Re: CON Permit Application
Project # 17-022
St. Anthony's Memorial Hospital Ambulatory Care Center Shelled Space Application

Dear Ms. Avery,

On May 4, 2017 we submitted the above referenced permit application to complete / finish the shelled non-clinical physician office space in our approved Ambulatory Care Center (ACC) building, CON Permit # 14-056. Based on this May filing date, we had anticipated being on the August 8, 2017 Review Board agenda.

We are aware the August 8th Review Board meeting has been cancelled. The subsequent Board meeting is tentatively scheduled for September 26, 2017. If our shelled space permit application is heard on this later date, it could impact our construction schedule and potentially increase project cost due to the unexpected delay in the CON permit application review process.

Given this situation, and assuming our permit application meets the Review Board criteria and there are no findings, or opposition, we respectfully request an expedited review in order to be on the June 20, 2017 Review Board Agenda.

Please contact me at Theresa.Rutherford@hshs.org or by phone at 217-347-1494 if you have any questions.

Sincerely,

Theresa Rutherford
President and CEO
