Re: Notification of Alteration of Permit – 77 IAC 1130.750
Permit #16-010 – OSF St. Mary Medical Center, Galesburg

Dear Mr. Lipe:

We are in receipt of your letter dated June 19, 2017 informing the State Board of the addition one (1) Phase I Recovery Room. It is our understanding that the addition does not increase the total gross square footage or increase the total project costs. Based upon the information contained in your letter the alteration does not require any action on the part of the State Board. Your letter will be included in the Project File. No further action is necessary.

Should you have any questions or concerns please contact Courtney Avery of my staff at Courtney.Avery@illinois.gov or 312.814.4825.

Sincerely,

A handwritten signature in blue ink that reads "Kathy Olson".

Kathy Olson, Board Chair
Illinois Health Facilities and Services Review Board
