ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD
APPLICATION FOR PERMIT

RECEIVED

SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION

DEC 24 2014

This Section must be completed for all projects.

HEALTH FACILITIES &
SERVICES REVIEW BOARD

Facility/Project Identification

Facility Name: Stony Creek Dialysis		
Street Address: 6236-6246 West 95 th Street		
City and Zip Code: Oak Lawn, Illinois 60453		
County: Cook	Health Service Area: 07	Health Planning Area: 07

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name: DaVita HealthCare Partners Inc.	
Address: 2000 16 th Street, Denver, CO 80202	
Name of Registered Agent: Illinois Corporation Service Company	
Name of Chief Executive Officer: Kent Thiry	
CEO Address: 2000 16 th Street, Denver, CO 80202	
Telephone Number: (303) 405-2100	

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/>	Non-profit Corporation	<input type="checkbox"/>	Partnership	
<input checked="" type="checkbox"/>	For-profit Corporation	<input type="checkbox"/>	Governmental	
<input type="checkbox"/>	Limited Liability Company	<input type="checkbox"/>	Sole Proprietorship	<input type="checkbox"/> Other

- o Corporations and limited liability companies must provide an **Illinois certificate of good standing**.
- o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

<ul style="list-style-type: none"> o Corporations and limited liability companies must provide an Illinois Certificate of Good Standing. o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner. o Persons with 5 percent or greater interest in the licensee must be identified with the % of ownership.
APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.]

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. **This map must be in a readable format.** In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS **ATTACHMENT-5**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.]

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS **ATTACHMENT-6**, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT**1. Project Classification**

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Substantive
 Non-substantive

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Based on operational limitations at the current site, DaVita HealthCare Partners Inc. and Renal Life Link, Inc. (the "Applicants") seek authority from the Illinois Health Facilities and Services Review Board (the "Board") to discontinue their existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 and establish a 12-station dialysis facility at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The proposed dialysis facility will include approximately 7,342 gross square feet.

This project was previously approved as Project Permit No. 14-024 at the August 27, 2014 Board meeting. The initial site of the replacement facility was 5433 West 95th Street, Oak Lawn, Illinois 60453. Due to denial of the Applicants' zoning variance by the Village of Oak Lawn, the Applicants abandoned this site and located a new site for the Replacement Facility at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453.

This project has been classified as substantive because it involves the establishment of a health care facility.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation	\$60,000		\$60,000
Off Site Work			
New Construction Contracts			
Modernization Contracts	\$1,125,737		\$1,125,737
Contingencies	\$150,000		\$150,000
Architectural/Engineering Fees	\$124,749		\$124,749
Consulting and Other Fees	\$78,000		\$78,000
Movable or Other Equipment (not in construction contracts)	\$480,612		\$480,612
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment	\$1,692,242		\$1,692,242
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS	\$3,711,340		\$3,711,340
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities	\$2,019,098		\$2,019,098
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)	\$1,692,242		\$1,692,242
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS	\$3,711,340		\$3,711,340
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

<p>Land acquisition is related to project <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>Purchase Price: \$ _____</p> <p>Fair Market Value: \$ _____</p>
<p>The project involves the establishment of a new facility or a new category of service <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, provide the dollar amount of all non-capitalized operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.</p> <p>Estimated start-up costs and operating deficit cost is \$ <u>0</u> _____.</p>

Project Status and Completion Schedules

<p>For facilities in which prior permits have been issued please provide the permit numbers.</p> <p>Indicate the stage of the project's architectural drawings:</p> <p><input type="checkbox"/> None or not applicable <input type="checkbox"/> Preliminary</p> <p><input checked="" type="checkbox"/> Schematics <input type="checkbox"/> Final Working</p>
<p>Anticipated project completion date (refer to Part 1130.140): June 30, 2016</p>
<p>Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):</p> <p><input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed.</p> <p><input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies</p> <p><input checked="" type="checkbox"/> Project obligation will occur after permit issuance.</p>
<p>APPEND DOCUMENTATION AS ATTACHMENT-8, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.</p>

State Agency Submittals

<p>Are the following submittals up to date as applicable:</p> <p><input type="checkbox"/> Cancer Registry</p> <p><input type="checkbox"/> APORS</p> <p><input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted</p> <p><input checked="" type="checkbox"/> All reports regarding outstanding permits</p> <p>Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.</p>
--

Cost Space Requirements

Provide in the following format, the department/area **DGSF** or the building/area **BGSF** and cost. The type of gross square footage either **DGSF** or **BGSF** must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest **Calendar Year for which the data are available**. Include **observation days in the patient day totals for each bed service**. Any bed capacity discrepancy from the Inventory will result in the application being deemed **Incomplete**.

FACILITY NAME:		CITY:

CERTIFICATION

The application must be signed by the authorized representative(s) of the applicant entity. The authorized representative(s) are:

- in the case of a corporation, any two of its officers or members of its Board of Directors;
- in the case of a limited liability company, any two of its managers or members (or the sole manager or member when two or more managers or members do not exist);
- in the case of a partnership, two of its general partners (or the sole general partner, when two or more general partners do not exist);
- in the case of estates and trusts, two of its beneficiaries (or the sole beneficiary when two or more beneficiaries do not exist); and
- in the case of a sole proprietor, the individual that is the proprietor.

This Application for Permit is filed on the behalf of DaVita HealthCare Partners Inc.* in accordance with the requirements and procedures of the Illinois Health Facilities Planning Act. The undersigned certifies that he or she has the authority to execute and file this application for permit on behalf of the applicant entity. The undersigned further certifies that the data and information provided herein, and appended hereto, are complete and correct to the best of his or her knowledge and belief. The undersigned also certifies that the permit application fee required for this application is sent herewith or will be paid upon request.

SECTION II. DISCONTINUATION

This Section is applicable to any project that involves discontinuation of a health care facility or a category of service. **NOTE:** If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.130 - Discontinuation

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 60 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility will not have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.
3. Provide copies of impact statements received from other resources or health care facilities located within 45 minutes travel time, that indicate the extent to which the applicant's workload will be absorbed without conditions, limitations or discrimination.

APPEND DOCUMENTATION AS ATTACHMENT-10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals **as appropriate.**

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE

Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. **This must be a narrative.**
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following:
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. A narrative of the rationale that supports the projections must be provided.

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF tot be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

ASSURANCES:

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

G. Criterion 1110.1430 - In-Center Hemodialysis

1. Applicants proposing to establish, expand and/or modernize In-Center Hemodialysis must submit the following information:
2. Indicate station capacity changes by Service: Indicate # of stations changed by action(s):

Category of Service	# Existing Stations	# Proposed Stations
<input checked="" type="checkbox"/> In-Center Hemodialysis	12	12

3. READ the applicable review criteria outlined below and **submit the required documentation for the criteria:**

APPLICABLE REVIEW CRITERIA	Establish	Expand	Modernize
1110.1430(b)(1) - Planning Area Need - 77 Ill. Adm. Code 1100 (formula calculation)	X		
1110.1430(b)(2) - Planning Area Need - Service to Planning Area Residents	X	X	
1110.1430(b)(3) - Planning Area Need - Service Demand - Establishment of Category of Service	X		
1110.1430(b)(4) - Planning Area Need - Service Demand - Expansion of Existing Category of Service		X	
1110.1430(b)(5) - Planning Area Need - Service Accessibility	X		
1110.1430(c)(1) - Unnecessary Duplication of Services	X		
1110.1430(c)(2) - Maldistribution	X		
1110.1430(c)(3) - Impact of Project on Other Area Providers	X		
1110.1430(d)(1) - Deteriorated Facilities			X
1110.1430(d)(2) - Documentation			X
1110.1430(d)(3) - Documentation Related to Cited Problems			X
1110.1430(e) - Staffing Availability	X	X	
1110.1430(f) - Support Services	X	X	X
1110.1430(g) - Minimum Number of Stations	X		
1110.1430(h) - Continuity of Care	X		
1110.1430(j) - Assurances	X	X	X

APPEND DOCUMENTATION AS ATTACHMENT-26, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

4. Projects for relocation of a facility from one location in a planning area to another in the same planning area must address the requirements listed in subsection (a)(1) for the "Establishment of Services or Facilities", as well as the requirements in Section 1110.130 - "Discontinuation" and subsection 1110.1430(i) - "Relocation of Facilities".

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: **Indicate the dollar amount to be provided from the following sources:**

\$2,019,098	a)	Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:
	1)	the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and
	2)	interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion;
_____	b)	Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.
_____	c)	Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;
\$1,692,242 (FMV of Lease)	d)	Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:
	1)	For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated;
	2)	For revenue bonds, proof of the feasibility of securing the specified amount and interest rate;
	3)	For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.;
	4)	For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment;
	5)	For any option to lease, a copy of the option, including all terms and conditions.
_____	e)	Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;
_____	f)	Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;
_____	g)	All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.
\$3,711,340	TOTAL FUNDS AVAILABLE	

APPEND DOCUMENTATION AS ATTACHMENT-36, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided

APPEND DOCUMENTATION AS ATTACHMENT-37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT-38, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									

* Include the percentage (%) of space for circulation

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT -39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)	Year	Year	Year
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			

Total			
Medicaid (revenue)			
Inpatient			
Outpatient			
Total			

APPEND DOCUMENTATION AS ATTACHMENT 40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care must be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Section I, Identification, General Information, and Certification
Applicants

Certificates of Good Standing for DaVita HealthCare Partners Inc. and Renal Life Link, Inc. (collectively, the "Applicants" or "DaVita") are attached at Attachment – 1. Renal Life Link, Inc. is the operator of Stony Creek Dialysis. Stony Creek Dialysis is a trade name of Renal Life Link, Inc. and is not separately organized. As the person with final control over the operator, DaVita HealthCare Partners Inc. is named as an applicant for this CON application. DaVita HealthCare Partners Inc. does not do business in the State of Illinois. A Certificate of Good Standing for DaVita HealthCare Partners Inc. from the state of its incorporation, Delaware, is attached.

Delaware

Section I, Identification, General Information, and Certification
Site Ownership

The letter of intent between 6230 Oak Lawn LLC and Renal Life Link, Inc. to lease the facility located at 6236-6246 West 95th Street, Oak Lawn, IL 60453 is attached at Attachment – 2.

JOHNSON CONTROLS REAL ESTATE SERVICES, INC.

A JOHNSON CONTROLS COMPANY

1783 ROSEMARY ROAD
HIGHLAND PARK, IL 60035

TELEPHONE: 847-926-7051
CELL: 847-975-4980

December 16, 2014

Mr. Ken Robberechts
Baum Realty Group
1030 West Chicago Avenue
Suite 200
Chicago, IL 60622

**RE: Request for Proposal ("RFP")
The Shops of Oak Lawn
6236 – 6246 West 95th Street
Oak Lawn, IL 60453**

Dear Ken:

Johnson Controls Real Estate Services, Inc. ("JCI") has been exclusively authorized by Total Renal Care, Inc – a subsidiary of DaVita HealthCare Partners, Inc. ("DaVita") to assist in securing a lease requirement. DaVita is a Fortune 500 company with approximately 2,000 locations across the US and revenues of approximately \$7 billion.

We have been surveying the Oak Lawn market area to identify all of the alternatives available that best suit DaVita's business and operational needs. Of the properties reviewed, your site has been identified as one that potentially meets the necessary requirements. We are requesting that you provide a written response to lease the above referenced Property. We request that you deliver your response no later than **December 17, 2014**. *Please prepare the proposal to respond to the following terms:*

PREMISES: **6236 – 6246 West 95th Street, Oak Lawn, IL 60453**

LOT 28(Except the West 33 feet, The South 17 feet and the North 183 feet thereof) in Oak Lawn Farms, Being Charles W. James Subdivision of the Southwest ¼ of section 5, Township 37 North, Range 13, East of the Third Principal Meridian (Except the East ½ of the East ½ of the Southeast ¼ of Said Southwest ¼), in Cook County, Illinois.

PIN 24-05-302-043-0000

PIN 24-05-302-044-0000

TENANT: "Total Renal Care, Inc. or related entity to be named"

Trade Name: DaVita

Guarantor: Corporate guarantee from parent company DaVita HealthCare Partners, Inc. for the full term of the lease and options if exercised.

LANDLORD: **6230 Oak Lawn LLC**

SPACE REQUIREMENTS:

Requirement is for approximately 7,342 contiguous usable square feet. Tenant shall have the right to measure space based on most recent BOMA standards.

Please indicate both rentable and useable square footage for Premises.

PRIMARY TERM:

Fifteen (15) years

BASE RENT:

Please indicate the annual rate per rentable square foot \$25.00 psf Base Rent

Please indicate the lease type. (i.e. FSG, MG, NNN) NNN

ADDITIONAL EXPENSES:

Please provide an estimated annual cost per square foot for any and all additional operating expenses for which the Tenant will be responsible for paying including Taxes, Insurance and CAM. \$10.50

*Please provide Tenant's pro rata share percentage of operating expenses.
Entire Center 34,390 sft DaVita 7,342 sf pro rata share 21.34%*

If operating expenses are based on a Base Year, please indicate the Base Year and expense stop.

Please indicate what, if any, utility costs Tenant will be responsible for paying that are not included in operating expenses or Base Rent.

Tenant is responsible for all utilities within the store premises.

Landlord to limit the CAM and Insurance costs to no greater than five percent (5%) increase annually. With the exception of the variable expenses related to the paint striping that occurs once every 3 years, utility service and snow/ice maintenance removal.

LANDLORD'S MAINTENANCE:

Landlord, at its sole cost and expense, shall be responsible for the structural and capitalized items (per GAAP standards) for the Property.

POSSESSION AND RENT COMMENCEMENT:

Landlord shall deliver Possession of the Premises to the Tenant upon the later of completion of Landlords required work (if any) or mutual lease execution. Rent Commencement shall be the earlier of six (6) months from Possession or until:

- a. Construction improvements within the Premises have been completed in accordance with the final construction documents (except for nominal punch list items); and
- b. A certificate of occupancy for the Premises has been obtained from the city or county; and
- c. Tenant has obtained all necessary licenses and permits to operate its business.

LEASE FORM:

Tenant's standard lease form.

USE:

The Use is for a Dialysis Clinic, medical offices or other lawfully permitted use.

Please verify that the Tenant's dialysis use is permitted within the building's zoning. Tenant's use is permitted within the center and there will be no special use permit required.

Please provide a copy of any CCR's or other documents that may impact tenancy.

PARKING:

(See Parking Exhibit) Four dedicated handicap spaces and 3 designated spaces. Landlord will provide 7 dedicated parking spaces for Tenant in front of the Premises. Signage for these spaces will be provided by Landlord as a part of the Base Building package (see Exhibit B).

The Landlord has stated that to the best of his knowledge no parking variance is required for DaVita's occupancy at the shopping center. If a variance is required the Landlord will be fully responsible for getting that approval from the Village of Oak Lawn. If Landlord is unsuccessful in obtaining this variance, the Tenant will be reimbursed for its costs up to \$100,000 per previous agreement sent to Tenant by Landlord.

Landlord will fully enforce parking restrictions whereas shopping center tenant employees will be required to park along the outside perimeter of the property.

BASE BUILDING:

Landlord shall deliver to the Premises, the Base Building improvements included in the attached Exhibit B.

TENANT IMPROVEMENTS:

\$10/square foot tenant allowance for a new HVAC system plus \$7.00/square foot for miscellaneous cost reimbursement.

Total tenant improvement allowance = \$17/square foot.

OPTION TO RENEW:

Three (3), five (5) year options to renew the lease. 12 months notice.

Rent Escalations:

10% escalations every five years on the initial term of the lease and on the options if exercised.

RIGHT OF FIRST OPPORTUNITY ON ADJACENT SPACE:

Tenant shall have the on-going right of first opportunity on any adjacent space that may become available during the initial term of the lease and any extension thereof, under the same terms and conditions of Tenant's existing lease.

FAILURE TO DELIVER PREMISES:

If Landlord has not delivered the Premises to Tenant with all base building items substantially completed by one hundred and fifty 150 days from lease execution, Tenant may elect to a) terminate the lease by written notice to Landlord or b) elect to receive two days of rent abatement for every day of delay beyond the one hundred and fifty (150) day delivery period

HOLDING OVER:

Tenant shall be obligated to pay 110% for the then current rate.

TENANT SIGNAGE:

Tenant shall have the right to install building signage, and will be provided placement on the existing pylon signage at the Premises, subject to compliance with all applicable laws and regulations. Landlord, at Landlord's expense, will furnish Tenant with any standard building directory signage.

BUILDING HOURS:

24 hours a day, 7 days a week.

SUBLEASE/ASSIGNMENT:

Tenant will have the right at any time to sublease or assign its interest in this Lease to any majority owned subsidiaries or related entities of DaVita without the consent of the Landlord or to unrelated entities with Landlord's reasonable approval. To be further defined at lease and mutually agreed upon.

ROOF RIGHTS:

Tenant shall have the right to place a satellite dish on the roof at no additional fee.

NON COMPETE:

Landlord agrees not to lease space to another dialysis provider within a five (5) mile radius of Premises.

HVAC:

HVAC system shall be based on Tenant's design. Landlord and Tenant shall coordinate HVAC system installation.

Please provide general description of HVAC systems (i.e. ground units, tonnage, age) DaVita Architect was on the roof and took photos of all the units provided.

DELIVERIES:

Please indicate manner of deliveries to the Premises (i.e. dock-high door in rear, shared) Deliveries through the back of the center. No loading docks but rear access/entry doors.

GOVERNMENTAL COMPLIANCE:

Landlord shall represent and warrant to Tenant that Landlord, at Landlord's sole expense, will cause the Premises, common areas, the building and parking facilities to be in full compliance with any governmental laws, ordinances, regulations or orders relating to, but not limited to, compliance with the Americans with Disabilities Act (ADA), and environmental conditions relating to the existence of asbestos and/or other hazardous materials, or soil and ground water conditions, and shall indemnify and hold Tenant harmless from any claims, liabilities and cost arising from environmental conditions not caused by Tenant(s).

CERTIFICATE OF NEED:

Tenant CON Obligation: Landlord and Tenant understand and agree that the establishment of any chronic outpatient dialysis facility in the State of Illinois is subject to the requirements of the Illinois Health Facilities Planning Act, 20 ILCS 3960/1 et seq. and, thus, the Tenant cannot establish a dialysis facility on the Premises or execute a binding real estate lease in connection therewith unless Tenant obtains a Certificate of Need (CON) permit from the Illinois Health Facilities and Services Review Board (HFSRB). Based on the length of the HFSRB review process, Tenant does not expect to receive a CON permit prior to April 21, 2015. In light of the foregoing facts, the parties agree that they shall promptly proceed with due diligence to negotiate the terms of a definitive lease agreement and execute such agreement prior to approval of the CON permit provided, however, the lease shall not be binding on either party prior to approval of the CON permit and the lease agreement shall contain a contingency clause indicating that the lease agreement is not effective prior to CON permit approval. Assuming CON approval is granted, the effective date of the lease agreement shall be the first day of the calendar month following CON permit approval. In the event that the HFSRB does not award Tenant a CON permit to establish a

dialysis center on the Premises by April 21, 2015 neither party shall have any further obligation to the other party with regard to the negotiations, lease, or Premises contemplated by this Letter of Intent.

BROKERAGE FEE:

Landlord recognizes as the Tenant's sole representative Johnson Controls Real Estate Services, Inc. and shall pay a brokerage fee equal to \$1.00 per square foot per year for the first ten (10) years of lease and \$0.50 per square foot per year for the remaining five (5) years of the initial term of the lease per separate commission agreement. Tenant shall retain the right to offset rent for failure to pay the brokerage fee.

PLANS:

Please provide copies of site and construction plans or drawings.

Please submit your response to this Request for Proposal via e-mail to:

Edgar Levin
edgar.l.levin@jci.com

It should be understood that this Request For Proposal is subject to the terms of Exhibit A attached hereto. The information in this email is confidential and may be legally privileged. It is intended solely for the addressee. Access to this information by anyone but addressee is unauthorized.

Thank you for your time and consideration to partner with DaVita.

Sincerely,

Edgar Levin

LETTER OF INTENT: THE SHOPS OF OAK LAWN, 6236 – 6246 WEST 95TH STREET, OAK LAWN, IL 60453

AGREED TO AND ACCEPTED THIS 17th DAY OF DECEMBER 2014

By: 
6230 Oak Lawn LLC
("Landlord")

AGREED TO AND ACCEPTED THIS 17th DAY OF DECEMBER 2014

By: 
On behalf of Total Renal Care, a wholly owned subsidiary of DaVita HealthCare Partners, Inc.
("Tenant")

EXHIBIT A

NON-BINDING NOTICE

NOTICE: THE PROVISIONS CONTAINED IN THIS LETTER OF INTENT ARE AN EXPRESSION OF THE PARTIES' INTEREST ONLY. SAID PROVISIONS TAKEN TOGETHER OR SEPARATELY ARE NEITHER AN OFFER WHICH BY AN "ACCEPTANCE" CAN BECOME A CONTRACT, NOR A CONTRACT. BY ISSUING THIS LETTER OF INTENT NEITHER TENANT NOR LANDLORD (OR JCI) SHALL BE BOUND TO ENTER INTO ANY (GOOD FAITH OR OTHERWISE) NEGOTIATIONS OF ANY KIND WHATSOEVER. TENANT RESERVES THE RIGHT TO NEGOTIATE WITH OTHER PARTIES. NEITHER TENANT, LANDLORD OR JCI INTENDS ON THE PROVISIONS CONTAINED IN THIS LETTER OF INTENT TO BE BINDING IN ANY MANNER, AS THE ANALYSIS FOR AN ACCEPTABLE TRANSACTION WILL INVOLVE ADDITIONAL MATTERS NOT ADDRESSED IN THIS LETTER, INCLUDING, WITHOUT LIMITATION, THE TERMS OF ANY COMPETING PROJECTS, OVERALL ECONOMIC AND LIABILITY PROVISIONS CONTAINED IN ANY LEASE DOCUMENT AND INTERNAL APPROVAL PROCESSES AND PROCEDURES. THE PARTIES UNDERSTAND AND AGREE THAT A CONTRACT WITH RESPECT TO THE PROVISIONS IN THIS LETTER OF INTENT WILL NOT EXIST UNLESS AND UNTIL THE PARTIES HAVE EXECUTED A FORMAL, WRITTEN LEASE AGREEMENT APPROVED IN WRITING BY THEIR RESPECTIVE COUNSEL. JCI IS ACTING SOLELY IN THE CAPACITY OF SOLICITING, PROVIDING AND RECEIVING INFORMATION AND PROPOSALS AND NEGOTIATING THE SAME ON BEHALF OF OUR CLIENTS. UNDER NO CIRCUMSTANCES WHATSOEVER DOES JCI HAVE ANY AUTHORITY TO BIND OUR CLIENTS TO ANY ITEM, TERM OR COMBINATION OF TERMS CONTAINED HEREIN. THIS LETTER OF INTENT IS SUBMITTED SUBJECT TO ERRORS, OMISSIONS, CHANGE OF PRICE, RENTAL OR OTHER TERMS; ANY SPECIAL CONDITIONS IMPOSED BY OUR CLIENTS; AND WITHDRAWAL WITHOUT NOTICE. WE RESERVE THE RIGHT TO CONTINUE SIMULTANEOUS NEGOTIATIONS WITH OTHER PARTIES ON BEHALF OF OUR CLIENT. NO PARTY SHALL HAVE ANY LEGAL RIGHTS OR OBLIGATIONS WITH RESPECT TO ANY OTHER PARTY, AND NO PARTY SHOULD TAKE ANY ACTION OR FAIL TO TAKE ANY ACTION IN DETRIMENTAL RELIANCE ON THIS OR ANY OTHER DOCUMENT OR COMMUNICATION UNTIL AND UNLESS A DEFINITIVE WRITTEN LEASE AGREEMENT IS PREPARED AND SIGNED BY TENANT AND LANDLORD.

Exhibit B -- MINIMUM BASE BUILDING IMPROVEMENT REQUIREMENTS

SUBJECT TO MODIFICATION BASED ON INPUT FROM LESSEE'S PROJECT MANAGER

SCHEDULE A - TO WORK LETTER

MINIMUM BASE BUILDING IMPROVEMENT REQUIREMENTS

At a minimum, the Lessor shall provide the following Base Building Improvements to meet Lessee's requirements for an Existing Base Building Improvements at Lessor's sole cost:

All MBBI work completed by the Lessor will need to be coordinated and approved by the Lessee and there Consultants prior to any work being completed, including shop drawings and submittals reviews.

1.0 - Building Codes & Design

All Minimum Base Building Improvements (MBBI) are to be performed in accordance with all local, state, and federal building codes including any related amendments, fire and life safety codes, ADA regulations, State Department of Public Health, and other applicable and codes as it pertains to Dialysis. All Lessor's work will have Governmental Authorities Having Jurisdiction ("GAHJ") approved architectural and engineering (Mechanical, Plumbing, Electrical, Structural, Civil, Environmental) plans and specifications prepared by a licensed architect and engineer.

Lessee shall have full control over the selection of the General Contractor for the tenant improvement work.

2.0 - Zoning & Permitting

Building and premises must be zoned to perform services as a dialysis clinic. Lessor to provide all Zoning information related to the base building. Any new Zoning changes/variances necessary for use of the premises as a dialysis clinic shall be the responsibility of the Lessee with the assistance of the Lessor to secure Zoning change/variance. Permitting of the interior construction of the space will be by the Lessee.

3.0 - Common Areas

Lessee will have access and use of all common areas i.e. Lobbies Hallways, Corridors, Restrooms, Stairwells, Utility Rooms, Roof Access, Emergency Access Points and Elevators. All common areas must be code and ADA compliant (Life Safety, ADA, etc.) per current federal, state and local code requirements.

4.0 - Demolition

Lessor will be responsible for demolition of all interior partitions, doors and frames, plumbing, electrical, mechanical systems (other than what is designated for reuse by Lessee) and finishes of the existing building from slab to roof deck to create a "Vanilla box" condition. Space shall be broom clean and ready for interior improvements specific to the buildout of a dialysis facility. Building to be free and clear of any components, asbestos or material that is in violation of any EPA standards of acceptance and local hazardous material jurisdiction standards.

5.0 - Foundation and Floor

Existing Foundations and Slab on Grade in Lessee space must be free of cracks and settlement issues. Any cracks and settlement issues evident at any time prior commencement of tenant improvement work shall be subject to inspection by a Licensed Structural Engineer stating that such cracks and / or settlement issues are within limits of the structural integrity and performance anticipated for this concrete and reinforcement design for the term of the lease. Lessor to confirm that the site does not contain expansive soils and to confirm the depth of the water table. Existing concrete slabs shall contain control joints and structural reinforcement.

All repairs will be done by Lessor at his cost and be done prior to Lessee acceptance of space for construction. Any issues with slab during Lessee construction will be brought up to Lessor attention and cost associated with slab issue to repair will be paid by Lessor.

Any slab replacement will be of the same thickness of the adjacent slab (or a minimum of 5") with a minimum concrete strength of 3,000-psi with wire or fiber mesh, and/or rebar reinforcement over vapor barrier and granular fill. Infill slab/trenches will be pinned to existing slab at 24" O.C. with # 4 bars or greater x 16" long or as designed per higher standards by Lessee's structural engineer depending on soils and existing slab condition.

Existing Concrete floor shall not have more than 3-lbs. of moisture per 1,000sf/24 hours is emitted per completed calcium chloride testing results. Means and methods to achieve this level will be sole responsibility of the Lessor.

6.0 - Structural

Existing exterior walls, lintels, floor and roof framing shall remain as-is and be free of defects. Should any defects be found repairs will be made by Lessor at his cost. Any repairs will meet with current codes and approved by a Structural Engineer and Lessee.

Lessor shall supply Lessee (if available) structural engineering drawings of space

7.0 - Existing Exterior Walls

All exterior walls shall be in good shape and properly maintained. Any damaged drywall and or Insulation will be replaced by Lessor prior to Lessee taking possession.

It will be the Lessor's responsibility for all cost to bring exterior walls up to code before Lessee takes possession.

8.0 - Demising walls

New or Existing demising walls will be by Landlord and shall be a 1 or 2hr fire rated wall depending on local codes, state and or regulatory requirements (NFPA 101 - 2000) whichever is more stringent. If it does not meet this, Lessor will bring demising wall up to meet the ratings/UL requirements. Walls to be fire caulked in accordance with UL standards at floor and roof deck. Demising walls will have sound attenuation batts from floor to underside of deck.

At Lessee's option and as agreed upon by Lessor, any new demising wall interior drywall to lessee's space shall not be installed until after Lessee's improvements are complete in the wall.

9.0- Roof Covering

The roof shall be properly sloped for drainage and flashed for proper water shed. The roof, roof drains and downspouts shall be properly maintained to guard against roof leaks and can properly drain. Lessor will provide Lessee the information on the Roof and Contractor holding warranty. Lessor to provide minimum of R30 roof insulation at roof deck. If the R30 value is not meet, Lessor to increase R-Value by having installed additional insulation to meet GAHJ requirements to the underside of the roof structure/deck.

Any new penetrations made during buildout will be at the Lessee's cost. Lessor shall grant Lessee that right to conceal or remove existing skylights as deemed appropriate by Lessee and their Consultants.

10.0 – Canopy

Lessor shall allow Lessee to design and construct a canopy structure for patient drop off and if allowed local code.

11.0 – Waterproofing and Weatherproofing

Lessor shall provide complete water tight building shell inclusive but not limited to, Flashing and/or sealant around windows, doors, parapet walls, Mechanical / Plumbing / Electrical penetrations. Lessor shall properly seal the building's exterior walls, footings, slabs as required in high moisture conditions such as (including but not limited to) finish floor sub-grade, raised planters, and high water table. Lessor shall be responsible for replacing any damaged items and repairing any deficiencies exposed during / after construction of tenant improvement.

12.0 – Windows

Any single pane window systems will be replaced by Lessor with code compliant Energy efficient thermal pane windows with thermally broken aluminum frames. Broken, missing and/or damaged glass or frames will be replaced by Lessor. Lessor shall allow Lessee, at Lessee's discretion, to tint the existing windows (per manufactures recommendations) per Lessee's tenant improvement design.

13.0 – Thermal Insulation

Lessor to replace any missing and/or damaged wall or ceiling insulation with R-13, 19 or R30 insulation. Any new roof deck insulation is to be installed to the underside of the roof deck.

14.0 – Exterior Doors

All exterior doors shall meet American Disabilities Act (ADA), Local Codes and State Department of Health requirements for egress. If not Lessor at his cost will need to bring them up to code, this will include installing push paddles and/or panic hardware or any other hardware for egress. Any missing weather stripping, damage to doors or frames will be repaired or replaced by Lessor.

Lessor will provide, if not already present, a front entrance and rear door to space. Should one not be present at each of the locations Lessor, to have them installed per the following criteria:

- Front/ Patient Entry Doors: Provide Storefront with insulated glass doors and Aluminum framing to be 42" width including push paddle/panic bar hardware, continuous hinge and lock mechanism. Door to be prepped to accept power assist opener and push button keypad lock provided by Lessee.
- Service Doors: Provide 72" wide double door (Alternates for approval by Lessee's Project Manager to include: 60" Roll up door, or a 48" wide single door or double door with 36" and 24" doors) with 20 gauge insulated hollow metal (double doors), Flush bolts, T astragal, Heavy Duty Aluminum threshold, continuous hinge each leaf, prepped for panic bar hardware (as required by code) painted with rust inhibiting paint and prepped to receive a push button keypad lock provided by Lessee. Door to have a 10" square vision panel cut out with insulated glass installed if requested by Lessee.

Any doors that are designated to be provided modified or prepared by Lessor; Lessor shall provide to Lessee, prior to door fabrication, submittals containing specification information, hardware and shop drawings for review and acceptance by Lessee and Lessee's architect.

15.0 – Utilities

All utilities to be provided at designated utility entrance points into the building at locations approved by the Lessee at a common location for access. Lessor is responsible for all tap/connection and impact fees for all new utilities required for a dialysis facility. All Utilities to be coordinated with Lessee's Architect.

16.0 – Plumbing

Lessor to provide a building water service sized to support Lessees's potable water demand, building fire sprinkler water demand (if applicable), and other tenant water demand (if applicable). Final size to be determined by building potable and sprinkler water combined by means of the total building water demand based on code derived water supply fixture unit method and the building fire sprinkler water hydraulic calculations, per applicable codes and in accordance to municipality and regulatory standards. Lessor to provide a minimum potable water supply to support 30 (60) GPM with a constant 50 PSI water pressure, or as determined by Lessee's Engineer based on Lessee's water demand. Maximum water pressure to Lessee space to not exceed 80 PSI, and where it does water supply to be provided with a pressure reducing valve. Lessor to provide Lessee with a current water flow test results (within current year) indicating pressure and flow, for Lessee's approval.

Where suitable building water already exists, Lessor to provide Lessee with a potable water supply to meet the above minimum requirements. Water flow and pressure to Lessee's space to be unaffected by any other building water requirements such as other tenant water requirements or irrigation systems. Lessor to bring water to Lessee's space, leaving off with a valve and cap for Lessee extension per Lessee direction or Lessee design plans.

Potable water supply to be provided with water meter and two (2) reduced pressure zone (RPZ) backflow devices arranged in parallel for uninterrupted service and sized to support required GPM demand. Backflow devices to be provided with adequate drainage per code and local authority. Meter to be per municipality or water provider standards.

Any existing hose bibs will be in proper working condition prior to Lessees possession of space.

Building sanitary drain size will be determined by Lessee's Mech Engineer based on total combined drainage fixture units (DFU's) for entire building, but not less than 4 inch diameter. The drain shall be stubbed into the building per location coordinated by Lessee at an elevation no higher than 4 feet below finished floor elevation, to a maximum of 10 feet below finished floor elevation. (Coordinate actual depth and location with Lessee's Architect and Engineer.) Provide with a cleanout structure at building entry point. New sanitary building drain shall be properly pitched to accommodate Lessee's sanitary system design per Lessee's plumbing plans, and per applicable Plumbing Code(s). Lift station/sewage ejectors will not be permitted.

Sanitary drain to be stubbed into Lessee's space with a minimum invert level of 42 inches below finished slab. Sanitary drain to be sized based on the calculated drainage fixture unit (DFU) method in accordance to code for both the Lessee's DFU's combined with any other tenant DFU's sharing the drain however, in no case less than 4 inch diameter. Ejectors or lift stations are prohibited. Lessor to clean, power jet and televise existing sanitary drain and provide Lessee with a copy of results. Any drains displaying disrepair or improper pitch shall be corrected by Lessor prior to acceptance by Lessee. Where existing conditions are not met, Lessor to provide new sanitary drain to meet such requirements at Lessor's cost and include all relevant Sanitary District and local municipality permit, tap and other fees for such work.

Lessor to provide a plumbing vent no less than 4 inch diameter stubbed into Lessee's space as high as possible with an elevation no less than the bottom of the lowest structural element of the framing to the deck above. Where deck above is the roof, Lessor to provide roof termination and all required roof flashing and waterproofing. Plumbing roof terminations to maintain a minimum separation of 15 feet, or more if required by local code, from any mechanical rooftop equipment with fresh air intake. Where required separation does not exist, Lessor to relocate to be within compliance at Lessor's cost.

Sanitary sampling manhole if required by local municipality on new line.

Lessor to provide and pay for all tap fees related to new sanitary sewer and water services in accordance with local building and regulatory agencies.

17.0 - Fire Suppression and Alarm System

Fire Sprinkler Systems and building fire alarm control panel shall be maintained by Lessor. Lessor to provide pertinent information on systems for Lessee Engineers for design. Lessor to provide current vendor for system and monitoring company.

Where Sprinkler System is not present and is required by Lessee usage based on local code or NFPA 101, Lessor to provide cost, to be included in lease rate, for the design and installation of a complete turnkey sprinkler system (less drops and heads in lessee space) that meets all local building, fire prevention and life safety codes for the entire building. This system to be on a dedicated water line independent of Lessee's potable water line requirements. Lessor to include all municipal approved shop drawings, service drops and sprinkler heads at heights per Lessee's reflective ceiling plan, flow control switches wired and tested, alarms including wiring and an electrically/telephonically controlled fire alarm control panel connected to a monitoring systems for emergency dispatch.

18.0 - Electrical

Premises currently has 1200 AMP service. Further review is required by Tenant as to whether the current panel setup is acceptable. Da Vita to have contractor come on site to confirm existing is sufficient for the use.

Service size to be determined by Lessee's engineer dependant on facility size and gas availability (400 amp to 1,000 amp service) 120/208 volt, 3 phase, 4 wire derived from a single metered source and consisting of dedicated CT cabinet per utility company standards feeding a distribution panelboard in the Lessee's utility room (location to be per National Electrical Code (NEC) and coordinated with Lessee and their Architect) for Lessee's exclusive use in powering equipment, appliances, lighting, heating, cooling and miscellaneous use. Lessor's service provisions shall include utility metering, tenant service feeder, and distribution panelboard with main and branch circuit breakers. Lessee will not accept multiple services to obtain the necessary capacity. Should this not be available Lessor to upgrade electrical service to meet the following criteria:

Provide new service (preferably underground) with a dedicated meter via a new CT cabinet per utility company standards. Service size to be determined by Lessee's engineer dependant on facility size and gas availability (400 amp to 1,000 amp service) 120/208 volt, 3 phase, 4 wire to a distribution panelboard in the Lessee's utility room (location to be per NEC and coordinated with Lessee and their Architect) for Lessee's exclusive use in powering equipment, appliances, lighting, heating, cooling and miscellaneous use. Lessor's service provisions shall include transformer coordination with utility company, transformer pad and grounding, and underground conduit and wire sized for service inclusive of excavation, trenching and restoration, utility metering, distribution panelboard with main and branch circuit breakers, and electrical service and building grounding per NEC.

Lessee's Engineer shall have the final approval on the electrical service size and location and the size and quantity of circuit breakers to be provided in the distribution panelboard. If 480V power is supplied, Lessor to provide step down transformer to Lessee requirements above.

If combined service meter cannot be provided then Lessor shall provide written verification from Power Utility supplier stating multiple meters are allowed for use by the facility for the duration of the lease term.

If lease space is in a multi-tenant building then Lessor to provide meter center with service disconnecting means, service grounding per NEC, dedicated combination CT cabinet with disconnect for Lessee and distribution panelboard per above.

Lessor will allow Lessee to have installed, at Lessee cost, Transfer Switch for temporary generator hook-up, or permanent generator.

Existing electrical raceway, wire, and cable extending through the Lessee's space but serving areas outside the Lessee's space shall be re-routed outside the Lessee's space and reconnected as required at the Lessor's cost.

Fire Alarm system shall be maintained and in good working order by Lessor prior to Lessee acceptance of space. Lessor to provide pertinent information on systems for Lessee's design. Lessor to provide current vendor for system and monitoring company. Lessor's Fire Alarm panel shall include supervision of fire suppression system(s) and connections to emergency dispatch or third party monitoring service in accordance with the local authority having jurisdiction. If lease space is in a multi-tenant building then Lessor to provide an empty conduit stub in Lessee space from Lessor's Fire Alarm panel. If Fire Alarm system is unable to accommodate Lessee requirements and/or FA system is not within applicable code compliance, Lessor to upgrade panel at Lessor's cost.

Fire Alarm system equipment shall be equipped for double detection activation if required.

19.0 - Gas Service

Existing Natural gas service at a minimum to have a 6" water column pressure and be able to supply 800,000-BTU's. Natural gas line shall be individually metered and sized per demand.

20.0 - Mechanical /Heating Ventilation Air Conditioning

Allowance to be provided. See Item HVAC Tenant Allowance in the LOI.

Equipment will be new and come with a full warranty on all parts including compressors (minimum of 5yrs) including labor. Work to include, but not limited to, the purchase of the units, installation, roof framing, mechanical curbs, flashings, gas & electrical hook-up, thermostats and start-up. Anticipate minimum up to five (5) zones with programmable thermostat and or DDC controls (Note: The 5 zones of conditioning may be provided by individual constant volume RTU's, or by a VAV or VVT system of zone control with a single RTU). Lessee's engineer shall have the final approval on the sizes, tonnages, zoning, location and number of HVAC units based on Lessees' design criteria and local and state codes.

21.0 - Telephone

If in a multi tenant building Lessor to provide a 1" conduit from Building Demark location to phone room location in Lessee space.

22.0 - Cable or Satellite TV

Lessee shall have the right to place a satellite dish on the roof and run appropriate electrical cabling from the Premises to such satellite dish and/or install cable service to the Premises at no additional fee. Lessor shall reasonably cooperate and grant "right of access" with Lessee's satellite or cable provider to ensure there is no delay in acquiring such services.

23.0 - Handicap Accessibility

Full compliance with ADA and all local jurisdictions' handicap requirements. Lessor shall comply with all ADA regulations affecting the Building and entrance to Lessee space including, but not limited to, the elevator, exterior and interior doors, concrete curb cuts, ramps and walk approaches to / from the parking lot, parking lot striping for four (4) dedicated handicap stalls for a unit up to 20 station clinic and six (6) HC stalls for units over 20 stations inclusive of pavement markings and stall signs with current local provisions for handicap parking stalls, delivery areas and walkways.

Lessor shall provide pavement marking; curb ramp and accessible path of travel for a dedicated delivery access in the rear of the building. The delivery access shall link the path from the driveway paving to the designated Lessee delivery door and also link to the accessible path of travel.

24.0 - Generator

Lessor to allow a generator to be installed onsite if required by code or Lessee chooses to provide one.

25.0 – Existing Site Lighting

Lessor to provide adequate lighting per code and to illuminate all parking, pathways, for new and existing building access points. Parking lot lighting to be on a timer (and be programmed per Lessee business hours of operation) or photocell. Parking lot lighting shall be connected to and powered by Lessor house panel and equipped. If new lighting is provided it will need to be code compliant with a 90 minute battery back up at all access points.

26.0 – Exterior Building Lighting

Lessor to provide adequate lighting per code and to illuminate the building main and service entrance/exits with related sidewalks. Lighting shall be connected to and powered by Lessor house panel and equipped with a code compliant 90 minute battery back up at all access points.

27.0 – Parking Lot

Provide adequate amount of ADA curb cuts, handicap and standard parking stalls in accordance with dialysis use and overall building uses. Stalls to receive striping, lot to receive traffic directional arrows and concrete parking bumpers. Bumpers to be anchored in place onto the asphalt per stall layout.

28.0 – Refuse Enclosure

If an area is not designated, lessor to provide Refuse area for Lessee dumpsters. Lessor to provide a minimum 6” thick reinforced concrete pad approx 100 to 150SF based and an 8’ x 12’ apron way to accommodate dumpster and vehicle weight. Enclosure to be provided as required by local codes.

29.0 - Signage

Lessor to allow for an illuminated façade mounted sign and rights to add signage to existing Pylon/monument sign. Final sign layout to be approved by Lessee and the City.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

Re: Historic Preservation Act Determination

Dear Ms. Haaker:

Pursuant to Section 4 of the Illinois State Agency Historic Resources Preservation Act, DaVita HealthCare Partners Inc. and Renal Life Link Inc. ("Requestors") seek a formal determination from the Illinois Historic Preservation Agency as to whether their proposed project to establish a 12-station dialysis facility at 6236 – 6246 West 95th Street, Oak Lawn, Illinois 60453 ("Proposed Project") affects historic resources. For reference, the legal description for this site is:

LOT 28 (Except the West 33 feet, The South 17 feet and the North 183 feet thereof) in Oak Lawn Farms, Being Charles W. James Subdivision of the Southwest $\frac{1}{4}$ of section 5, Township 37 North, Range 13, East of the Third Principal Meridian (Except the East $\frac{1}{2}$ of the East $\frac{1}{2}$ of the Southeast $\frac{1}{4}$ of Said Southwest $\frac{1}{4}$), in Cook County, Illinois.

PIN 24-05-302-043-0000

PIN 24-05-302-044-0000

1. Project Description and Address

The Requestors are seeking a certificate of need from the Illinois Health Facilities and Services Review Board to establish a 12-station dialysis facility at 6236 – 6246 West 95th Street, Oak Lawn, Illinois 60453.

2. Topographical or Metropolitan Map

Metropolitan maps showing the location of the Proposed Project are attached at Attachment 1.

December 5, 2014

Page 2

3. Historic Architectural Resources Geographic Information System

Maps from the Historic Architectural Resources Geographic Information System are attached at Attachment 2. The property is not listed on the (i) National Register, (ii) within a local historic district, or (iii) within a local landmark.

4. Address for Building/Structure

The proposed project will be located at 6236 – 6246 West 95th Street, Oak Lawn, Illinois 60453.

Thank you for your time and consideration of our request for Historic Preservation Determination. If you have any questions or need any additional information, please feel free to contact me at 312-649-9289 or timothy.tincknell@davita.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy V Tincknell".

Storage Furniture/Fixtures	\$5,862		\$5,862
Business Office Fixtures	\$20,860		\$20,860
General Furniture/Fixtures	\$27,500		\$27,500
Signage	\$11,300		\$11,300
Total Moveable and Other Equipment	\$480,612		\$480,612
Fair Market Value of Leased Space	\$1,692,242		\$1,692,242
Total Project Costs	\$3,711,340		\$3,711,340

Section I, Identification, General Information, and Certification
Project Status and Completion Schedules

Although the Letter of Intent attached at Attachment – 2 provides for project obligation to occur after permit issuance, the Applicants will begin negotiations on a definitive lease agreement for the Replacement Facility, with the intent of project obligation being contingent upon permit issuance.

Section I, Identification, General Information, and Certification
Cost Space Requirements

Cost Space Table							
Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
CLINICAL							
ESRD	\$3,711,340	7,342			7,342		
Total Clinical	\$3,711,340	7,342			7,342		
NON CLINICAL							
Total Non-clinical							
TOTAL	\$3,711,340	7,342			7,342		

Section II, Discontinuation
Criterion 1110.130(a), General

1. The Applicants seek authority from the Health Facilities and Services Review Board (the "Board") to discontinue its existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility") and establish a 12-station dialysis facility at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The Replacement Facility will be approximately 2.26 miles, or approximately 5 minutes, from the Existing Facility.
2. No other clinical services will be discontinued as a result of this project.
3. Anticipated Discontinuation Date: **June 30, 2016**
4. The Applicants lease space for the Existing Facility from Ali Kutom, as Trustee of Trust Number 16701. As a result, the Applicants will have no control over the use of the space after discontinuation of the Existing Facility.
5. All medical records will be transferred to the Replacement Facility.
6. This project is a relocation of the Existing Facility and not a discontinuation in its entirety. Therefore, this criterion does not apply.

Section II, Discontinuation
Criterion 1110.130(b), Reasons for Discontinuation

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul.

Further, the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office. A limited number of handicapped parking spaces (2) are frequently unavailable for patients. Additionally, these handicapped spaces are centrally located in parking lot and not proximately located to the dialysis unit. Accordingly, when handicapped spaces are available, patients must walk excessive distances from their cars to the dialysis facility, which poses additional safety risks. These patients are often elderly, suffer multiple co-morbidities and/or rely on assistive devices. While some safety risks cannot be avoided during winter or periods of inclement weather, these risks can be minimized to reducing the length patients must walk from their cars to the dialysis center.

The configuration of the parking lot also prohibits larger patient transport vehicles (vans) from dropping patients off and picking them up at the entrance to the dialysis unit. The drivers of these vehicles often are ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street.

Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board's minimum standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility has no dedicated conference room. The lobby/patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. The mechanical room and the computer/server room for all of the neighboring medical businesses are housed inside the Existing Facility. There is no way to access the server/computer room without going through the treatment floor, creating a potential infection control concern. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines. This issue is discussed further in the Purpose of the Project narrative.

The site of the Replacement Facility is in a strip mall, approximately 2.26 miles away, with a large parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the Replacement Facility will allow for a conference room, adequate hazardous waste area, restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all patients on the treatment floor from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs.

Section II, Discontinuation
Criterion 1110.130(c), Impact on Access

1. The relocation of the Existing Facility will not negatively impact access to care. To the contrary, it will improve access to life sustaining dialysis to DaVita's ESRD patient population by making it more accessible to patients and their families throughout Oak Lawn. All existing patients are expected to transfer to the Replacement Facility. The Applicants seek authority from the Board to discontinue its existing 12-station dialysis facility at 9155 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility") and establish a 12-station dialysis facility at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453 (the "Replacement Facility"). The Replacement Facility will be approximately 2.26 miles, or approximately 5 minutes, from the Existing Facility.
2. Documentation of the Applicant's request for an impact statement, which was sent to all in-center hemodialysis facilities within 45 minutes normal travel time of the Existing Facility, is attached hereto. A list of facilities located within 45 minutes normal travel time is attached at Attachment – 10. See Appendices – 1 and 2 for documentation that DaVita sent requests for an impact statement to all in-center hemodialysis facilities within 45 minutes travel time.
3. To date, the Applicants have not received any impact statements regarding this project.

Table 1110.130(c) , Facilities within 45 Minutes Driving Time of Existing Facility

Facility	Address	City	State	Zip Code	HSA	Distance	Drive Time	Adjusted Drive Time

Section III, Project Purpose, Background and Alternatives – Information Requirements
Criterion 1110.230, Project Purpose, Background and Alternatives

Background of the Applicant

The Applicants are fit, willing and able, and have the qualifications, background and character to adequately provide a proper standard of health care services for the community. The proposed project involves the discontinuation of Stony Creek Dialysis's existing facility and the establishment of a 12-station Replacement Facility located at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453 to better serve ESRD patients residing in and around Oak Lawn.

DaVita HealthCare Partners Inc is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and empowering patients, and community outreach. A copy of DaVita's 2013 Community Care report, some of which is outlined below, details DaVita's commitment to quality, patient centric focus and community outreach was previously submitted with Proj. No. 14-024.

DaVita has taken on many initiatives to improve the lives of patients suffering from chronic kidney disease ("CKD") and end stage renal disease ("ESRD"). These programs include the Kidney Smart, IMPACT, CathAway, and transplant assistance programs. Information on the Kidney Smart, IMPACT and CathAway programs, were previously submitted as part of the Applicants' application for Proj. No. 14-016. Three recent press releases: "DaVita HealthCare Partners Hits Recognition Milestone," "DaVita HealthCare Partners Supports Local Nonprofits on Colorado Gives Day," and "DaVita HealthCare Partners Donates \$1.5 Million During Annual Support of Charities" are attached at Attachment – 11A.

There are over 26 million patients with CKD and that number is expected to rise. Current data reveals troubling trends, which help explain the growing need for dialysis services:

- Between 1988-1994 and 2005-2010, the overall prevalence estimate for CKD rose from 12.3 to 14.0 percent. The largest relative increase, from 25.4 to 40.8 percent, was seen in those with cardiovascular disease.¹
- Many studies have shown that diabetes, hypertension, cardiovascular disease, higher body mass index, and advancing age are associated with the increasing prevalence of CKD.²
- Nearly six times the number of new patients began treatment for ESRD in 2011 (approximately 116,000) versus 1980 (approximately 20,000).³
- Nearly eleven times more patients are now being treated for ESRD than in 1980 (approximately 615,000 versus approximately 60,000).⁴
- U.S. patients newly diagnosed with ESRD were 1 in 2,800 in 2011 versus 1 in 11,000 in 1980.⁵
- U.S. patients treated for ESRD were 1 in 526 in 2011 versus 1 in 3,400 in 1980.⁶
- Increasing prevalence in the diagnosis of diabetes and hypertension, the two major causes of CKD; 44% of new ESRD cases have a primary diagnosis of diabetes; 28% have a primary diagnosis of hypertension.⁷
- Nephrology care prior to ESRD continues to be a concern. Since the 2005 introduction of the new Medical Evidence form (2728), with fields addressing pre-ESRD care, there has been little progress made in this area (pre-ESRD data, however, should be interpreted with caution because

¹ US Renal Data System, USRDS 2013 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States, National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, MD, 44 (2013).

⁷ Id. at 161

of the potential for misreporting). Forty-two percent of new ESRD patients in 2011, for example, had not seen a nephrologist prior to beginning therapy. And among these patients, 51 percent of those on hemodialysis began therapy with a catheter, compared to 19 percent of those who had received a year or more of nephrology care. Among those with a year or more of pre-ESRD nephrologist care, 30 percent began therapy with a fistula – five times higher than the rate among non-referred patients.⁸

Additionally, DaVita's Kidney Smart program helps to improve intervention and education for pre-ESRD patients. Approximately 65-75% of CKD Medicare patients have never been evaluated by a nephrologist.⁹ Timely CKD care is imperative for patient morbidity and mortality. Adverse outcomes of CKD can often be prevented or delayed through early detection and treatment. Several studies have shown that early detection, intervention and care of CKD may result in improved patient outcomes and reduce ESRD:

- Reduced GFR is an independent risk factor for morbidity and mortality,
- A reduction in the rate of decline in kidney function upon nephrologists referrals has been associated with prolonged survival of CKD patients,
- Late referral to a nephrologist has been correlated with lower survival during the first 90 days of dialysis, and
- Timely referral of CKD patients to a multidisciplinary clinical team may improve outcomes and reduce cost.

A care plan for patients with CKD includes strategies to slow the loss of kidney function, manage comorbidities, and prevent or treat cardiovascular disease and other complications of CKD, as well as ease the transition to kidney replacement therapy. Through the Kidney Smart program, DaVita offers educational services to CKD patients that can help patients reduce, delay, and prevent adverse outcomes of untreated CKD. DaVita's Kidney Smart program encourages CKD patients to take control of their health and make informed decisions about their dialysis care.

To extend DaVita's CKD education and awareness programs to the Spanish-speaking population, DaVita launched its Spanish-language website (DaVita.com/Espanol) in November 2011. Similar to DaVita's English-language website, DaVita.com/Espanol provides easy-to-access information for Spanish-speaking kidney care patients and their families, including educational information on kidney disease, treatment options, and recipes.

DaVita's IMPACT program seeks to reduce patient mortality rates during the first 90-days of dialysis through patient intake, education and management, and reporting. In fact, since piloting in October 2007, the program has not only shown to reduce mortality rates by 8 percent but has also resulted in improved patient outcomes.

DaVita's CathAway program seeks to reduce the number of patients with central venous catheters ("CVC"). Instead patients receive arteriovenous fistula ("AV fistula") placement. AV fistulas have superior patency, lower complication rates, improved adequacy, lower cost to the healthcare system, and decreased risk of patient mortality compared to CVCs. In July 2003, the Centers for Medicare and Medicaid Services, the End Stage Renal Disease Networks and key providers jointly recommended adoption of a National Vascular Access Improvement Initiative ("NVAII") to increase the appropriate use of AV fistulas for hemodialysis. The CathAway program is designed to comply with NVAII through patient education outlining the benefits for AV fistula placement and support through vessel mapping, fistula surgery and maturation, first cannulation and catheter removal. Since the inception of the program,

⁸ *Id.* at 216-217

⁹ US Renal Data System, *USRDS 2011 Annual Data Report: Atlas of Chronic Kidney Disease and End-Stage Renal Disease in the United States*, Bethesda, MD: National Institutes of Health, National Institute of Diabetes and Digestive and Kidney Diseases; 2011.

DaVita has achieved a 45 percent reduction in the number of "Day 90+" catheter patients. As of November 2013, DaVita's catheter use rate is at an all-time low with 13 percent of patients dialyzing at DaVita for 90 days or more with a catheter in place. DaVita is an industry leader in the rate of fistula use and has the lowest day-90 catheter rates among large dialysis providers.

DaVita was recognized at the National Adult and Influenza Immunization Summit (NAIS) as the national winner in the "Healthcare Personnel Campaign" category of the 2014 Immunization Excellence Awards. In 2013, DaVita was the first large dialysis provider to implement a comprehensive teammate vaccination order, requiring all teammates who work in or whose jobs require frequent visits to dialysis centers to either be vaccinated against influenza or wear surgical masks in patient-care areas. As of March 15, DaVita achieved 100 percent compliance with its teammate immunization-or-mask directive, with more than 86 percent of teammates choosing vaccination. As of the same date, 92.2 percent of patients were vaccinated for the flu, marking the fourth consecutive year that DaVita's patient vaccination rates exceeded the U.S. Department of Health and Human Services Healthy People 2020 recommendations.

In an effort to improve patient outcomes and experience during dialysis, on May 13, 2014, DaVita announced the first delivery of hemodiafiltration in the United States. It is delivering hemodiafiltration treatments to select patients at its North Colorado Springs Clinic as part of a six-month trial program. Hemodiafiltration incorporates the standard hemodialysis process but adds an extra step to remove even larger toxin particles. It is commonly practiced in Europe but until recently there was no FDA approved device for use in the U.S. Over the next six months, DaVita clinical experts will determine whether there are improved outcomes of dialysis treatment and patient quality of life compared to hemodialysis.

For more than a decade, DaVita has been investing and growing its integrated kidney care capabilities, and on May 5, 2014, DaVita's approach to integrated care was recognized with two Dorland Health "Case in Point" Platinum Awards for its Pathways Care Management and VillageHealth Integrated Care Management programs. The Dorland Health awards recognize the most successful and innovative case-management programs working to improve health care across the continuum.

Through Patient Pathways, DaVita partners with hospitals to provide faster, more accurate ESRD patient placement to reduce the length of hospital inpatient stays and readmissions. Importantly, Patient Pathways is not an intake program. An unbiased onsite liaison, who specializes in ESRD patient care, meets with both newly diagnosed and existing ESRD patients to assess their current ESRD care and provide information about insurance, treatment modalities, outpatient care, financial obligations before discharge, and grants available to ESRD patients. Patients choose a provider/center that best meets their needs for insurance, preferred nephrologists, transportation, modality and treatment schedule.

DaVita currently partners with over 350 hospitals nationwide through Patient Pathways. Patient Pathways has demonstrated benefits to hospitals, patients, physicians and dialysis centers. Since its creation in 2007, Patient Pathways has impacted over 130,000 patients. In 2012 alone, the Patient Pathways program reduced renal-related readmission rates by more than 73 percent and saved partnering hospitals a total of 40,800 bed days and 18,500 acute dialysis treatments. Combined, these efficiencies reduced the country's 2012 health care costs by more than \$50 million. Moreover, patients are better educated and arrive at the dialysis center more prepared and less stressed. They have a better understanding of their insurance coverage and are more engaged and satisfied with their choice of dialysis facility. As a result, patients have higher attendance rates, are more compliant with their dialysis care, and have fewer avoidable readmissions.

Since 1996, Village Health has innovated to become the country's largest renal National Committee for Quality Assurance accredited disease management program. VillageHealth's Integrated Care Management ("ICM") services partners with patients, providers and care team members to focus on the root causes of unnecessary hospitalizations such as unplanned dialysis starts, infection, fluid overload and medication management.

VillageHealth ICM services for payers and ACOs provide CKD and ESRD population health management delivered by a team of dedicated and highly skilled nurses who support patients both in the field and on

the phone. Nurses use VillageHealth's industry-leading renal decision support and risk stratification software to manage a patient's coordinated needs. Improved clinical outcomes and reduced hospital readmission rates have contributed to improved quality of life for patients. VillageHealth ICM has delivered up to a 15 percent reduction in non-dialysis medical costs for ESRD patients. Applied to DaVita's managed ESRD population, this represents an annual savings of more than \$30 million.

DaVita's transplant referral and tracking program ensures every dialysis patient is informed of transplant as a modality option and promotes access to transplantation for every patient who is interested and eligible for transplant. The social worker or designee obtains transplant center guidelines and criteria for selection of appropriate candidates and assists transplant candidates with factors that may affect their eligibility, such as severe obesity, adherence to prescribed medicine or therapy, and social/emotional/financial factors related to post-transplant functioning.

In an effort to better serve all kidney patients, DaVita believes in requiring that all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

DaVita Rx, the first and largest licensed, full-service U.S. renal pharmacy, focuses on the unique needs of dialysis patients. Since 2005, DaVita Rx has been helping improve outcomes by delivering medications to dialysis centers or to patients' homes, making it easier for patients to keep up with their drug regimens. As of 2012, DaVita Rx patients have an 82% adherence rate, compared to those who use chain pharmacies and have a 32% adherence rate, and those who use independent pharmacies and have a 36% adherence rate. In addition, better adherence may lead to fewer hospitalizations for patients using DaVita Rx versus those patients not on this service. Hospitalizations (per member per 1000) was 1.4 for Non-DaVita Rx patients versus 1.0 for DaVita Rx patients in 2012.

DaVita has been repeatedly recognized for its commitment to its employees (or teammates), particularly its more than 1,700 teammates who are reservists, members of the National Guard, military veterans, and military spouses. In June 2013, DaVita received the prestigious Secretary of Defense Employer Support Freedom Award. Presented annually by the Employer Support of the Guard and Reserve ("ESGR"), an arm of the Department of Defense, the Freedom Award recognizes employers for outstanding support of employees who serve in the Guard and Reserve. It is the highest military-friendly award presented by the U.S. government. Nearly 3,000 employers were nominated for a Freedom Award in 2013. An awards committee composed of senior Department of Defense officials, business leaders and prior honorees selected just 15 companies to receive the 2013 Freedom Award. DaVita also received the 2013 award for Best Military Recruiting Program from ERE Media and was recognized this year with Top 100 Military Friendly Employer and 2013 Top 100 Military Friendly Spouse Employer awards from GI Jobs, a Most Valuable Employers award from CivilianJobs.com and a "Best for Vets" award from Military Times EDGE.

In April 2014, DaVita received three major national and local awards for its focus on its teammates: WorldBlu Most Democratic Workplaces, Top Workplaces Colorado and LearningElite Silver. For the seventh consecutive year, DaVita appeared on WorldBlu's list of most democratic work places. WorldBlu surveys organizations' teammates to determine the level of democracy practiced. For the third consecutive year, WorkplaceDynamics also recognized DaVita as one of the top workplaces in Colorado, based on employee input. DaVita was named a Silver LearningElite organization for 2014 by *Chief Learning Officer* magazine for creating and implementing exemplary teammate development practices that deliver measurable business value. DaVita ranked No. 29 in a record breaking field of more than 200 companies. Finally, DaVita has been recognized as a one of *Fortune*® Magazine's Most Admired Companies in 2014. DaVita ranked first overall among health care facilities and was the second highest-rated company in Colorado.

DaVita is also committed to sustainability and reducing its carbon footprint. In fact, it is the only kidney care company recognized by the Environmental Protection Agency for its sustainability initiatives. In 2010, DaVita opened the first LEED-certified dialysis center in the U.S. Furthermore, it annually saves approximately 8 million pounds of medical waste through dialyzer reuse and it also diverts more than 85% of its waste through composting and recycling programs. It has also undertaken a number of similar initiatives at its offices and is seeking LEED Gold certification for its corporate headquarters. In addition, DaVita was also recognized as an "EPA Green Power Partner" by the U.S. Environmental Protection Agency.

DaVita consistently raises awareness of community needs and makes cash contributions to organizations aimed at improving access to kidney care. DaVita provides significant funding to kidney disease-awareness organizations such as the Kidney TRUST, the National Kidney Foundation, the American Kidney Fund, and several other organizations. Its own employees, or members of the "DaVita Village," assisted in these initiatives and have raised approximately \$5 million, thus far, through the annual Tour DaVita bicycle ride, with \$1 million coming in 2013 alone. The Kidney Rock 5K Run/Walk raised an estimated \$1 million for Bridge of Life – DaVita Medical Missions in 2011 and 2012, combined. DaVita continued its "DaVita Way of Giving" program in 2013 with teammates at clinics across DaVita's 43-state footprint selecting more than 1100 charities from Ronald McDonald House to small community-support entities in their local areas, to receive approximately \$1.2 million in contributions.

DaVita does not limit its community engagement to the U.S. alone. It founded Bridge of Life, a 501(c)(3) nonprofit organization that operates on donations to bring care to those for whom it is out of reach. In 2013, nearly 50 volunteers from Bridge of Life- DaVita Medical Missions™ worked to complete 15 missions in 11 countries, during which volunteers and partners helped to install or repair 77 dialysis machines and train more than 50 kidney care professionals, bringing treatment and quality care to an addition 420 people around the world.

1. Neither the Centers for Medicare and Medicaid Services nor the Illinois Department of Public Health has taken any adverse action involving civil monetary penalties or restriction or termination of participation in the Medicare or Medicaid programs against any of the applicants, or against any Illinois health care facilities owned or operated by the Applicants, directly or indirectly, within three years preceding the filing of this application.

A list of health care facilities owned or operated by the Applicants in Illinois is attached at Attachment – 11B.

Dialysis facilities are currently not subject to State Licensure in Illinois.

2. Certification that no adverse action has been taken against either of the Applicants or against any health care facilities owned or operated by the Applicants in Illinois within three years preceding the filing of this application is attached at Attachment – 11C.

DaVita HealthCare Partners Hits Recognition Milestone

Company earns nationally recognized awards for workplace democracy, work environment, company reputation, innovation, dedication to teammate health

DENVER, Dec. 1, 2014 /PRNewswire/ -- [DaVita HealthCare Partners Inc.](#) (NYSE: DVA), one of the nation's largest and most innovative health care communities, today confirmed earning over 30 awards for excellence from independent organizations in 2014.

"I'm so proud to step back and honor the incredible achievements of our nearly 60,000 teammates and the work they do for our patients, our communities and each other," said Kent Thiry, co-chairman and CEO of DaVita HealthCare Partners.

DaVita HealthCare Partners strives to be a "community first and a company second" and stands behind its commitment to care as intensely for its teammates as it does its patients. This mindset has been recognized in 2014 by [WorldBlu](#), which lists DaVita HealthCare Partners as one of the most democratic workplaces, and [Becker's Hospital Review](#), which lists DaVita HealthCare Partners as one of the 150 Great Places to Work in Healthcare. [Aon Hewitt](#) most recently honored DaVita HealthCare Partners as one of the Top Companies for Leaders in North America.

[Harvard Business Review](#) also recognized DaVita HealthCare Partners in a report from the Reputation Institute, in which the company ranked 37th when measured against other companies around the world. The Reputation Institute considered innovation, workplace, governance, citizenship, leadership, performance, products and services.

Additional awards include:

- [FORTUNE](#) magazine's [World's Most Admired Companies](#) (named to the list for the ninth consecutive year; ranked No. 1 in innovation for health care facilities for the fifth consecutive year)
- [Dorland Health Case In Point](#) (platinum award winner)
- [Health Information Resource Center](#) (bronze and merit National Health Information awards)
- [The National Adult and Influenza Immunization Summit](#) (2014 Immunization Excellence award national champion in the health care personnel campaign category)

In addition to these awards, a complete list of DaVita HealthCare Partners achievements can be found at [DaVita.com/About/Awards](#).

About DaVita HealthCare Partners

DaVita HealthCare Partners Inc., a Fortune 500® company, is the parent company of DaVita Kidney Care and HealthCare Partners. DaVita Kidney Care is a leading provider of kidney care in the United States, delivering dialysis services to patients with chronic kidney failure and end stage renal disease. As of Sept. 30, 2014, DaVita Kidney Care operated or provided administrative services at 2,152 outpatient dialysis centers located in the United States serving approximately 170,000 patients. The company also operated 87 outpatient dialysis centers located in 10 countries outside the United States. HealthCare Partners manages and operates medical groups and affiliated physician networks in Arizona, California, Nevada, New Mexico, and Florida in its pursuit to deliver excellent-quality health care in a dignified and compassionate manner. As of Sept. 30, 2014, HealthCare Partners provided integrated care management for approximately 836,000 patients. For more information, please visit [DaVitaHealthCarePartners.com](#).

DaVita HealthCare Partners Supports Local Nonprofits on Colorado Gives Day

DENVER, Dec. 8, 2014 /PRNewswire-USNewswire/ -- [DaVita HealthCare Partners Inc.](#) (NYSE: DVA), one of the nation's largest and most innovative health care communities, is encouraging individuals and businesses to support local nonprofits on Colorado Gives Day, Dec. 9, in an effort to strengthen community and create a culture of support.

[Colorado Gives Day](#) -- an annual statewide movement to celebrate and increase philanthropy through online giving -- encourages strategic partnerships between businesses, individuals and nonprofits.

"Community engagement and philanthropy are important to the DaVita HealthCare Partners Village and we frequently challenge ourselves on what we're doing to be true corporate citizens," said Kent Thiry, co-chairman and CEO of DaVita HealthCare Partners. "We've contributed more than a million dollars to nonprofits and charities in Colorado so far this year and we thought that by partnering with Colorado Gives Day we can make the most of our giving and encourage others in the community to give too."

For Colorado Gives Day, DaVita HealthCare Partners is donating to the following seven organizations. Individuals can make a donation by clicking on the organization below.

- [City Year Denver](#)
- [Colorado Symphony Orchestra \(CSO\)](#)
- [Denver Center for the Performing Arts \(DCPA\)](#)
- [Denver School of Science and Technology \(DSST\)](#)
- [Public Education Business Coalition \(PEBC\)](#)
- [STRIVE Prep Schools](#)
- [Youth on Record \(YOR\)](#)

Although none of these organizations perform work related to DaVita HealthCare Partners' core business, the company has longstanding relationships with all of them due to its strong commitment to community engagement. All of the organizations benefiting from the donation encourage innovation, creativity and service excellence in the areas of education and culture.

In the last three years, DaVita HealthCare Partners has given nearly \$5 million to local nonprofits in Colorado. But DaVita HealthCare Partners' community engagement goes well beyond corporate philanthropy.

DaVita HealthCare Partners has a unique partnership with Denver Public Schools to design customized leadership and development programs for administrators, principals and teachers. The programs are modeled on longstanding DaVita University training and development courses and initiatives, including Academy, DaVita Way of Management, DaVita Way of Team and DaVita Way of Leadership.

DaVita HealthCare Partners also created a program called "Dynamic Volunteerism" that aims to help local nonprofits grow and thrive in ways unique to their needs. The program matches an organization's needs with a DaVita HealthCare Partners teammate's passion and expertise to help meet the organization's mission and goals.

DaVita HealthCare Partners' worldwide headquarters at 2000 16th St., Denver, CO 80202 is frequently used as a public asset, from conference rooms used by city and state officials for public meetings to its 14th floor marketplace hosting nonprofits for fundraising purposes. This past Election Day, one of the busiest polling places in the state of Colorado was in DaVita Healthcare Partners headquarters' lobby.

This year, DaVita HealthCare Partners also gave more than \$1.5 million to nonprofits across the country through the DaVita® Way of Giving, the company's locally focused charitable giving initiative that helps 501(c)(3) nonprofit organizations grow and thrive. As active and engaged citizens in their communities, teammates were encouraged to democratically choose locally based nonprofits to receive contributions.

Giving back is part of DaVita HealthCare Partners' Trilogy of Care: Caring for Our Patients, Caring for Each Other and Caring for the World. As a community first and a company second, DaVita HealthCare Partners has a passion for and commitment to clinical excellence and improving patients' health and quality of life.

DaVita HealthCare Partners Donates \$1.5 Million During Annual Support of Charities

"DaVita Way of Giving" Provides Teammates an Opportunity to Make a Difference in Local Communities

DENVER, Dec. 10, 2014 /PRNewswire/ -- [DaVita HealthCare Partners Inc.](#) (NYSE: DVA), a leading provider of kidney care and health care services, today announced that its clinical teammates donated more than \$1.5 million to charities across the United States through the "DaVita Way of Giving."

For the fourth consecutive year, DaVita HealthCare Partners teammates participated in the DaVita® Way of Giving, a locally focused charitable giving initiative that helps 501(c)(3) nonprofit organizations across the country grow and thrive.

Clinical teammates from [DaVita Kidney Care](#) and [HealthCare Partners](#) were encouraged to democratically choose charities in their communities to receive contributions. This is the first time HealthCare Partners teammates participated in the initiative.

"As the DaVita HealthCare Partners Village, we strive to make a difference in the communities where we live and work," said Javier Rodriguez, CEO of DaVita Kidney Care. "We believe in taking care of our fellow citizens and making a sustainable impact where it matters most. Our communities are only as strong as we make them, so it's important for us as corporate citizens to foster growth among organizations that care for our most vulnerable."

Corporate leaders encouraged clinical teammates to choose charities that are locally based and make a positive impact for residents. Charities included relief organizations, animal shelters, food banks, children's organizations, crisis centers, health clinics and many more.

In addition to providing grants, clinical teammates are encouraged to volunteer their time through community service projects – known internally as Village Service Days – to develop or foster relationships with nonprofits. Since 2006, DaVita HealthCare Partners teammates and their family and friends have participated in more than 1,300 Village Service Days, volunteering nearly 76,000 hours of service.

DaVita Way of Giving is one of many programs dedicated to spreading ripples of citizen leadership through DaVita HealthCare Partners' Trilogy of Care – Caring for Our Patients, Caring for Each Other and Caring for Our World.

For more information about DaVita HealthCare Partners' community engagement efforts, please visit DaVita.com/CSR.

Kathryn Olson
Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Dear Chairwoman Olson:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 that no adverse action as defined in 77 IAC 1130.140 has been taken against any in-center dialysis facility owned or operated by DaVita HealthCare Partners Inc. or Renal Life Link, Inc. in the State of Illinois during the three year period prior to filing this application.

Additionally, pursuant to 77 Ill. Admin. Code § 1110.230(a)(3)(C), I hereby authorize the Health Facilities and Services Review Board ("HFSRB") and the Illinois Department of Public Health ("IDPH") access to any documents necessary to verify information submitted as part of this application for permit. I further authorize HFSRB and IDPH to obtain any additional information or documents from other government agencies which HFSRB or IDPH deem pertinent to process this application for permit.

Sincerely,

Print Name: Arturo Sida
Its: Vice President, Associate General Counsel and
Assistant Corporate Secretary
DaVita HealthCare Partners Inc.

Subscribed and sworn to me

This ___ day of _____, 2014

Section III, Project Purpose, Background and Alternatives – Information Requirements
Criterion 1110.230(b), Project Purpose, Background and Alternatives

Purpose of the Project

1. The Applicants propose to relocate the Existing Facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 2.26 miles, or approximately 5 minutes to 6236-6246 West 95th Street, Oak Lawn, Illinois 60453 (the "Replacement Facility").

The Existing Facility is suboptimal for both patients and staff. As the Applicant does not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. While the Existing Facility shares a small parking lot with other medical businesses and shares a common wall with one, the mechanical room and the server / computer room for all of the businesses are housed within the Existing Facility. There is no way to access the server / computer room without going through the treatment floor, creating a potential infection control concern. The Existing Facility has physical plant issues pertaining to plumbing, HVAC, and flooring. The site of the Replacement Facility was selected due to its proximity to the Existing Facility, the necessary space it provides for current and future expansion needs, as well as the parking availability for patients, staff, and vendors. The proposed Replacement Facility will create numerous operational and logistical efficiencies.

The Existing Facility has suboptimal sight-lines for monitoring of patients. Work station design for patient and staff visibility is fundamental in the design of any environment where caregivers must work as a team with groups of immobilized patients. Properly designed work stations and clinical areas allow clinicians to be aware of patients' conditions, their presence, their actions and their needs. Similarly, patients are able to communicate efficiently with staff to get their attention to report problems and to request assistance. This is fundamental in care delivery relative to safety, efficiency and flexibility in the care environment. Obstructed sight lines can be a significant issue in dialysis because of vascular access issues that occur during dialysis and blood loss risks relating to needles potentially dislodging. Also, obstructed sight lines pose increased safety risks because patients are often sleeping and may be unaware if their needle dislodges and are unable to leave their chairs without assistance when dialysis is being administered. Thus, the Applicants must relocate to a modern facility, with enhanced accommodations and improved utilities, to improve access and better provide for the needs of the area's ESRD patients and their families.

The Replacement Facility is needed to serve the growing demand for dialysis services in the area. Currently, the Existing Facility serves 61 in-center ESRD patients. James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 61 current patients will transfer to the Replacement Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion. The existing facility's 61 current patients represents an 84.7% utilization rate, which already exceeds the State's 80% standard. With the expected growth in patient volume, the Existing Facility must relocate in order to have the capacity to expand in subsequent years. The Replacement Facility will be plumbed to accommodate up to 16 stations. This will allow for a future census capacity of 96 in-center ESRD patients.

As shown in Attachment – 12A, including the Existing Facility for Stony Creek Dialysis, there are currently 54 existing or approved dialysis facilities within 30 minutes normal travel time of the proposed location of the Replacement Facility. As collected and reported by the Staff of the IHFSRB, the ESRD utilization for existing and approved facilities for the quarter ended September 30, 2014 is 71.62%. When excluding the 5 facilities that are not yet open / operational (NxStage Oak Brook, Nocturnal Dialysis Spa, FMC Summit, Chicago Ridge Dialysis, and SAH Dialysis at 26th Street), the utilization jumps to 76.27%. Importantly, the utilization of existing and approved clinics within 20

minutes normal travel time of the proposed site is 75.04%. However, when excluding the 2 facilities that are not yet open / operational, the utilization is 80.72% or approximately 1% above the State Board's utilization standard.

2. A map of the market area for the proposed facility is attached at Attachment – 12B. The market area encompasses an approximate 15 mile radius around the proposed facility. The boundaries of the market area are as follows:
 - North approximately 30 minutes normal travel time to Cicero, Illinois.
 - Northeast approximately 30 minutes normal travel time to Washington Park, Illinois.
 - East approximately 30 minutes normal travel time to Lake Michigan.
 - Southeast approximately 30 minutes normal travel time to Dolton, Illinois.
 - South approximately 30 minutes normal travel time to Country Club Hills, Illinois.
 - Southwest approximately 30 minutes normal travel time to Lemont, Illinois.
 - West approximately 30 minutes normal travel time to Bolingbrook, Illinois.
 - Northwest approximately 30 minutes normal travel time to Villa Park, Illinois.

4. As stated above, the Existing Facility is suboptimal for both patients and staff. As the Applicant does not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. While the Existing Facility shares a small parking lot with other medical businesses and shares a common wall with one, the mechanical room and the server / computer room for all of the businesses are housed within the Existing Facility. There is no way to access the server / computer room without going through the treatment floor, creating a potential infection control concern. The Existing Facility has physical plant issues pertaining to plumbing, HVAC, and flooring. The site of the Replacement Facility was selected due to its proximity to the Existing Facility, the necessary space it provides for current and future expansion needs, as well as the parking availability for patients, staff, and vendors. The proposed relocation facility will create numerous operational and logistical efficiencies. Thus, the Applicants decided to relocate to a modern facility, with enhanced accommodations and improved utilities, to better provide for current and future ESRD patient needs.
5. The Applicants anticipate the proposed facility will have quality outcomes comparable to other DaVita facilities. Additionally, in an effort to better serve all kidney patients, DaVita believes in requiring all providers measure outcomes in the same way and report them in a timely and accurate basis or be subject to penalty. There are four key measures that are the most common indicators of quality care for dialysis providers - dialysis adequacy, fistula use rate, nutrition and bone and mineral metabolism. Adherence to these standard measures has been directly linked to 15-20% fewer hospitalizations. On each of these measures, DaVita has demonstrated superior clinical outcomes, which directly translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical

outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

Section III, Project Purpose, Background and Alternatives – Information Requirements
Criterion 1110.230(c), Project Purpose, Background and Alternatives

Alternatives

The Applicants explored several options prior to determining to relocate Stony Creek Dialysis. After exploring the options below in detail, the Applicants determined to relocate the Existing Facility in order to create operational efficiencies. A review of each of the options considered and the reasons they were rejected follows.

Do Nothing

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul. As the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office, the limited number of allowable handicapped parking spaces (2) are frequently unavailable. These handicapped spaces are centrally located in parking lot and not directly in front of the dialysis unit. The configuration of the parking lot prohibits the larger patient transport vehicles (vans) from dropping patients off and picking them up by the entrance to the building. The drivers of these vehicles often get ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street. Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies.

There is no capital cost with this alternative.

Renovate the Existing Facility

As the Applicants do not own the building, it has determined that it will be better able to serve the needs of its patients if the service is relocated to a modern facility. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility also has no dedicated conference room. The lobby / patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines.

The Applicants considered renovating the Existing Facility. However, many of the issues identified cannot be addressed through renovation. The Existing Facility is landlocked and cannot accommodate future growth or expansion. Thus, the Applicants decided to relocate to a modern facility with an updated functional design and space to expand, to address the growing need for dialysis services in the community, to better address its patients' needs and improve access to a broader patient-base.

Utilize Existing Facilities

The Replacement Facility is needed to serve the growing demand for dialysis services in the area. Currently, the Existing Facility serves 61 in-center ESRD patients. James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 61 current patients will transfer to the Replacement

Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. As shown in Attachment – 12A, including the Existing Facility, there are currently 54 existing or approved dialysis facilities within 30 minutes normal travel time of the proposed location of the Replacement Facility. Importantly, the utilization of operating clinics within 20 minutes normal travel time of the proposed site is 80.72% or approximately 1% above the State Board's utilization standard. Accordingly, there is insufficient capacity to accommodate all of Dr. Rydel's projected patients. With the expected growth in patient volume, the Existing Facility must relocate in order to have the capacity to expand in subsequent years. The Replacement Facility will be plumbed to accommodate up to 16 stations, which will allow for a future census capacity of 96 in-center ESRD patients.

There is no capital cost with the alternative of utilizing Existing Facilities. However, the Existing Facilities, in their present state, will not be able to accommodate the project growth in ESRD patients over the next 24 months.

Relocate Stony Creek Dialysis

DaVita determined that the most effective and efficient way to serve its patients and address the dialysis needs of HSA 7 is to relocate the existing facility. The proposed site for the Replacement Facility is located 2.26 miles from the current site, and will adequately serve Stony Creek Dialysis's current and projected patient-base.

Thus, the Applicants selected this option.

The cost associated with this option is **\$3,711,340**.

Section IV, Project Scope, Utilization, and Unfinished/Shell Space
Criterion 1110.234(a), Size of the Project

The Applicants propose to relocate an existing dialysis facility. Pursuant to Section 1110, Appendix B of the HFSRB's rules, the State standard allows for a maximum of 4,320 to 6,240 gross square feet for 12 dialysis stations. The total gross square footage of the proposed dialysis facility is 7,342 gross square feet. The Replacement Facility exceeds the State standard by 1,102 GSF (approximately 92 GSF per station). However, the Replacement Facility is being plumbed for 16-stations in anticipation of projected need for dialysis in the area.

Table 1110.234(a)				
SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?
ESRD	7,342 GSF	6,240 GSF	1,102	EXCEEDS

Section IV, Project Scope, Utilization, and Unfinished/Shell Space
Criterion 1110.234(b), Project Services Utilization

By the second year of operation, the proposed facility's annual utilization will meet HFSRB's utilization standard of 80%. Pursuant to Section 1100.1430 of the HFSRB's rules, facilities providing in-center hemodialysis should operate their dialysis stations at or above an annual utilization rate of 80%, assuming three patient shifts per day per dialysis station, operating six days per week.

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 61 current patients will transfer to the Replacement Facility. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion.

	Dept./ Service	Historical Utilization (Treatments)	Projected Utilization	State Standard	Met Standard?
2011	ESRD	9,907	N/A	8,986	Yes
2012	ESRD	10,269	N/A	8,986	Yes
2013	ESRD	10,122	N/A	8,986	Yes
2014 Projected	ESRD	N/A	9,892	8,986	Yes
2015 Projected	ESRD	N/A	10,048	8,986	Yes
2016 Projected	ESRD	N/A	10,240	8,986	Yes

Section IV, Project Scope, Utilization, and Unfinished/Shell Space
Criterion 1110.234(c), Unfinished or Shell Space

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

Section IV, Project Scope, Utilization, and Unfinished/Shell Space
Criterion 1110.234(d), Assurances

This project will not include unfinished space designed to meet an anticipated future demand for service. Accordingly, this criterion is not applicable.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(b), Planning Area Need

1. Planning Area Need

The Applicants propose to relocate its existing 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 2.26 miles, or approximately 5 minutes to 6236-6246 West 95th Street, Oak Lawn, Illinois 60453. The Existing Facility is suboptimal for both patients and staff. There is a poorly functioning HVAC system, in addition to plumbing and flooring issues, creating safety concerns for patients, visitors, and staff. Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies and does not comply with DaVita's internal physical plant standards in terms of unobstructed sight lines to patients. The mechanical room and the server / computer room for at least three other medical businesses are housed within the walls of the Existing Facility creating potential patient privacy and infection control concerns. The parking lot is too congested for the number of medical facilities and the two handicapped spaces are not in front of the Existing Facility.

The site of the Replacement Facility is in a strip mall, approximately 2.26 miles away, with a large parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the relocation site will allow for a conference room, adequate hazardous waste area, restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all treating patients from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs and improve access.

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 61 current patients will transfer to the Replacement Facility. See Appendix – 3. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion.

The relocation of Stony Creek Dialysis is necessary to meet the dialysis needs of these patients, and will allow for safer and more optimal treatment times for patients. See Appendix – 3.

2. Service to Planning Area Residents

The primary purpose is to ensure that the ESRD patient population of the greater Oak Lawn area has access to life sustaining dialysis. As evidenced in the physician referral letter attached at Appendix – 3, all 61 current patients are expected to transfer to the proposed facility and all 39 of his Stage 4 and 5 pre-ESRD patients live within 20 minutes of the proposed facility.

3. Service Demand – Establishment of In-Center Hemodialysis Service

James J. Rydel, M.D., the Medical Director for Stony Creek Dialysis, anticipates all 61 current patients will transfer to the Replacement Facility. See Appendix – 3. Furthermore, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. See Appendix – 3. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion.

4. Service Accessibility

As set forth throughout this application, the proposed relocation is needed to maintain access to life-sustaining dialysis for patients in the greater Oak Lawn area. The relocation is necessary to provide essential care to ESRD patients in the Oak Lawn community, as the Existing Facility is in need of repair and cannot adequately serve the patient needs. The Replacement Facility will better accommodate current and future demand for dialysis services and ensure dialysis services are accessible to residents of Oak Lawn.

the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion.

4. Service Accessibility

As set forth throughout this application, the proposed relocation is needed to maintain access to life-sustaining dialysis for patients in the greater Oak Lawn area. The relocation is necessary to provide essential care to ESRD patients in the Oak Lawn community, as the Existing Facility is in need of repair and cannot adequately serve the patient needs. The Replacement Facility will better accommodate current and future demand for dialysis services and ensure dialysis services are accessible to residents of Oak Lawn.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(c), Unnecessary Duplication/Maldistribution

1. Unnecessary Duplication

- a. The proposed dialysis facility will be located at 6236-6246 West 95th Street, Oak Lawn, Illinois 60453. A map of the Stony Creek Dialysis market area is attached at Attachment – 26A. A list of all zip codes located, in total or in part, within 30 minutes normal travel time of the site of the proposed dialysis facility as well as 2010 census figures for each zip code is provided in Table 1110.1430(c)(1)(A) below.

Table 1110.1430(c)(1)(A) Population of Zip Codes within 30 Minutes of Proposed Facility		
Zip Code	City	Population

- b. A list of existing and approved dialysis facilities located within 30 minutes normal travel time of the proposed dialysis facility is provided at Attachment – 26B.

2. Maldistribution of Services

The proposed dialysis facility will not result in a maldistribution of services. A maldistribution exists when an identified area has an excess supply of facilities, stations, and services characterized by such factors as, but not limited to: (1) ratio of stations to population exceeds one and one-half times the State Average; (2) historical utilization for existing facilities and services is below the State Board's utilization standard; or (3) insufficient population to provide the volume or caseload necessary to utilize the services proposed by the project at or above utilization standards. As discussed more fully below, the ratio of stations to population in the geographic service area is 133.0% of the State average, and the average utilization of existing dialysis facilities within the GSA is 71.62%. Importantly, average 9/30/2014 utilization of operational facilities within 20 minutes of the proposed relocation site was 80.72%. Sufficient population exists to achieve target utilization. Accordingly, the proposed dialysis facility will not result in a maldistribution of services.

a. Ratio of Stations to Population

As shown in Table 1110.1430(c)(2)(A), the ratio of stations to population is 133.0% of the State Average.

Table 1110.1430(c)(2)(A) Ratio of Stations to Population				
	Population	Dialysis Stations	Stations to Population	Standard Met?
Geographic Service Area	2,409,264	1,033	1:2,332	Yes
State	12,830,632	4,136	1:3,102	

b. Historic Utilization of Existing Facilities

As recently as October 31, 2014, the Existing Facility operated at 84.7% utilization. Following relocation to a more accessible modern space, Dr. Rydel anticipates that he will refer approximately 25 of the current pre-ESRD patients to the Replacement Facility within the first 12 to 24 months of project completion. As a result, the facility will continue to maintain target utilization within 24 months following project completion. Accordingly, there is sufficient patient population to justify the need for the Replacement Facility. There will be no maldistribution of services.

c. Sufficient Population to Achieve Target Utilization

The Applicants propose to discontinue their existing 12-station facility and establish a 12-station facility. The Existing Facility treated 61 patients, as of October 31, 2014. To achieve the State Board's 80% utilization standard for a 12-station facility, within the first two years after project completion, the Applicants would not need any additional patient referrals. (The Existing Facility already exceeds 80% utilization.) As stated in Appendix – 3, conservatively, Dr. Rydel anticipates referring 25 of the current pre-ESRD patients within 12 to 24 months of project completion. As the future referrals to Stony Creek Dialysis grow, the proposed dialysis facility will expand to accommodate the additional patients. Accordingly, there is sufficient population to achieve target occupancy.

3. Impact to Other Providers

- a. The proposed dialysis facility will not have an adverse impact on existing facilities in the proposed geographic service area. All of the identified patients will either be transfers from the Existing Facility or referrals of pre-ESRD patients. No patients will be transferred from other existing dialysis facilities.
- b. The proposed dialysis facility will not lower the utilization of other area providers that are operating below the occupancy standards.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(e), Staffing

1. The proposed facility will be staffed in accordance with all State and Medicare staffing requirements.
 - a. Medical Director: James J. Rydel, M.D. will serve as the Medical Director for the proposed facility. A copy of Dr. Rydel's curriculum vitae is attached at Attachment – 26C.
 - b. As discussed throughout this application, the Applicants seek authority to discontinue their existing 12-station dialysis facility and establish and relocate to a 12-station dialysis facility. The Existing Facility is Medicare certified and fully staffed with a medical director, administrator, registered nurses, patient care technicians, social worker, and registered dietitian. Upon discontinuation of the Existing Facility, all current staff will be transferred to the Replacement Facility.
2. All staff will be trained under the direction of the facility's Governing Body, utilizing DaVita's comprehensive training program. DaVita's training program meets all State and Medicare requirements. The training program includes introduction to the dialysis machine, components of the hemodialysis system, infection control, anticoagulation, patient assessment/data collection, vascular access, kidney failure, documentation, complications of dialysis, laboratory draws, and miscellaneous testing devices used. In addition, it includes in-depth theory on the structure and function of the kidneys; including homeostasis, renal failure, ARF/CRF, uremia, osteodystrophy and anemia, principles of dialysis; components of hemodialysis system; water treatment; dialyzer reprocessing; hemodialysis treatment; fluid management; nutrition; laboratory; adequacy; pharmacology; patient education, and service excellence. A summary of the training program is attached at Attachment – 26D.
3. As set forth in the letter from Arturo Sida, Vice President, Associate General Counsel and Assistant Corporate Secretary of DaVita HealthCare Partners Inc., attached at Attachment – 26E, the Replacement Facility will maintain an open medical staff.

CURRICULUM VITAE

James J Rydel, MD, FACP

4542 W. 95th St.

Oak Lawn, IL 60453

(708)-425-0522

PERSONAL:

Birthplace Chicago, IL, USA

Marital status: married; Valerie C. Walker, MD

Children: Andrew, Miranda, Madeleine, and Luke

EDUCATION

William Howard Taft High School, Chicago, Illinois

University of Illinois at Chicago, Chicago, IL; B.S, Biology, Chemistry (majors), Mathematics (minor), 1981

University of Illinois at Chicago, Chicago, IL; M.S, Molecular Biology; 1981-83

Rush Medical College, Chicago, IL; M.D. 1983-88

INTERNSHIP

Rush-Presbyterian St. Luke's Medical Center, Chicago, IL; Internal Medicine, 1988-89

RESIDENCY

Rush-Presbyterian St. Luke's Medical Center, 1989-1991

Chief Resident: 1991-1992

FELLOWSHIP

Rush-Presbyterian St. Luke's Medical Center, Chicago, IL, Department of Pathology, Post-sophomore fellowship in pathology, 1985-86.

Nephrology Fellowship: Rush-Presbyterian St. Luke's Medical Center, Chicago, IL; 1992-94

HONORS AND AWARDS

Phi Kappa Phi, Phi Beta Sigma, University of Illinois at Chicago, 1981

Sigma Xi Research Society, Rush Medical College, 1984

Herrick Award, Rush Medical College, 1984

Muehrcke Outstanding Student Nephrology Award, Rush Medical College, 1987

Discussant, CPC for Graduating class of 1988, Rush Medical College, 06/10/88

Intern of the Year Award, Department of Medicine, Rush-Presbyterian St. Luke's Medical Center, 1988-89

Aesculapius Teaching Award, Rush Medical College, 1990

Aesculapius Teaching Award, Rush Medical College, 1992

Department of Internal Medicine Teaching and Service Award, Rush-Presbyterian St. Luke's Medical Center, 1991-92

Top 500 Doctors, Chicago Magazine; January, 1997

Teacher of the Year, Christ Hospital and Medical Center, June 1997

Teacher of the Year, Christ Hospital and Medical Center, June 1999

How to Find the Best Doctors, 1st Ed. Castle Connolly Guide, 1999, p. 195, July, 1999.

Distinctive Recognition by the Nurses at Christ Hospital and Medical Center, 4th quarter, 1999 for compassion and flexibility

Fellow, American College of Physicians, July 2001-present

Top Doctors, Chicago Metro Area; page 220, July 2001

Best Doctors in America, 2007, 2008, 2009, 2010, 2011, 2012, 2013.

Bassam Habbal MD Award for Outstanding Teaching and Consulting, Advocate Christ Hospital and Medical Center, Family Medicine Department, 2004

Recognition for Outstanding Teaching in Family Medicine, Christ Hospital and Medical Center, 2005-present

Recognition for Teaching in Internal Medicine, Department of Internal Medicine, Christ Hospital and Medical Center, 2001-present

Physician Recognition Award, Christ Hospital and Medical Center; 2nd quarter, 2014

ORGANIZATIONS

Physicians for Social Responsibility

TITLE: BASIC TRAINING PROGRAM OVERVIEW

Mission

DaVita's Basic Training Program for Hemodialysis provides the instructional preparation and the tools to enable teammates to deliver quality patient care. Our core values of *service excellence, integrity, team, continuous improvement, accountability, fulfillment and fun* provide the framework for the Program. Compliance with State and Federal Regulations and the inclusion of DaVita's Policies and Procedures (P&P) were instrumental in the development of the program.

Explanation of Content

Two education programs for the new nurse or patient care technician (PCT) are detailed in this section. These include the training of new DaVita teammates **without** previous dialysis experience and the training of the new teammates **with** previous dialysis experience. A program description including specific objectives and content requirements is included.

This section is designed to provide a *quick reference* to program content and to provide access to key documents and forms.

The **Table of Contents** is as follows:

- I. Program Overview (TR1-01-01)
- II. Program Description (TR1-01-02)
 - Basic Training Class Outline (TR1-01-02A)
 - Basic Charge Nurse Training Class Outline (TR1-01-02B)
- III. Education Enrollment Information (TR1-01-03)
- IV. Education Standards (TR1-01-04)
- V. Verification of Competency
 - New teammate without prior experience (TR1-01-05)
 - New teammate with prior experience (TR1-01-06)
 - Medical Director Approval Form (TR1-01-07)
- VI. Evaluation of Education Program
 - Program Evaluation
 - Basic Training Classroom Evaluation (TR1-01-08A)
 - Basic Charge Nurse Training Classroom Evaluation (TR1-01-08B)
 - Curriculum Evaluation
- VII. Additional Educational Forms
 - New Teammate Weekly Progress Report for the PCT (TR1-01-09)
 - New Teammate Weekly Progress Report for Nurses (TR1-01-10)
 - Training hours tracking form (TR1-01-11)
- VIII. State-specific information/forms (as applicable)

**TITLE: BASIC TRAINING FOR HEMODIALYSIS PROGRAM
DESCRIPTION**

Introduction to Program

The Basic Training Program for Hemodialysis is grounded in DaVita's Core Values. These core values include a commitment to providing *service excellence*, promoting *integrity*, practicing a *team* approach, systematically striving for *continuous improvement*, practicing *accountability*, and experiencing *fulfillment* and *fun*.

The Basic Training Program for Hemodialysis is designed to provide the new teammate with the theoretical background and clinical skills necessary to function as a competent hemodialysis patient care provider.

DaVita hires both non-experienced and experienced teammates. Newly hired teammates must meet all applicable State requirements for education, training, credentialing, competency, standards of practice, certification, and licensure in the State in which he or she is employed. For individuals with experience in the armed forces of the United States, or in the national guard or in a reserve component, DaVita will review the individual's military education and skills training, determine whether any of the military education or skills training is substantially equivalent to the Basic Training curriculum and award credit to the individual for any substantially equivalent military education or skills training.

A **non-experienced teammate** is defined as:

- A newly hired patient care teammate without prior dialysis experience.
- A rehired patient care teammate who left prior to completing the initial training.
- A newly hired or rehired patient care teammate with previous dialysis experience who has not provided at least 3 months of hands on dialysis care to patients within the past 12 months.

An **experienced teammate** is defined as:

- A newly hired or rehired teammate who can show proof of completing a dialysis training program and has provided at least 3 months of hands on dialysis care to patients within the past 12 months.

The curriculum of the Basic Training Program for Hemodialysis is modeled after Federal Law and State Boards of Nursing requirements, the American Nephrology Nurses Association Core Curriculum for Nephrology Nursing, and the Board of Nephrology Examiners Nursing and Technology guidelines. The program also incorporates the policies, procedures, and guidelines of DaVita HealthCare Partners Inc.

“Day in the Life” is DaVita’s learning portal with videos for RNs, LPN/LVNs and patient care technicians. The portal shows common tasks that are done throughout the workday and provides links to policies and procedures and other educational materials associated with these tasks thus increasing their knowledge of all aspects of dialysis. It is designed to be used in conjunction with the “Basic Training Workbook.”

Program Description

The education program for the newly hired patient care provider teammate **without prior dialysis experience** is composed of at least (1) 120 hours didactic instruction and a minimum of (2) 240 hours clinical practicum, unless otherwise specified by individual state regulations.

The **didactic phase** consists of instruction including but not limited to lectures, readings, self-study materials, on-line learning activities, specifically designed hemodialysis workbooks for the teammate, demonstrations and observations. This education may be coordinated by the Clinical Services Specialist (CSS), a nurse educator, the administrator, or the preceptor.

Within the clinic setting this training includes

- Principles of dialysis
- Water treatment and dialysate preparation
- Introduction to the dialysis delivery system and its components
- Care of patients with kidney failure, including assessment, data collection and interpersonal skills
- Dialysis procedures and documentation, including initiation, monitoring, and termination of dialysis
- Vascular access care including proper cannulation techniques
- Medication preparation and administration
- Laboratory specimen collection and processing
- Possible complications of dialysis
- Infection control and safety
- Dialyzer reprocessing, if applicable

The program also introduces the new teammate to DaVita Policies and Procedures (P&P), and the Core Curriculum for Dialysis Technicians.

The **didactic phase** also includes classroom training with the CSS or nurse educator. Class builds upon the theory learned in the Workbooks and introduces the students to more advanced topics. These include:

- Acute Kidney Injury vs. Chronic Renal Failure
- Manifestations of Chronic Renal Failure
- Normal Kidney Function vs. Hemodialysis
- Documentation & Flow Sheet Review

- Patient Self-management
- Motivational Interviewing
- Infection Control
- Data Collection and Assessment
- Water Treatment and Dialyzer Reprocessing
- Fluid Management
- Pharmacology
- Vascular Access
- Renal Nutrition
- Laboratory
- The Hemodialysis Delivery System
- Adequacy of Hemodialysis
- Complications of Hemodialysis
- Importance of P&P
- Role of the Renal Social Worker
- Conflict Resolution
- The DaVita Quality Index

Also included are workshops, role play, and instructional videos. Additional topics are included as per specific state regulations.

A final comprehensive examination score of 80% (unless state requires a higher score) must be obtained to successfully complete this portion of the didactic phase. If a score of less than 80% is attained, the teammate will receive additional appropriate remediation and a second exam will be given.

Also included in the **didactic phase** is additional classroom training covering Health and Safety Training, systems/applications training, One For All orientation training, Compliance training, Diversity training, mandatory water classes, emergency procedures specific to facility, location of disaster supplies, and orientation to the unit.

The **didactic phase** for nurses includes three days of additional classroom training and covers the following topics:

- Nephrology Nursing, Scope of Practice, Delegation and Supervision, Practicing according to P&P
- Nephrology Nurse Leadership
- Impact – Role of the Nurse
- Care Planning including developing a POC exercise
- Achieving Adequacy with focus on assessment, intervention, available tools
- Interpreting laboratory Values and the role of the nurse

- Hepatitis B – surveillance, lab interpretation, follow up, vaccination schedules
- TB Infection Control for Nurses
- Anemia Management – ESA Hyporesponse: a StarLearning Course
- Survey Readiness
- CKD-MBD – Relationship with the Renal Dietitian
- Pharmacology for Nurses – video
- Workshop
 - Culture of Safety, Conducting a Homeroom Meeting
 - Nurse Responsibilities, Time Management
 - Communication – Meetings, SBAR (Situation, Background, Assessment, Recommendation)
 - Surfing the VillageWeb – Important sites and departments, finding information

The **clinical practicum phase** consists of supervised clinical instruction provided by the facility preceptor, and/or a registered nurse. During this phase the teammate will demonstrate a progression of skills required to perform the hemodialysis procedures in a safe and effective manner. A *Procedural Skills Verification Checklist* will be completed to the satisfaction of the preceptor, and a registered nurse overseeing the training. The Basic Training workbook for Hemodialysis will also be utilized for this training and must be completed to the satisfaction of the preceptor and the registered nurse.

Those teammates who will be responsible for the Water Treatment System within the facility are required to complete the Mandatory Educational Water courses and the corresponding skills checklists.

Both the didactic phase and/or the clinical practicum phase will be successfully completed, along with completed and signed skills checklists, prior to the new teammate receiving an independent assignment. The new teammate is expected to attend all training sessions and complete all assignments and workbooks.

The education program for the newly hired patient care provider teammate **with previous dialysis experience** is individually tailored based on the identified learning needs. The initial orientation to the *Health Prevention and Safety Training* will be successfully completed prior to the new teammate working/receiving training in the clinical area. The new teammate will utilize the Basic Training Workbook for Hemodialysis and progress at his/her own pace. This workbook should be completed within a timely manner as to also demonstrate acceptable skill-level. The *Procedural Skills Verification Checklist* including verification of review of applicable P&P will be completed by the preceptor, and the registered nurse in charge of the training upon demonstration of an acceptable skill-level by the new teammate, and then signed by the new teammate, the RN trainer and the facility administrator.

Ideally teammates will attend Basic Training Class, however, teammates with experience may opt-out of class by successful passing of the *Initial Competency Exam* with a score of 80% or higher. The CSS or RN Trainer responsible for teaching Basic Training Class will enroll the new teammate with experience in the Initial Competency Exam on the LMS. The new teammate's preceptor will proctor the exam. The new experienced teammate should complete all segments of the workbook including the recommended resources to prepare for taking the *Initial Competency Exam* as questions not only assess common knowledge related to the hemodialysis treatment but also knowledge related to specific DaVita P&P, treatment outcome goals based on clinical initiatives and patient involvement in their care. Prior to the new teammate receiving an independent patient-care assignment, the skills checklist must be completed and signed along with a passing score from the classroom or the *Initial Competency Exam*. If the new teammate receives a score of less than 80% on the *Initial Competency Exam*, this teammate will be required to attend Basic Training Class. If the new teammate receives a score of less than 80% on the final comprehensive classroom exam, this teammate will receive theory instruction pertaining to the area of deficiency and a second competency exam will then be given. If the new teammate receives a score of less than 80% on the second exam, this teammate will be evaluated by the administrator, preceptor, and educator to determine if completion of formal training is appropriate.

Following completion of the training, a *Verification of Competency* form will be completed (see forms TR1-01-05, TR1-01-06). In addition to the above, further training and/or certification will be incorporated as applicable by state law.

The goal of the program is for the trainee to successfully meet all training requirements. Failure to meet this goal is cause for dismissal from the training program and subsequent termination by the facility.

Process of Program Evaluation

The Hemodialysis Education Program utilizes various evaluation tools to verify program effectiveness and completeness. Key evaluation tools include the DaVita Basic Training Class Evaluation (TR1-01-08A) and Basic Training Nursing Fundamentals (TR1-0108B), the New Teammate Satisfaction Survey and random surveys of facility administrators to determine satisfaction of the training program. To assure continuous improvement within the education program, evaluation data is reviewed for trends, and program content is enhanced when applicable to meet specific needs.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(f), Support Services

Attached at Attachment – 26E is a letter from Arturo Sida, Vice President, Associate General Counsel and Assistant Corporate Secretary of DaVita HealthCare Partners Inc. attesting that the proposed facility will participate in a dialysis data system, will make support services available to patients, and will provide training for self-care dialysis, self-care instruction, home and home-assisted dialysis, and home training.

Kathryn Olson
Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Re: Certification of Support Services

Dear Chairwoman Olson:

I hereby certify under penalty of perjury as provided in § 1-109 of the Illinois Code of Civil Procedure, 735 ILCS 5/1-109 and pursuant to 77 Ill. Admin. Code § 1110.1430(f) that Stony Creek Dialysis will maintain an open medical staff.

I also certify the following with regard to needed support services:

- DaVita utilizes an dialysis electronic data system;
- Stony Creek Dialysis will have available all needed support services required by CMS which may consist of clinical laboratory services, blood bank, nutrition, rehabilitation, psychiatric services, and social services; and
- Patients, either directly or through other area DaVita facilities, will have access to training for self-care dialysis, self-care instruction, and home hemodialysis and peritoneal dialysis.

Sincerely,

Print Name: Arturo Sida
Its: Vice President, Associate General Counsel and
Assistant Corporate Secretary
DaVita HealthCare Partners Inc.

Name of Person(s) or Entity(ies): DaVita HealthCare Partners Inc. / Stony Creek Dialysis

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(g), Minimum Number of Stations

The proposed dialysis facility will be located in the Chicago-Joliet-Naperville metropolitan statistical area ("MSA"). A dialysis facility located within an MSA must have a minimum of eight dialysis stations. The Applicants propose to establish a 12-station dialysis facility. Accordingly, this criterion is met.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(h), Continuity of Care

DaVita HealthCare Partners Inc. has an agreement with Advocate Health and Hospitals Corporation d/b/a Advocate Christ Medical Center to provide inpatient care and other hospital services. Attached at Attachment – 26F is a copy of the service agreement with this area hospital.

**TRANSFER AGREEMENT
BETWEEN
ADVOCATE HEALTH AND HOSPITALS CORPORATION
d/b/a ADVOCATE CHRIST MEDICAL CENTER
AND
STONY CREEK DIALYSIS CENTER**

This Agreement is made and effective as of the 19th day of June, 2006, between Advocate Health and Hospitals Corporation d/b/a Advocate Christ Medical Center, an Illinois not-for-profit corporation ("MEDICAL CENTER"), and Stony Creek Dialysis Center, DaVita, Inc., a for-profit corporation ("FACILITY").

WHEREAS, both parties to this agreement desire to assure continuity of care and treatment appropriate to the needs of each patient in the MEDICAL CENTER and the FACILITY, and to use the skills, resources, and physical plant for patient care at both the acute and post-acute stages of illness.

NOW, THEREFORE, IN CONSIDERATION of the mutual advantage occurring to the parties hereto, the MEDICAL CENTER and FACILITY hereby covenant and agree with each other as follows:

1. Autonomy. The Board of Directors of the MEDICAL CENTER and the Board of Directors of the FACILITY shall continue to have exclusive control of the management, assets and affairs of their institutions, and neither party by virtue of this Agreement shall assume any liability for any debts or obligations which have been or which may be incurred by the other party to this Agreement.
2. Transfer of Patients. Whenever the attending physician of any patient confined in the MEDICAL CENTER or in the FACILITY shall determine that a transfer of such patient from one of these institutions to the other is medically appropriate, the parties shall take whatever steps may be necessary to effect such a transfer in their admissions policies to patients requiring such transfer, subject to availability of bed space, and provided that all the usual conditions for admission are met. Each party shall give notice to the other party, as far in advance as possible, of responsibility of the institution and attending physician initiating transfer to arrange for appropriate and safe transportation. Further, it shall be their responsibility for arranging for the care of the patient during transfer. These responsibilities will cease when the patient has been physically admitted at the designation designated.
3. Medical Center Admissions Priority. In establishing its preference in admission policies for patients subject to transfer from the FACILITY in accordance with Article II, the MEDICAL CENTER shall be guided by its usual admission requirements.

In accordance with criteria for admission:

- A. Patients declared as emergencies by their attending physicians shall be admitted to the MEDICAL CENTER without delay, unless the MEDICAL CENTER is on emergency bypass and has notified applicable agencies of such.
- B. Patients not strictly emergent, but requiring early admission to the MEDICAL CENTER shall be placed on the MEDICAL CENTER's urgent list.
- C. Elective cases shall be booked for future admission to the MEDICAL CENTER, according to the established routine of the MEDICAL CENTER.

4. Facility Admissions Priority. In establishing its preference in admission policies for patients subject to transfer from the MEDICAL CENTER in accordance with Article II, the FACILITY shall be guided by the following plan:

- A. To admit the patient from the MEDICAL CENTER as promptly as possible, provided general admission requirements established by the institution are met.
- B. To give priority to re-admission of patients transferred from the FACILITY to the MEDICAL CENTER.
- C. To accommodate weekend admissions, provided general admission requirements of the FACILITY are met

5. Interchange of Information. The parties shall interchange all pertinent medical records and other information which may be necessary or useful in the care and treatment of patients transferred between the parties or which may be relevant to determining whether such parties can be adequately cared for otherwise than in either the MEDICAL CENTER or FACILITY. All such information shall be provided by the transferring institution in advance, where possible, and in any event at the time of the transfer, and shall be recorded on a referral form which shall be mutually agreed upon by the parties.

6. Transfer of Personal Effects. Procedures for effecting the transfer of patients and their personal effects and valuables shall be developed and adhered to by both parties. These procedures will include, but are not limited to, the provision of information concerning such valuables, money, and personal effects transferred with the patient so that a receipt may be given and received for same. The patient's personal effects will ordinarily be transferred with the patient. The transferring institution will assume responsibility for those personal effects transferred with the patient.

7. Final Financial Arrangements. Charges for services performed by either party for patients transferred from the other party pursuant to this Agreement shall be collected by the party rendering such services directly from the patient, third party payors or from other sources normally billed. Neither party shall have any liability to the other for such charges, except to the extent that such liability would exist separate and apart from the Agreement. Nor shall either party receiving a transferred patient be responsible for collecting any previously outstanding account receivable due the other party from such patient.

8. Insurance. Each party shall maintain professional and public liability insurance coverage in the amount of One Million Dollars (\$1,000,000.000) per occurrence or claim made with respect to the actions of its employees and agents connected with or arising out of services provided under this Agreement.

9. Independent Contractor. Nothing contained in this Agreement shall constitute or be construed to create a partnership, joint venture, employment, or agency relationship between the parties and/or their respective successors and assigns, it being mutually understood and agreed that the parties shall provide the services and fulfill the obligations hereunder as independent contractors. Further, it is mutually understood and agreed that nothing in this Agreement shall in any way affect the independent operation of either the MEDICAL CENTER or the FACILITY. The governing body of the MEDICAL CENTER and the FACILITY shall have exclusive control of the management, assets, and affairs at their respective institutions. No party by virtue of this Agreement shall assume any liability for any debts or obligations of a financial or legal nature incurred by the other, and neither institution shall look to the other to pay for service rendered to a patient transferred by virtue of this Agreement.

10. Nondiscrimination. The parties agree to comply with Title VI of the Civil Rights Act of 1964, all requirements imposed by regulations issued pursuant to that title, section 504 of the Rehabilitation Act of 1973, and all related regulations, to insure that neither party shall discriminate against any recipient of services hereunder on the basis of race, color, sex, creed, national origin, age or handicap, under any program or activity receiving Federal financial assistance.

11. Term and Termination. This Agreement shall commence on June 19, 2006, and shall automatically be renewed annually for one year periods unless terminated according to this Section 10. This Agreement may be terminated by either party at any time upon the giving of at least sixty (60) day's prior written notice. Notwithstanding any notice which may have been given, however, this Agreement shall be automatically terminated whenever either party shall have its license to operate revoked, suspended or non-renewed.

12. Notices. All notices required to be served under this Agreement may be served on any of the parties hereto personally or may be served by sending a letter duly addressed by registered or certified mail. Notices to be served on the MEDICAL CENTER shall be served at or mailed to: Advocate Christ Medical Center, attention President, at 4440 West 95th Street, Oak Lawn, Illinois 60453 with a copy to Chief Legal Officer, Advocate Health and Hospitals Corporation at 2025 Windsor Drive, Oak Brook, Illinois 60521. Notices to be served on FACILITY shall be

served at or mailed to: Stony Creek Dialysis Center, attention Facility Administrator, at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453, unless otherwise instructed.

13. Advertising and Publicity. Neither party shall use the name of the other party in any promotional or advertising material unless review and approval of those intended use shall be first be obtained from the party whose name is to be used.

14. Nonexclusive Clause. Nothing in this Agreement shall be construed as limiting the right of either party to affiliate or contract with any other MEDICAL CENTER or FACILITY, or either a limited or general basis, while this Agreement is in effect.

15. Amendment. This Agreement may be amended, modified, or supplemented by agreement of both parties, but no such modification, amendment, or supplement shall be binding on either party unless and until the same is attached hereto in writing and signed by authorized officials of both parties.

16. Governing Law. All questions concerning the validity or construction of this Agreement shall be determined in accordance with the laws of Illinois.

IN WITNESS WHEREOF, this Agreement has been executed by the MEDICAL CENTER and the FACILITY on the date first written above.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(i), Relocation of Facilities

The Existing Facility is suboptimal for patients and staff, and in need of repair. Multiple physical plant upgrades are needed to plumbing, HVAC, and flooring. The patients do not have access to a clean sink on the treatment floor and need to rely on the use of alcohol wipes to clean their vascular access site. The RN station is too small to adequately prep medications. The water treatment room is outdated and in need of a complete overhaul.

Further, the Existing Facility shares a parking lot with an MRI clinic, a pregnancy counseling center, and a physician's office. A limited number of handicapped parking spaces (2) are frequently unavailable for patients. Additionally, these handicapped spaces are centrally located in parking lot and not proximately located to the dialysis unit. Accordingly, when handicapped spaces are available, patients must walk excessive distances from their cars to the dialysis facility, which poses additional safety risks. These patients are often elderly, suffer multiple co-morbidities and/or rely on assistive devices. While some safety risks cannot be avoided during winter or periods of inclement weather, these risks can be minimized by reducing the length patients must walk from their cars to the dialysis center.

The configuration of the parking lot also prohibits larger patient transport vehicles (vans) from dropping patients off and picking them up at the entrance to the dialysis unit. The drivers of these vehicles often are ticketed by the Oak Lawn police for parking on Cicero Avenue, while they escort patients to and from treatment. There is also no delivery zone for drivers that deliver supplies to the facility. Drivers either park near the front door of the facility, blocking the entrance / exit to the parking lot and creating an even greater issue during times of emergency, or they end up parking ½ block away and make multiple trips to cart in deliveries from the street.

Additionally, the design and size of the Existing Facility creates operational and logistical inefficiencies. The Existing Facility houses 12 dialysis stations in approximately 4,000 GSF, or 333.3 GSF per station, which is below the Board's minimum standard for in-center hemodialysis stations. As a result, the space is inadequate to store medical supplies, office supplies, and biohazard waste. The facility has no dedicated conference room. The lobby/patient seating area is too small by DaVita standards to appropriately accommodate patients in a 12-station dialysis unit. The mechanical room and the computer/server room for all of the neighboring medical businesses are housed inside the Existing Facility. There is no way to access the server/computer room without going through the treatment floor, creating a potential infection control concern. Additionally, the patient treatment floor configuration prohibits the viewing of all patients from the nursing station, resulting in an overall concern for patient safety based on inadequate sight-lines. This issue is discussed further in the Purpose of the Project narrative.

The site of the Replacement Facility is in a strip mall, approximately 2.26 miles away, with a large parking lot. Patient safety will be enhanced, as the larger patient transport vehicles will be able to get closer to the building during drop off and pick up. Patients who drive will have more overall access to parking spaces and handicapped spaces. The increased size of the Replacement Facility will allow for a conference room, adequate hazardous waste area, restroom facilities, an enhanced water treatment room, proper storage for all medical and office supplies, and sightlines to all patients on the treatment floor from the nursing station. Thus, the Applicants must relocate to a modern facility with enhanced accommodations and improved utilities to better provide for current and future ESRD patient needs.

Section VII, Service Specific Review Criteria
In-Center Hemodialysis
Criterion 1110.1430(j), Assurances

Attached at Attachment – 26G is a letter from Arturo Sida, Vice President, Associate General Counsel and Assistant Corporate Secretary of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. certifying that the proposed facility will achieve target utilization by the second year of operation

Kathryn Olson
Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Re: In-Center Hemodialysis Assurances

Dear Chairwoman Olson:

Pursuant to 77 Ill. Admin. Code § 1110.1430(j), I hereby certify the following:

- By the second year after project completion, Stony Creek Dialysis expects to achieve and maintain 80% target utilization; and
- Stony Creek Dialysis also expects hemodialysis outcome measures will be achieved and maintained at the following minimums:
 - ≥ 85% of hemodialysis patient population achieves urea reduction ratio (URR) ≥ 65% and
 - ≥ 85% of hemodialysis patient population achieves Kt/V Daugirdas II .1.2

Sincerely,

Print Name: Arturo Sida
Its: Vice President, Associate General Counsel and
Assistant Corporate Secretary

Section X, Economic Feasibility Review Criteria
Criterion 1120.140(b), Conditions of Debt Financing

This project will be funded in total with cash and cash equivalents. Accordingly, this criterion is not applicable.

Section X, Economic Feasibility Review Criteria
Criterion 1120.310(c), Reasonableness of Project and Related Costs

1. The Cost and Gross Square Feet by Department is provided in the table below.

Table 1120.310(c)									
COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New Circ.*		Gross Sq. Ft. Mod. Circ.*		Const. \$ (A x C)	Mod. \$ (B x E)	
ESRD		\$153.33			7,342			\$1,125,737	\$1,125,737
Contingency		\$20.43			7,342			\$150,000	\$150,000
TOTALS		\$173.76			7,342			\$1,275,737	\$1,275,737

* Include the percentage (%) of space for circulation

2. As shown in Table 1120.310(c) below, the project costs are below the State Standard.

Table 1120.310(c)			
	Proposed Project	State Standard	Above/Below State Standard
Site Preparation	\$60,000	5% of Construction and Contingency Costs = 5% x (\$1,125,737 + \$150,000) = 5% x \$1,275,737 = \$63,786	Below State Standard
Modernization Contracts and Contingencies	\$1,275,737	\$178.33 per gross square foot x 7,342 gross square feet = \$1,309,299	Below State Standard
Contingencies	\$150,000	10% -15% of Modernization Construction Costs = 10% -15% x \$1,125,737 = \$112,574 - \$168,860	Meets State Standard
Architectural/Engineering Fees	\$124,749	6.76% - 10.16% x (Construction Costs + Contingencies) = 6.76% - 10.16% x (\$1,125,737 + 150,000) = 6.76% - 10.16% x \$1,275,737 = \$86,239 - \$129,614	Meets State Standard
Consulting and Other Fees	\$78,000	No State Standard	No State Standard
Moveable Equipment	\$480,612	\$49,127.31 per station \$49,127.31 x 12 = \$589,527	Below State Standard

Section X, Economic Feasibility Review Criteria
Criterion 1120.310(d), Projected Operating Costs

Operating Expenses: \$2,514,609

Treatments: 10,240

Operating Expense per Treatment: \$245.56

Section X, Economic Feasibility Review Criteria
Criterion 1120.310(e), Total Effect of Project on Capital Costs

Capital Costs

Depreciation:	\$154,827
Amortization:	\$8,010
Total Capital Costs:	\$162,837

Treatments: 10,240

Capital Costs per Treatment: \$15.90

Section XI, Safety Net Impact Statement

1. This criterion is required for all substantive and discontinuation projects. DaVita HealthCare Partners Inc. and its affiliates are safety net providers of dialysis services to residents of the State of Illinois. DaVita is a leading provider of dialysis services in the United States and is committed to innovation, improving clinical outcomes, compassionate care, education and Kidney Smarting patients, and community outreach. A copy of DaVita's 2013 Community Care report, which details DaVita's commitment to quality, patient centric focus and community outreach, was previously submitted with Proj. No. 14-024. DaVita has taken on many initiatives to improve the lives of patients suffering from CKD and ESRD. These programs include the Kidney Smart, IMPACT, CathAway, and transplant assistance programs. Furthermore, DaVita is an industry leader in the rate of fistula use and had the lowest day-90 catheter rates among large dialysis providers in 2013. Its commitment to improving clinical outcomes directly translated into 7% reduction in hospitalizations among DaVita patients. DaVita has improved clinical outcomes each year since 2000, generating an estimated \$204M in net savings to the American healthcare system in 2013.

The proposed project will not impact the ability of other health care providers or health care systems to cross-subsidize safety net services. This project is for the relocation of an existing 12-station dialysis facility that has consistently operated above the Board's 80% utilization standard. All existing patients of the Existing Facility will transfer to the Replacement Facility. No patients from other area facilities will be transferred to the Replacement Facility as part of this project. Further, Dr. Rydel is currently treating 39 Stage 4 & 5 CKD patients who all reside within 20 minutes of the proposed facility. Conservatively, based upon attrition due to patient death, transplant, or return of function, it is projected that 25 of these pre-ESRD patients will require dialysis within the next 12 to 24 months. Thus, approximately 86 patients will receive treatment at the Replacement Facility within 24 months of project completion.

2. The Existing Facility already has an 84.7% utilization rate, which is above the State's 80% standard. As such, the proposed facility is necessary to accommodate the growing demand for dialysis services, as it will allow for future expansion. Accordingly, the proposed dialysis facility will not impact other general health care providers' ability to cross-subsidize safety net services.
3. The proposed project is for the relocation of Stony Creek Dialysis just 2.26 miles from its current location. Patients currently treated at Stony Creek Dialysis will receive treatment at the new facility. As such, the discontinuation of service at the current location will not negatively impact the safety net.

Safety Net Information per PA 96-0031			
CHARITY CARE			
	2011	2012	2013
Charity (# of patients)	96	152	187
Charity (cost in dollars)	\$830,580	\$1,199,657	\$2,175,940
MEDICAID			
	2011	2012	2013
Medicaid (# of patients)	729	651	679
Medicaid (revenue)	\$14,585,645	\$11,387,229	\$10,371,416

Section XII, Charity Care Information

The table below provides charity care information for all dialysis facilities located in the State of Illinois that are owned or operated by the Applicants.

CHARITY CARE			
	2011	2012	2013
Net Patient Revenue	\$219,396,657	\$228,403,979	\$244,115,132
Amount of Charity Care (charges)	\$830,580	\$1,199,657	\$2,175,940
Cost of Charity Care	\$830,580	\$1,199,657	\$2,175,940

Appendix 1 – Time & Distance Determination: Discontinuation

Attached as Appendix I is the list of all existing facilities within 45 minutes normal travel time from the Existing Facility as determined by MapQuest.

Appendix 2 – Discontinuation Impact Letters

Attached as Appendix II is documentation that Letters of Impact of Discontinuation and Relocation were sent to all existing dialysis within 45 minutes normal driving distance, as determined by MapQuest.

Stony Creek Dialysis
9115 South Cicero Avenue
Oak Lawn, Illinois 60453

December 15, 2014

FEDERAL EXPRESS

Ms. Lori Wright
Senior CON Specialist
Fresenius Medical Care
North Division
3500 Lacey Road, Suite 900
Downers Grove, IL 60515

Ms. Wright:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. The 63 Fresenius facilities listed in the attached spreadsheet are all within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately June 30, 2016.

Over the past two years, the facility has served between 60 and 72 end-stage renal disease patients at any given time and the census at the end of November 2014 was 60. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide impact statements from your facilities.

If you choose to provide such a response, please detail whether your individual facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 312-649-9289.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Tincknell". The signature is stylized with a large initial "T" and "M".

Tim Tincknell

On behalf of

DaVita HealthCare Partners Inc.
Renal Life Link, Inc.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number. Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is: \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

December 15, 2014

FEDERAL EXPRESS

USRC Bolingbrook Dialysis
396 Remington Blvd
Bolingbrook, IL 60440

To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately June 30, 2016.

Over the past two years, the facility has served between 60 and 72 end-stage renal disease patients at any given time and the census at the end of November 2014 was 60. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 312-649-9289.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Tincknell". The signature is stylized and cursive.

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

Stony Creek Dialysis
9115 South Cicero Avenue
Oak Lawn, Illinois 60453

December 15, 2014

FEDERAL EXPRESS

RCG-Scottsdale
4651 W. 79th Street
Chicago, IL 60652

To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately June 30, 2016.

Over the past two years, the facility has served between 60 and 72 end-stage renal disease patients at any given time and the census at the end of November 2014 was 60. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 312-649-9289.

Sincerely,

Tim Tincknell

On behalf of

DaVita HealthCare Partners Inc.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

December 15, 2014

FEDERAL EXPRESS

Mt. Sinai Hospital Med Ctr
1500 South California Ave.
Chicago, IL 60608

To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately June 30, 2016.

Over the past two years, the facility has served between 60 and 72 end-stage renal disease patients at any given time and the census at the end of November 2014 was 60. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 312-649-9289.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Tincknell". The signature is stylized and cursive.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

FEDERAL EXPRESS

Rush University - St Luke's Medical Center
1750 West Harrison Street, Suite 735
Chicago, IL 60612

To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners Inc. and Renal Life Link, Inc. to inform you of the proposed relocation of Stony Creek Dialysis, a 12-station dialysis facility located at 9115 South Cicero Avenue, Oak Lawn, Illinois 60453 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately June 30, 2016.

Over the past two years, the facility has served between 60 and 72 end-stage renal disease patients at any given time and the census at the end of November 2014 was 60. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the Stony Creek Dialysis patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita HealthCare Partners Inc., 1333 North Kingsbury Street, Suite 305, Chicago, Illinois 60642. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 312-649-9289.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tim Tincknell', written in a cursive style.

Appendix - 2

Appendix 3 – Physician Referral Letter

Attached as Appendix III is the physician referral letter from Dr. James Rydel confirming all 61 current ESRD patients will transfer to the Replacement Facility and projecting 25 pre-ESRD patients will be referred to Stony Creek Dialysis within the next 12 to 24 months.

James J. Rydel, M.D.
J.R. Nephrology & Associates, P.C.
4542 W. 95th Street
Oak Lawn, Illinois 60453

Kathryn J. Olson
Chair
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

Dear Chair Olson:

I am pleased to support DaVita's relocation of Stony Creek Dialysis. The proposed 12-station chronic renal dialysis facility, to be located at 6236-6246 West 95th Street, Oak Lawn, IL 60453, will directly benefit my patients.

DaVita's proposed facility will improve access to necessary dialysis services in the Oak Lawn community. DaVita is well-positioned to provide these services, as it delivers life sustaining dialysis for residents of similar communities throughout the country and abroad. It has also invested in many quality initiatives to improve its patients' health and outcomes.

The site of the proposed replacement facility is located approximately 5 minutes from the existing facility and will provide better access to my patients. According to September 30, 2014 reported census data, utilization of existing operating facilities within 20 minutes of the proposed facility was 80.7%, which is just above the State Board's utilization standard.

I have identified 39 patients from my practice who are suffering from Stage 4 or 5 CKD, who all reside within an approximate 20 minute commute of the proposed facility. Conservatively, I predict at least 25 of these patients will progress to dialysis within the next 12 to 24 months. My large patient base, the significant utilization at nearby facilities, and the present 34-station need identified in Health Service Area 7 demonstrate considerable demand for this facility.

Stony Creek Dialysis treated 61 ESRD patients as of October 31, 2014 for a utilization rate of 84.7%. All of the patients at the existing facility are expected to transfer to the new facility. A list of patients who have received care at existing facilities in the area over the past 4 years is provided at Attachment – 1. A list of new patients my practice has referred for in-center hemodialysis for the past 2 years is provided at Attachment – 2. The list of zip codes for the 39 pre-ESRD patients previously referenced is provided at Attachment – 3.

These patient referrals have not been used to support another pending or approved certificate of need application. The information in this letter is true and correct to the best of my knowledge.

DaVita is a leading provider of dialysis services in the United States, and I support the proposed relocation of Stony Creek Dialysis.

Sincerely,

James J. Rydel MD

James J. Rydel, M.D.
