Re: Extension Request, Carle SurgiCenter Danville-Project Number: 18-014

Dear Ms. Avery:

Carle SurgiCenter: Danville ("Danville"), located at 2300 North Vermillion Street, Danville, Illinois, received approval for an Illinois Certificate of Need ("CON") permit (project number: 18-014) on July 24, 2018. This permit authorizes Danville to acquire medical equipment in the amount of \$1,540,000 for the purpose of adding the following types of specialists to its medical staff: colon-rectal surgeons, plastic surgeons, interventional radiologists and urologists. To date, Danville had added urological services and spent a total of \$358,552.

Pursuant to its attached permit letter, Danville is required to spend or commit to spend at least one-third of the amount of the CON permit by July 24, 2020 (the project commitment date). Carle Physician Group has not yet been able to coordinate a schedule of the remaining specialties to the Danville ASC location and is uncertain whether it will do so before the new medical office building planned for Danville will be operational.¹ The pandemic has complicated its 2020 operations and associated service line development activities. Accordingly, Danville requires a single extension for a period of one year to complete its financial commitment. Pursuant to Illinois Administrative Code 77, § 1130.730, the Illinois Health Facilities and Services Review Board may grant such an extension. Accordingly, Danville requests such extension. If it is unable to move forward in its extended timeframe, it will modify its permit to a lower expenditure amount by August 2021.²

In connection with this extension request, enclosed is a check in the amount of \$500 payable to the Illinois Department of Public Health to cover the cost of this extension request.

If you have any questions about this extension request, please feel free to contact Kara Friedman.

Sincerely,

A handwritten signature in black ink, appearing to read "Collin Anderson".

Collin Anderson
Strategic Planning Coordinator
Carle Foundation Hospital

¹ Note that Carle plans to submit a Certificate of Need filing for each of the ASC relocation along with construction of this medical office building.

² Carle will also request a permit renewal for this project.
