Nursing Care Category of Service (Project #14-038). There is no cost to this project. The anticipated project completion date is December 31, 2015.
- The discontinuation of Centegra Specialty Hospital as a general hospital is being requested because the discontinuation of its General Long-Term Nursing Care service will result in the facility having no inpatient hospital services. The only other category of service that has operated at Centegra Specialty Hospital for the past 20 years is the Acute Mental Illness (AMI) Category of Service. A CON permit for the discontinuation of that category of service was granted to Centegra Specialty Hospital on April 22, 2014 (Project #14-003), at the same time a CON permit was granted to Centegra Hospital-Woodstock, Doty Road (Centegra Hospital- Woodstock) to relocate the AMI Category of Service to that facility.

### **WHY THE PROJECT IS BEFORE THE STATE BOARD:**

- The project is before the State Board because the applicants are proposing to discontinue a health care facility as defined by 20 ILCS 3960/3.

### **PURPOSE OF THE PROJECT:**

- The purpose of the project is to discontinue Centegra Specialty Hospital.

### **PUBLIC COMMENT:**

- An opportunity for a public hearing was offered none was requested. No letters of support or opposition were received.

### **NEED FOR THE PROJECT:**

- Centegra Specialty Hospital was constructed in 1914, and it is a 100 year old health care facility. Because of the age of the building, deficiencies can be difficult to correct, and it is difficult to modernize the facility to current hospital standards. Although the hospital is currently in compliance with federal certification requirements for hospitals and nursing homes participating in Medicare and/or Medicaid programs, Centegra Specialty Hospital is not a contemporary facility, and it has been cited in recent years for its deficiencies.

### **WHAT WE FOUND**

- The applicants have successfully addressed the requirements of the State Board and the proposed discontinuation does not appear to have an adverse impact on the residents of the A-10 Planning area.
- The Discontinuation of the hospital appears warranted.

**STATE BOARD STAFF REPORT**  
 Memorial Medical Center-Woodstock  
 d/b/a Centegra Specialty Hospital –Woodstock South Street  
 Project #14-038

<b>APPLICATION CHRONOLOGY</b>	
Applicants(s)	Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital- Woodstock, South Street and Centegra Health System
Facility Name	Centegra Specialty Hospital- Woodstock
Location	Woodstock
Application Received	August 19, 2014
Application Deemed Complete	August 19, 2014
Review Period Ends	November 17, 2014
Review Period Extended by the State Board Staff?	No
Can the applicants request a deferral?	Yes

**I. The Proposed Project**

The applicants are proposing to discontinue Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital - Woodstock, South Street (Centegra Specialty Hospital) as a licensed general hospital. This Certificate of Need (CON) application is contingent upon approval of a CON application that is being submitted for the discontinuation of Centegra Specialty Hospital's General Long-Term Nursing Care Category of Service (Project #14-038). There is no cost to the project. The anticipated completion date is December 31, 2015.

**II. Summary of Findings**

A. The State Board Staff finds the proposed project appears to be in conformance with the provisions of Part 1110.

**III. General Information**

The applicants are Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital- Woodstock, South Street and Centegra Health System. Centegra Health System currently operates Northern Illinois Medical Center d/b/a Centegra Hospital - McHenry, Memorial Medical Center-Woodstock d/b/a Centegra Specialty Hospital – Woodstock, South Street, and Memorial Medical Center–Woodstock d/b/a Centegra Hospital – Woodstock and has been approved for a hospital in Huntley, Illinois.

The operating entity and the owner of the site is Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital- Woodstock, South Street. Memorial Medical Center - Woodstock d/b/a Centegra Specialty Hospital- Woodstock, South Street is located at 527 South Street, Woodstock, Illinois in Health Service Area HSA-08 and Health Planning Area A-10.

### **Centegra Specialty Hospital**

Centegra Specialty Hospital is currently operating a 36 bed Acute Mental Illness category of service and a 40 Bed Long Term Care Category of Service. There are no other category of services being offered at Centegra Specialty Hospital. Centegra Specialty Hospital currently operates Standby Emergency Treatment Service and Radiology Services as well. Pursuant to IDPH regulations, the emergency services include a registered nurse on duty in the hospital available for emergency services at all times and a licensed physician on call to the emergency department at all times. Radiology services consist of general radiology (x-ray) only. When Centegra Specialty Hospital is discontinued as a general hospital, these services will no longer be provided.

### **Permit #14-003 and #14-004**

The State Board approved Permit #14-003 to discontinue the 36 bed AMI unit at Centegra Specialty Hospital (South Street) and Permit #14-004 at the Centegra Hospital – Woodstock (Doty Road) to establish a 34 bed AMI Category of Service at the April 22, 2014 State Board Meeting. The 36 AM Beds will not be discontinued until such time as the 34 beds are constructed and licensed. **The anticipated completion date for the establishment of the 34 bed AMI Service is December 31, 2015.**

## **IV. Health Service Area HSA-08 and Health Planning Area A-10 and Long Term Planning Area –McHenry County**

Health Service Area HSA 08 includes the Illinois Counties of Kane, Lake, and McHenry Counties. Planning Area A-10 includes McHenry County. There are 16 hospitals in HSA-08 and 4 hospitals in the A-10 planning area. There is no need or excess for acute mental illness beds in the AMI Planning Area 8 A-10 and a need for 58 long term care beds in the McHenry County Long Term Care Planning Area.

**V. Proposed Discontinuation**

The applicants are proposing to discontinue Centegra Specialty Hospital - Woodstock, South Street (Centegra Specialty Hospital) as a licensed general hospital. This CON application is being submitted simultaneously with a CON application to discontinue Centegra Specialty Hospital's General Long-Term Nursing Care Category of Service, which has an authorized capacity of 40 beds (Project #14-038).

This CON application (Project #14-039) is contingent upon the State Board’s approval of Project #14-038. The only other category of service that has operated at Centegra Specialty Hospital for the past 20 years is the AMI Category of Service, a CON permit for the discontinuation of which was granted to Centegra Specialty Hospital on April 22, 2014 (Project No. 14-003).

If the CON application (14-038) to discontinue the hospital's General Long-Term Nursing Care Category of Service is approved, Centegra Specialty Hospital will not have CON approval to operate any categories of service. As a result, the hospital will be discontinued as a licensed health care facility once both the General Long-Term Nursing Care Category of Service and the Acute Mental Illness (AMI) Category of Service discharge their last patients and cease to operate.

The General Long-Term Nursing Care Category of Service is anticipated to cease operation by December 31, 2014. The State Board Staff notes that the 40 bed long term care category of service has been temporarily suspended as of September 22, 2014. The discontinuation of the AMI service is anticipated to occur by June 30, 2015 after the replacement AMI Category of Service is constructed and licensed at Centegra Hospital - Woodstock, Doty Road pursuant to the CON permit approved in Project No. 14-004.

**Use of Vacated Space**

Hospice of Northeastern Illinois (Journey Care) will continue to lease the space it currently leases for a residential hospice program. None of the space currently occupied

by the AMI or the General Long-Term Nursing Categories of Service will be reused for licensed inpatient care or for inpatient clinical service areas.

The vacated space is contemplated for use as offices for administrative departments or for storage. At the present time, it is anticipated that Outpatient Behavioral Health Services will remain in operation at this facility in the existing space, not in the space currently occupied by the Skilled Nursing Unit. Centegra Health System is the owner and operator of Centegra Specialty Hospital. The equipment and furniture will either be used by the Centegra Health System at other facilities, or donated to not for profit organizations, or scraped.

### **Medical Records**

The applicants stated in regards to medical records: *“In accordance with Centegra Health System's Records Management Policy, all records of skilled nursing patients will be retained as follows: complete records for adult patients will be retained for 10 years in accordance with 210 ILCS 85.6.17(c); the complete records for minors will be retained for 10 years after the patient's age of majority in accordance with 210 ILCS 85.6.17(c). All medical records pertaining to the General Long-Term Nursing Care Category of Service are and will continue to be stored with the medical records for all Centegra Health System hospitals. Medical records from prior to April 2012 are housed off-site at a HIPAA-compliant storage company. Medical records created since April 2012 is scanned from the paper records and the resulting electronic health records are kept on computer servers that are located off-site.”*

The applicants have attested that all questionnaires and data required by the Illinois Health Facilities and Services Review Board will be submitted as required.

## **VI. Reasons for the Discontinuation of the Long Term Care Category of Service**

### **1) Age of Facility**

Centegra Specialty Hospital was constructed in 1914. Centegra Specialty Hospital was constructed in 1914, and it is a 100 year old health care facility. Because of the age of the building, deficiencies can be difficult to correct, and it is difficult to modernize the facility to current hospital standards. Although the hospital is currently in compliance with federal certification requirements for hospitals and nursing homes participating in Medicare and/or Medicaid programs, Centegra Specialty Hospital is not a contemporary facility, and it has been cited in recent years for its deficiencies.

2) **Impact on Access**

The applicants stated *“the discontinuation of Centegra Specialty Hospital as a licensed general hospital will not have an adverse effect upon access to care for residents of the planning areas. The AMI Category of Service has already received a CON permit to be discontinued (Project No. 14-003, approved on April 22, 2014) and this CON application is being submitted simultaneously with a CON application to discontinue the General Long-Term Nursing Care Category of Service. Those CON applications documented that there will be no adverse impact on the market areas for these categories of service, which are defined by the coapplicants as identical with the Illinois Health Facilities Services and Review Board's planning areas for these categories of service. The lack of adverse impact is because facilities that provide these services and that are located within 45 minutes adjusted travel time of the hospital have indicated that they are prepared to assume its entire caseload for these categories of service.”*

**THE STATE BOARD STAFF NOTES THE PROPOSED PROJECT IS IN CONFORMANCE WITH CRITERION DISCONTINUATION (77 IAC 1110.130)**

**VII. Safety Net Impact Statement**

The applicants stated the following regarding the Safety Net Impact.

***1. The project's material impact if any, on essential safety net services in the community.***

*This project will not have any impact on essential safety net services in Planning Area HSA 8 McHenry for the following reasons.*

- a. The discontinuation of Centegra Specialty Hospital is contingent upon approval of a CON application to discontinue the hospital's General Long Term Nursing Care Category of Service that is being submitted simultaneously with it. After the CON application to discontinue the hospital's General Long-Term Nursing Care Category of Service is approved, Centegra Specialty Hospital will not have CON approval to operate any categories of service. As noted earlier in this application, Centegra Specialty Hospital has already received a CON permit to discontinue its Acute Mental Illness (AMI) Category of Service (Project No. 14-003, approved on April 22, 2014) which was the only other category of service authorized at this hospital.*
- b. Both the CON application to discontinue the AMI Category of Service and the CON application to discontinue the General Long-Term Nursing Care Category of Service documented that there will be no adverse impact on the planning areas for these services, both of which are McHenry County (Planning Area A-1 0 for the AMI Category of Service and Planning Area HSA 8 McHenry for the General Long-Term Nursing Care Category of Service).*

*The lack of adverse impact is because facilities that provide these services and that are located within 45 minutes travel time of the hospital have indicated that they are prepared to assume its entire caseload for these categories of service. Centegra Specialty Hospital received Impact Statements from the following facilities documenting that they have agreed to absorb Centegra Specialty Hospital's workload in these categories of service without conditions, limitations, or discrimination.*

*Centegra Specialty Hospital received Impact Statements from the following facilities that currently provide the General Long-Term Nursing Care Category of Service, all of which are located within 45 minutes adjusted travel time and in the same planning area as Centegra Specialty Hospital, indicating that these facilities are prepared to assume its entire caseload for this category of service. Crossroads Care Center of Woodstock, Woodstock; Hearthstone Manor, Woodstock; The Springs at Crystal Lake Rehabilitation Center, Crystal Lake; Valley Hi Nursing & Rehabilitation, Woodstock.*

*This CON application seeks approval for the discontinuation of Centegra Specialty Hospital as a general hospital. As such, the Rules relating to Impact on Access pertain to hospitals that currently provide the AMI and General Long-Term Nursing Care Categories of Service. It should be noted that the facilities that have indicated they are prepared to assume Centegra Specialty Hospital's entire case load for these categories of service are not the hospitals that currently provide these categories of service.*

*Presence Saint Joseph Hospital in Elgin is the only hospital that is located within 45 minutes adjusted travel time of Centegra Specialty Hospital that provides the AMI Category of Service.*

*Mercy Harvard Memorial Care Center in Harvard is the only hospital that is located within 45 minutes adjusted travel time of Centegra Specialty Hospital that provides the General Long-Term Nursing Care Category of Service. Written requests were sent to each of these facilities, asking them to provide impact statements, indicating the extent to which each will absorb Centegra Specialty Hospital's AMI or general long term nursing care workload without conditions, limitations, or discrimination. Neither responded to the request.*

***2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services.***

*The project will not adversely impact the ability of other providers or healthcare systems to cross-subsidize Safety Net Services.*

*As discussed under Item 1 above, Centegra Specialty Hospital sent impact letters to the two hospitals that provide the AMI Category of Service and the General Long Term Nursing Care Category of Service that are located within 45 minutes*

*adjusted travel time, and neither responded that it would be adversely impacted in any way by the project.*

*Furthermore, as noted above, one new provider of the AMI Category of Service that will replace Centegra Specialty Hospital's AMI Service and four current non-hospital providers of the General Long-Term Nursing Care Category of Service provided impact letters stating that each could accommodate all, or nearly all, of the patient volume at Centegra Specialty Hospital in these categories of service.*

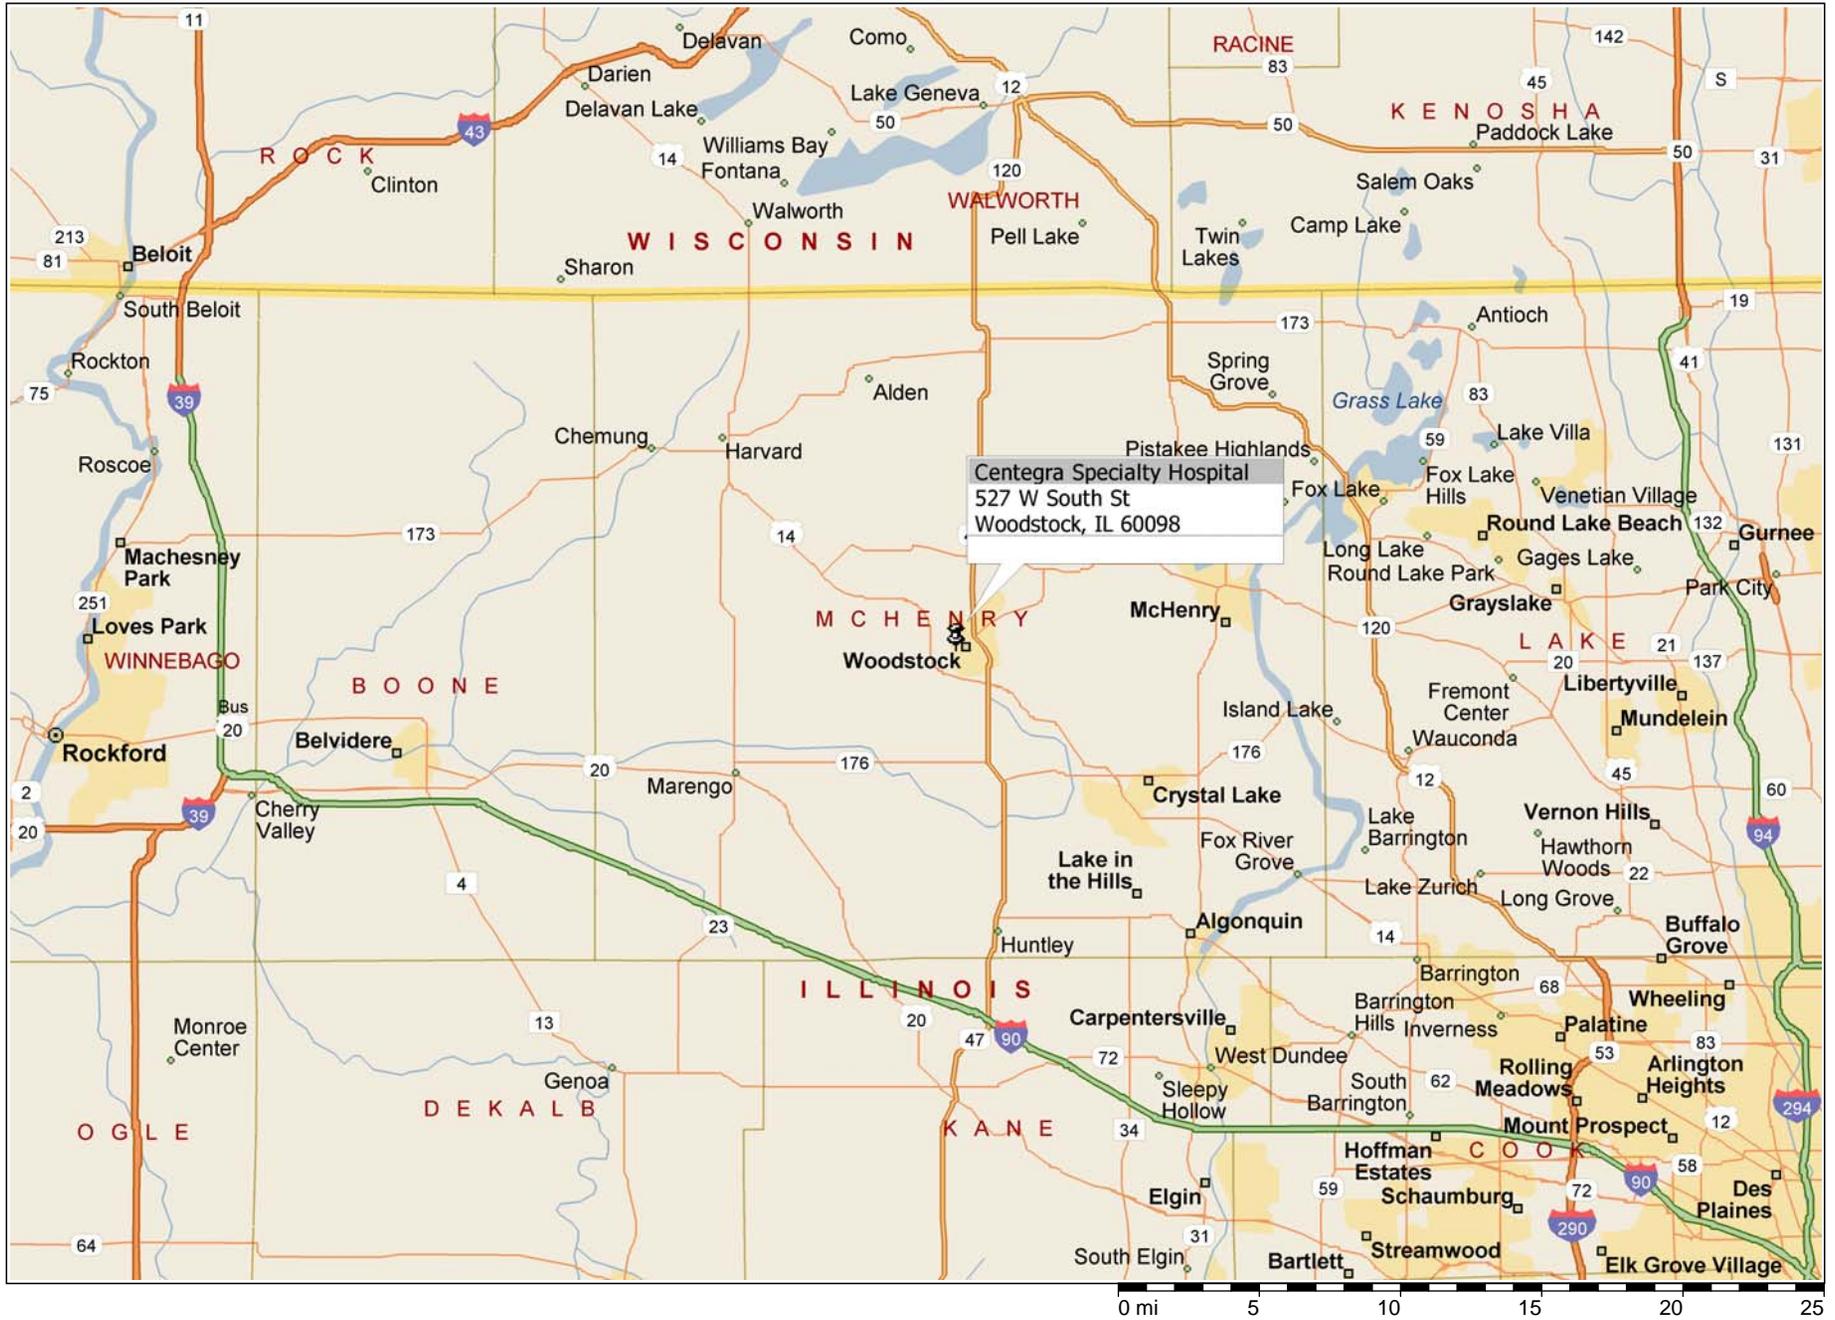

**3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community.**

*This application seeks approval for the discontinuation of Centegra Specialty Hospital as a licensed general hospital. The project will not adversely impact the remaining safety net providers in the community as documented by the fact that the discontinuation of Centegra Specialty Hospital is contingent upon approval of a CON application that is being submitted simultaneously with it, which means that it will only take place if Centegra Specialty Hospital does not operate any categories of service. As discussed under Items 1 and 2 above, Centegra Specialty Hospital sent impact letters to the two hospitals that provide the AMI Category of Service and the General Long-Term Nursing Care Category of Service that are located within 45 minutes adjusted travel time, and neither responded that it would be adversely impacted in any way by the project.*

*Furthermore, as noted in Items 1 and 2 above, one new provider of the AMI Category of Service that will replace Centegra Specialty Hospital's AMI Service and four current non-hospital providers of the General Long-Term Nursing Care Category of Service provided impact letters stating that each could accommodate all, or nearly all, of the patient volume at Centegra Specialty Hospital in these categories of service.*
