DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.20 and Part 1120.20(b)]

Part 1110 Classification:

☐ Substantive

☒ Non-substantive

2. Narrative Description

In the space below, provide a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does NOT have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

Methodist Health Services Corporation ("MHSC") and Progressive Health Systems (PHS") are proposing discontinuing obstetrical services, including labor/delivery, postpartum and neonatal services, at Pekin Memorial Hospital. The discontinuation will take effect immediately upon State Board approval.

Pekin Memorial Hospital is licensed for 12 obstetrical beds and 107 beds in total. In 2018, Pekin Hospital serviced 350 OB patients, representing an average daily census of 2.0 patients/day.

Pekin Memorial Hospital is located at 600 South 13th Street in Pekin, just 12.8 miles from Methodist Medical Center. Methodist and Pekin serve the same geographic region and population. Methodist has the capacity to consolidate OB services on its campus, creating value for the consumer and payer.

Pursuant to Section 1110.20 of the Illinois Administrative Code, this project is considered "non-substantive." This project is solely for discontinuation and does not involve an expenditure of capital. Therefore, Section 1120 of the Illinois Administrative Code is not applicable.

Project Costs and Sources of Funds – N/A (Discontinuation of Service)

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must be equal.

SECTION II. DISCONTINUATION

This Section is applicable to the discontinuation of a health care facility maintained by a State agency.
NOTE: If the project is solely for discontinuation and if there is no project cost, the remaining Sections of the application are not applicable.

Criterion 1110.290 – Discontinuation (State-Owned Facilities and All Relocations)

READ THE REVIEW CRITERION and provide the following information:

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.
2. Identify all of the other clinical services that are to be discontinued.
3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.
4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.
5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued and the length of time the records will be maintained.
6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 90 days following the date of discontinuation.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for the discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.290(b) for examples.

IMPACT ON ACCESS

1. Document whether or not the discontinuation of each service or of the entire facility will have an adverse effect upon access to care for residents of the facility's market area.
2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.

APPEND DOCUMENTATION AS ATTACHMENT 10, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IX. SAFETY NET IMPACT STATEMENT

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE PROJECTS AND PROJECTS TO DISCONTINUE STATE-OWNED HEALTH CARE FACILITIES [20 ILCS 3960/5.4]:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 38.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	**Year**	**Year**	**Year**

APPEND DOCUMENTATION AS ATTACHMENT 37, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION X. CHARITY CARE INFORMATION

Charity Care information MUST be furnished for ALL projects [1120.20(c)].

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.

2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.

3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer (20 ILCS 3960/3). Charity Care must be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 39.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care

RE:	**Change of Ownership Exemption**
Exemption:	E-033-16, Pekin Memorial Hospital, Pekin, Illinois
Exemption Holder:	Methodist Health Services Corporation - Iowa Health System d/b/a UnityPoint Health - Pekin Memorial Hospital - Progressive Health Systems
Owner of Physical Plant:	Pekin Memorial Hospital
Entity to be Licensed:	Pekin Memorial Hospital

Dear Mr. Anderson:

On October 14, 2016, the Chairwoman of the Illinois Health Facilities and Services Review Board (State Board) approved your request for a Change of Ownership. This approval was based upon the application's compliance with applicable provisions of 77 Ill. Adm. Code 1130.140 1130.520 and P.A. 99-0154. The change of ownership is for Pekin Memorial Hospital, 600 South 13th Street, Pekin, Illinois. The entity to be licensed is Pekin Memorial Hospital. The exemption is for the change in membership or sponsorship of a not-for-profit corporation that is the licensed entity. The fair market value of the transaction is $39,000,000.

If applicable, within 90 days of the closing date of the transaction, the exemption holder must certify that it did or did not complete the transaction according to the key terms detailed in the application. If any of the key terms of the transaction changed, a new application will be required. Exemption holders who submitted the final transaction document along with their application merely need to notify the State Board of the date the ownership changed. Please consider this letter our formal request for aforementioned information.

Please be advised that the Exemption is not transferable or assignable and that the State Board's approval does not exempt the transaction from any other regulatory, certification or licensure requirements that may be applicable prior to this acquisition. Should the facility for which the Exemption was granted cease to be an existing health care facility as defined in 77 Ill. Adm. Code 1130.140, this exemption will be invalid.

Should you have any questions or concerns please contact Juan Morado or Jeannie Mitchell of my staff at Juan.Morado2@illinois.gov or Jeannie.Mitchell@illinois.gov or 312.814.2678.

Sincerely,

Kathy Olson, Board Chair

Illinois Health Facilities and Services Review Board

Organizational Relationships

Pekin Memorial Hospital is a subsidiary corporation of Methodist Health Services Corporation. An organizational chart showing the relationship of the two entities is attached. As the parent corporation, MHSC is financially and legally responsible for the programs and services offered at Pekin Memorial Hospital. The proposed discontinuation of obstetrics does not require any type of funding or financial contribution.

SECTION II. DISCONTINUATION

GENERAL INFORMATION REQUJIREMENTS

1. Identify the categories of service and the number of beds, if any that is to be discontinued.

   Answer: The category of service to be discontinued is obstetrics. Pekin is approved to operate twelve (12) beds.

2. Identify all of the other clinical services that are to be discontinued.

   Answer: None.

3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.

   Answer: September 17, 2019

4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.

   Answer: The obstetrical program is located on the 8th floor of the hospital. The space includes a 12-bed post-partum unit, 3 labor & delivery rooms, 2 C-Section rooms, and a Nursery. The eventual use of this space post discontinuation has yet to be determined.

5. Provide the anticipate disposition and location of all medical records pertaining to the services being discontinued and the length of time the records will be maintained.

   Answer: Medical records will be maintained onsite for the length of time as specified by 210 ILCS 85/6.17 that is not less than 10 years after discharge or 12 years if there is litigation.

6. For applications involving the discontinuation of an entire facility, certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 90 days following the date of discontinuation.

   Answer: N/A, the entire facility is not being discontinued.

Reasons for Discontinuation

On January 1, 2017, Pekin Memorial Hospital and the Methodist Medical Center of Illinois became affiliates under the same parent organization: Methodist Health Services Corporation. The two hospitals are 12.8 miles apart, a travel time of approximately 27 minutes. Pekin Memorial Hospital and Methodist Medical Center of Illinois service the same geographic region and the same population. The affiliation of these two hospitals provides an opportunity to create value through efficiencies, improved quality and enhanced patient experience.

The proposal is to consolidate obstetrical services on the Methodist campus, discontinuing the program at Pekin Memorial Hospital. Methodist Medical Center has the capacity to care for Pekin's patient population. Consolidating the programs into a single location at Methodist allows us to build upon our shared history of quality, safety and patient-centered care, while also being a good steward of our patients' limited healthcare dollars by eliminating costly duplication. This change will result in improved clinical quality and improved capabilities to manage adverse events & reduce risk. Methodist provides 24/7 Laborist and Anesthesia coverage in its obstetrical unit. The service is not available on the Pekin campus because the low patient volume will not economically support it. The savings from consolidation will allow Methodist to invest in its nursery, allowing women and infants access to enhanced newborn care, including Level 2 Special Care Nursery and 24/7 onsite obstetric and neonatologist coverage.

The consolidation of obstetrical services on a single campus is expected to generate savings of $1.6 million annually. At present, Pekin's OB program has a negative operating margin. Potential additional savings with reduction of pediatric newborn call is approximately $100,000 (not included in the $1.6M). Economies of scale produce sufficient savings to allow for investment on the Methodist campus and ensure that OB services are sustainable for the foreseeable future.

Impact on Access

1. Document whether or not the discontinuation of each service or of the entire facility will have an adverse effect upon access to care for residents of the facility's market area.

   Answer: The immediate serviced area has more than sufficient capacity to accommodate Pekin's delivery volume. Last year, Pekin served 350 OB patients, representing an average daily census of 2.0 patients. Each of the hospitals offering obstetrics within a 45 minute drive has excess OB capacity. The Methodist Medical Center has 10 labor and delivery rooms and 22 postpartum rooms (1600 deliveries annually). OSF St. Francis Medical Center in Peoria has 9 labor and delivery rooms. Graham Hospital in Canton has 2 labor and delivery rooms and 6 postpartum rooms (<300 deliveries annually). The Methodist Medical Center alone has sufficient capacity to accommodate Pekin's entire OB patient population. In fact, the goal of Methodist is to serve as much of Pekin's patient population as possible.

   2017 Obstetrical Capacity

Hospital	Beds	Avg Daily Census	Available Beds
Graham - Canton	6	1.8	4.2
OSF Saint Francis - Peoria	52	32.6	19.4
The Methodist Medical Center - Peoria	22	11.6	10.4
NOTE: Methodist beds do not include the 10 LDR rooms where patients typically spend their first day.			
Source: IDPH Hospital Profiles CY2017			

2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility.

   Answer: As noted above, there are three hospitals that offer obstetrical services within a 45-minute drive time of Pekin Hospital: OSF St. Francis Medical Center in Peoria, The Methodist Medical Center of Illinois in Peoria, and Graham Hospital in Canton. Copies of the letters sent to each facility are attached. Methodist is an affiliate of Pekin Memorial Hospital and, as such, there was not a need to send ourselves a certified letter. Galesburg Cottage Hospital, Advocate BroMenn Medical Center in Normal, St. Joseph Medical Center in Bloomington, and Mason District Hospital in Havana are all outside the 45-minute drive time parameter.

   Impact Letters, Documentation of Receipts, and Google Map printouts are included in THE APPEND DOCUMENTATION AS ATTACHMENT - 10.

UnityPoint Health® Announces Changes at UnityPoint Health – Pekin

Labor and Delivery to consolidate at nearby Methodist; Pekin to add adult specialties

(June 24, 2019 – Pekin, IL) – In an effort to better meet the changing needs of our community, UnityPoint Health® – Central Illinois has made the decision to shift several specialty services across our campuses. This includes combining all labor and delivery services in Peoria and enhancing adult specialty services in Pekin.

Like many rural hospitals, patient volumes in labor and delivery at Pekin continue to decline, and the majority of Pekin expectant mothers are already choosing to make the short drive to Peoria for deliveries. Additionally, an upcoming obstetrician retirement in Pekin will create gaps in 24/7 coverage for expectant mothers in our care. Consolidating the programs into a single location at Methodist allows us to build upon our shared history of quality, safety and patient-centered care, while also being a good steward of our patients' limited healthcare dollars by eliminating costly duplication. This change will allow all women and infants access to enhanced newborn care, including a Level 2 special care nursery and 24/7 onsite obstetric and neonatologist coverage. The combination of labor and delivery programs at UnityPoint Health – Methodist is effective September 17, 2019.

We are exploring outpatient OB/GYN care for women of all ages and life stages with potential to add OB/GYN care in Pekin that better meets the needs of the community, including more options at Pekin East. Additionally, new specialty physicians are in place or are coming to Pekin as part of UnityPoint Health's ongoing commitment to the Pekin community, including Gastroenterology, Infectious Disease, Neurology, Palliative Care and Urology.

"We have listened to the Pekin community and worked to create a plan moving forward that best meets the community's changing healthcare needs. We are introducing new services and welcoming specialty physicians and providers to Pekin. We must provide quality care that is sustainable, and we believe we are making the best decisions possible to be able to provide outstanding care in Pekin for many years to come," says Dr. Keith Knepp, President & CEO, UnityPoint Health – Central Illinois.

Since the affiliation in 2017, UnityPoint Health has made significant investment in facilities and technology enhancements in Pekin. Improvements include the construction of Pekin East, a 60,000 square foot, state of the art medical office building along Griffin Avenue, the installation of new state-of-the-art imaging equipment, a new electronic medical record system and a Cardiac Cath lab. Additional upgrades have been made to the emergency department, urgent care clinic, Park Court Professional building and hospital HVAC system.

ATTACHMENT - 10

Also, UnityPoint Health – Pekin will soon unveil its newly renovated lobby, main entrance and gift shop, part of an $8 million project to improve the hospital experience for the people in the community.

"We want our patients and families to have positive experiences when they are in our care. The additions of the specialty services and upgrades to our hospital with help meet the expectations of our patients," says Jeanine Spain, Chief Operating Officer UnityPoint Health Central Illinois.

PEKIN — UnityPoint Health officials announced Tuesday that they plan to eliminate labor and delivery services in Pekin and route all such services to their Methodist facility in Peoria effective Sept. 17.

The hospital system also said, in a news release, that the change will come alongside "enhancing adult specialty services" at the Pekin hospital.

The change comes in part because the upcoming retirement of an obstetrician in Pekin will "create gaps in 24/7 coverage" at that site. In the release, UnityPoint stated that the number of patients delivering babies in Pekin "like many rural hospitals" continues to decline, and said shifting deliveries to Methodist would help in "eliminating costly duplication."

UnityPoint will also explore outpatient ob/gyn care in Pekin, and stated in its release that it plans to add new specialty physicians in the city, including gastroenterology, infectious disease, neurology, urology and palliative care specialists.

"We have listened to the Pekin community and worked to create a plan moving forward that best meets the community's changing healthcare needs. We are introducing new services and welcoming specialty physicians and providers to Pekin. We must provide quality care that is sustainable, and we believe we are making the best decisions possible to be able to provide outstanding care in Pekin for many years to come," UnityPoint central Illinois CEO Keith Knepp said in a prepared statement.

The release from UnityPoint also noted that the hospital will soon complete work on an $8 million improvement program at the facility, including a renovated lobby, main entrance and gift shop.

PEKIN (HOI) – UnityPoint Health announced Tuesday they'll be shifting their labor and delivery services from Pekin to Peoria only.

In a press release, they said the number of expectant mother patients continue to decline in Pekin, saying many are choosing their Peoria location for deliveries already.

UnityPoint Health also said the consolidation will provide access to better care, "including a Level 2 special care nursery and 24/7 onsite obstetric and neonatologist coverage."

That consolidation is effective September 17, 2019.

In addition, UnityPoint Health said they are exploring OB/GYN care at Pekin and Pekin East. They said they are also adding new specialty physicians in Pekin in the areas of Gastroenterology, Infectious Disease, Neurology, Palliative Care, and Urology.

Some more changes coming to Pekin; they said they will unveil a renovated lobby, main entrance, and gift shop soon. It's part of an $8 million project.

UnityPoint Health declined our request for an interview about the changes.

"We have listened to the Pekin community and worked to create a plan moving forward that best meets the community's changing healthcare needs. We are introducing new services and welcoming specialty physicians and providers to Pekin. We must provide quality care that is sustainable, and we believe we are making the best decisions possible to be able to provide outstanding care in Pekin for many years to come," said Dr. Keith Knepp, President & CEO, UnityPoint Health of Central Illinois in a prepared statement.

The Pekin program will be consolidated into the existing program at Methodist Hospital. The changes are effective on September 17. The spokesperson says the hospital will explore adding outpatient OB/GYN services in Pekin.

UnityPoint Health Pekin will no longer deliver babies, adding other specialty services

1 day ago 24 Views

PEKIN (HOI) – UnityPoint Health announced Tuesday they'll be shifting their labor and delivery services from Pekin to Peoria only.

In a press release, they said the number of expectant mother patients continue to decline in Pekin, saying many are choosing their Peoria location for deliveries already.

UnityPoint Health also said the consolidation will provide access to better care, "including a Level 2 special care nursery and 24/7 onsite obstetric and neonatologist coverage."

That consolidation is effective September 17, 2019.

In addition, UnityPoint Health said they are exploring OB/GYN care at Pekin and Pekin East. They said they are also adding new specialty physicians in Pekin in the areas of Gastroenterology, Infectious Disease, Neurology, Palliative Care, and Urology.

Some more changes coming to Pekin; they said they will unveil a renovated lobby, main entrance, and gift shop soon. It's part of an $8 million project.

UnityPoint Health declined our request for an interview about the changes.

UnityPoint Health-Pekin to cut labor and delivery services

PEKIN — UnityPoint Health officials announced Tuesday that they plan to eliminate labor and delivery services in Pekin and route all such services to their Methodist facility in Peoria effective Sept. 17.

The hospital system also said, in a news release, that the change will come alongside "enhancing adult specialty services" at the Pekin hospital.

The change comes in part because the upcoming retirement of an obstetrician in Pekin will "create gaps in 24/7 coverage" at that site. In the release, UnityPoint stated that the number of patients delivering babies in Pekin "like many rural hospitals" continues to decline, and said shifting deliveries to Methodist would help in "eliminating costly duplication."

UnityPoint will also explore outpatient ob/gyn care in Pekin, and stated in its release that it plans to add new specialty physicians in the city, including gastroenterology, infectious disease, neurology, urology and palliative care specialists.

"We have listened to the Pekin community and worked to create a plan moving forward that best meets the community's changing healthcare needs. We are introducing new services and welcoming specialty physicians and providers to Pekin. We must provide quality care that is sustainable, and we believe we are making the best decisions possible to be able to provide outstanding care in Pekin for many years to come," UnityPoint central Illinois CEO Keith Knepp said in a prepared statement.

The release from UnityPoint also noted that the hospital will soon complete work on an $8 million improvement program at the facility, including a renovated lobby, main entrance and gift shop.

Re: Request for Impact Statement

In accordance with the requirements of 77 Ill Adm Code 1110.290(c), UnityPoint Health – Pekin is requesting an impact statement from OSF St. Francis Medical Center regarding the closure of the hospital's obstetrical (OB) services effective September 17, 2019. The code requires contact with all approved healthcare facilities providing obstetrical services within 45 minutes travel time. For your reference, birth statistics for the last three years at Pekin are provided in the table below.

	OB		Nursery	
	Admits	Days	Admits	Days
2016	437	914	408	769
2017	408	845	369	731
2018	350	695	322	566

Please provide the following information with respect to the impact of the closure of Pekin's obstetrics program.

- Your Hospital's capacity to accommodate a portion or all of Pekin's OB caseload;
- An explanation of any restrictions, limitations, or discrimination that would preclude OSF St. Francis from serving the patient population historically serviced by Pekin's obstetrics program.

If a response is not received within 15 days from the date of delivery, I will assume that the discontinuation will not have an adverse impact on your organization.

Responses should be directed to the following:

Re: CON Application to Discontinue Obstetrical Services at Pekin Memorial Hospital

Dear Ms. Avery,

I am writing to express my support for the Certificate of Need application submitted by Pekin Memorial Hospital to discontinue its obstetrical program. In accordance with the requirements of 77 Ill Adm Code 1110.290(c), The Methodist Medical Center of Illinois falls within the 45-mile travel time and currently offers obstetrical services. Methodist Medical Center has more than sufficient capacity to accommodate Pekin Memorial Hospital's obstetrical caseload and does not have any restrictions, limitations or discriminatory practices that would preclude service Pekin Memorial Hospital's patient population.

If you have any questions, I can be reached at 309-672-4974.

Sincerely,

SECTION IX. SAFETY NET IMPACT STATEMENT

Safety net impact statement that describes all substantive and discontinuation projects.

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

   Answer: The discontinuation of obstetrics at Pekin is not expected to have any impact on safety net services. In 2018, Pekin served 350 OB patients representing an average daily census of 2.0 patients. Methodist Medical Center has the capacity to accommodate this volume without any impact on patient access. Additionally, there are 2 other hospitals within 45 minutes' drive time with excess OB capacity which serve the public without restrictions or limitations.

2. The project's impact on the ability of another provider or health system to cross-subsidize safety net services, if reasonably known to the applicant.

   Answer: The projected savings from the consolidation of obstetrical services on the Methodist campus provides the resources required to not only subsidize government pay patients but to also reinvest in the program. Moreover, Methodist has an AA2 rated bond rating demonstrating more than sufficient financial capacity to provide charity care should the need arise.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

   Answer: Because of the low volume of cases, discontinuation of obstetrical services will not have a material impact on any other provider. Methodist Medical Center has the capacity and desire to serve the patient population affected by the proposed discontinuation.

Safety Net Impact Statements shall also include all of the following:

1 For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.

   Answer: Please see Chart in ATTACHMENT – 38

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

   Answer: Please seed Chart in ATTACHMENT - 38

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

   Answer: N/A, the entire facility is not being discontinued.

XII – CHARITY CARE INFORMATION

Charity Care Information MUST be furnished for ALL projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest 3 audited fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.

   Answer: See Chart in ATTACHMENT – 39

2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.

   Answer: See Chart in ATTACHMENT – 39

3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

   Answer: Not Applicable.
