RE: Rush University Medical Center
New Ambulatory Care Building

Dear Ms. Avery:

I am writing in support of the above referenced project proposed for construction in my district. Rush is an important staple within the 5th Legislative District providing much needed healthcare to my constituents and others. The expansion of the outpatient facility, particularly in the areas of cancer care and the neurosciences can be an asset to the residents of my district and patients throughout Illinois.

Aside from the health care benefits that this \$473M project will bring, it may also serve as an economic engine for Chicago's Westside, providing both construction related jobs along with permanent employment opportunities to the Illinois Medical District.

I urge a favorable vote by the Health Facilities and Services Review Board.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Van Pelt".

Senator Patricia Van Pelt
5th Legislative District
