DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

Part 1110 Classification:

- Change of Ownership
- Discontinuation of an Existing Health Care Facility or of a category of service
- Establishment or expansion of a neonatal intensive care or beds

2. Narrative Description

In the space below, provide a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

OSF Saint Anthony Medical Center proposes to discontinue the thirteen (13) bed Pediatric Unit. OSF Saint Anthony Medical Center has not yet determined the use of the space that will be vacated as a result of the discontinuation.

Upon closure of the Pediatric Unit Beds, OSF Saint Anthony Medical Center will continue to care for Pediatric patients by utilizing existing medical/surgical beds and burn unit beds as appropriate, in addition to providing emergency services, outpatient diagnostic and procedural services as needed.

The discontinuation described above will occur after the approval is granted by the Illinois Health Facilities and Services Review Board.

This project does not include the construction, demolition, or modernization of any existing buildings, and there are no project costs.

This is a substantive project because it proposes the discontinuation of a designated category of service.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must be equal. **Not applicable. There are no project costs.**

DISCONTINUATION

GENERAL INFORMATION REQUIREMENTS

1. Identify the categories of service and the number of beds, if any that are to be discontinued.

OSF Saint Anthony Medical Center proposes to discontinue the thirteen (13) bed Pediatric Unit. Upon closure of the Pediatric Unit Beds, OSF Saint Anthony Medical Center will continue to care for Pediatric patients by utilizing existing medical/surgical beds and burn unit beds as appropriate, in addition to providing emergency services, outpatient diagnostic and procedural services as needed.

2. Identify all of the other clinical services that are to be discontinued.

No other clinical services will be discontinued as part of this project.

3. Provide the anticipated date of discontinuation for each identified service or for the entire facility.

The discontinuation will occur after the approval is granted by the Illinois Health Facilities and Services Review Board.

4. Provide the anticipated use of the physical plant and equipment after the discontinuation occurs.

OSF Saint Anthony Medical Center is evaluating the future use of the physical space and equipment utilized for Pediatric Unit Services. Upon closure of the Pediatric Unit Beds, OSF Saint Anthony Medical Center will continue to care for Pediatric patients by utilizing existing medical/surgical beds and burn unit beds as appropriate, in addition to providing emergency services, outpatient diagnostic and procedural services as needed.

5. Provide the anticipated disposition and location of all medical records pertaining to the services being discontinued, and the length of time the records will be maintained.

All medical records will be maintained at OSF Saint Anthony Medical Center in accordance with its standard health information policies, and in accordance with all applicable legal and regulatory requirements.

6. For applications involving the discontinuation of an entire facility, provide certification by an authorized representative that all questionnaires and data required by HFSRB or DPH (e.g., annual questionnaires, capital expenditures surveys, etc.) will be provided through the date of discontinuation, and that the required information will be submitted no later than 90 days following the date of discontinuation.

Not applicable.

7. Upon a finding that an application to close a health care facility is complete, the State Board shall publish a legal notice on 3 consecutive days in a newspaper of general circulation in the area or community to be affected and afford the public an opportunity to request a hearing. If the application is for a facility located in a Metropolitan Statistical Area, an additional legal notice shall be published in a newspaper of limited circulation, if one exists, in the area in which the facility is located. If the newspaper of limited circulation is published on a daily basis, the additional legal notice shall be published on 3 consecutive days. The legal notice shall also be posted on the Health Facilities and Services Review Board's web site and sent to the State Representative and State Senator of the district in which the health care facility is located. In addition, the health care facility shall provide notice of closure to the local media that the health care facility would routinely notify about facility events.

Not applicable.

DISCONTINUATION CONTINUED

8. Provide attestation that the facility provided the required notice of the facility or category of service closure to local media that the health care facility would routinely notify about facility events. The supporting documentation shall include a copy of the notice, the name of the local media outlet, the date the notice was given, and the result of the notice, e.g., number of times broadcasted, written, or published. Only notice that is given to a local television station, local radio station, or local newspaper will be accepted.

OSF Saint Anthony Medical Center distributed a classified ad to the Rockford Register Star on July 30-August 1, 2018. A copy of the notice is provided in Attachment 10.

REASONS FOR DISCONTINUATION

The applicant shall state the reasons for the discontinuation and provide data that verifies the need for the proposed action. See criterion 1110.130(b) for examples.

OSF Saint Anthony Medical Center has provided quality pediatric care services to its patients for many years. However, utilization of those services has declined over the past several years to the point that it no longer appears the services are necessary for a separate Pediatric Unit, and are being provided elsewhere in the community. In addition, as census has declined it has been increasingly difficult to retain and recruit pediatric staff for the unit.

The Pediatric unit has had relatively low and declining average daily census (ADC) and occupancy for the last several years. The last five years, the Pediatric Unit has seen an ADC and occupancy % as follows:

2013: ADC 1.0, Occ% 7.5%

2014: ADC 0.6, Occ% 4.9%

2015: ADC 0.3, Occ% 2.2%

2016: ADC 0.4, Occ% 2.8%

2017: ADC 0.3, Occ% 2.3%

With the availability of other Pediatric service providers in the area, it is clear the discontinuation of the Pediatric unit will have no impact on access to Pediatric services within the market. Based on the HFSRB Inventory of Healthcare Facilities and Services and Needs Determinations, there are available Pediatric Beds in the community (40 beds) in Hospital Planning Area B-01 and (56 beds) in Hospital Service Area 1. OSF SAMC already has transfer agreements in place with the other area hospitals.

The discontinuation of the Pediatric Unit at OSF Saint Anthony Medical Center will help reduce the excess beds, which is consistent with the goals of the Health Facilities Services Review Board.

6. OSF Saint Anthony Medical Center (OSF SAMC) in Rockford, Illinois intends to discontinue the licensed bed "category of service" for its thirteen (13) bed Pediatric Unit after approval to do so is issued by the Illinois Health Facilities and Services Review Board (IHFSRB). Pediatric patients will continue to be cared for at OSF SAMC by utilizing existing medical/surgical and burn unit beds as appropriate. In addition to providing emergency services, outpatient diagnostic and procedural services as needed. The discontinuation will occur after the approval is granted by the IHFSRB. OSF intends to submit the required Certificate

of Exemption application to the IHFSRB on or around August 15, 2018 and a copy of it can be found after the application is deemed complete on the IHFSRB website at <https://www2.illinois.gov/sites/hf-srb/Projects/Pages/CompApps.aspx>. For further information, please contact Paula Carynski at (815)-395-5377 at OSF SAMC.
RRS July 30, 31, Aug. 1

IMPACT ON ACCESS

1. Document that the discontinuation of each service or of the entire facility and whether or not it will have an adverse effect upon access to care for residents of the facility's market area.

As stated above, according to the most recent HFSRB Inventory, there are available Pediatric Beds in Winnebago and HSA 1. Furthermore, more detailed data in the inventory indicates that OSF Saint Anthony Medical Center's Pediatric unit accounted for only 2.4% of the total patient days in 2015 among Pediatric providers in the Hospital Planning Area B-01.

From that information and data, it is apparent that sufficient Pediatric Unit services are available in the OSF Saint Anthony Medical Center market area and that the discontinuation of the Pediatric Beds will not materially or adversely affect the ability of the residents of Rockford, Illinois or broader Winnebago county area to obtain Pediatric Services.

2. Document that a written request for an impact statement was received by all existing or approved health care facilities (that provide the same services as those being discontinued) located within 45 minutes travel time of the applicant facility. See Appendices 1-2.

Impact statement requests were sent to facilities, with pediatric beds, within a 45 minute travel time from OSF Saint Anthony Medical Center, on July 26, 2018 (see Appendices). We have received signed/return receipts and response letters from all of the facilities. These are included in the Appendices.

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE PROJECTS AND PROJECTS TO DISCONTINUE STATE-OWNED HEALTH CARE FACILITIES [20 ILCS 3960/5.4]:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.

OSF Saint Anthony Medical Center believes that the availability of Pediatric beds in Rockford Illinois, the Winnebago County Planning Area, and Health Service Area 1 are sufficient to ensure that this project will not have a material impact on essential safety net services in the community.

2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.

Given that OSF Saint Anthony Medical Center served a relatively small number of pediatric inpatients in Rockford, Illinois and the Winnebago County Planning Area for the past several years, OSF Saint Anthony Medical Center believes that this project will not materially impact the ability of other providers or health care systems to subsidize safety net services.

3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

We believe given the excess of beds in the area, other providers of Inpatient Pediatric services will be positively impacted, as the services will be less diluted.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.

See safety net chart below. Note that the chart in this Attachment 20 indicates the amount of charity care provided by OSF Saint Anthony Medical Center relating to Pediatrics that is the subject of this discontinuation project. Charity care information pertaining to OSF Saint Anthony Medical Center and OSF Healthcare System as a whole are included in Attachment 21.

2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.

See safety net chart below. Note that the chart in this Attachment 20 indicates the amount of Medicaid care provided by OSF Saint Anthony Medical Center relating to Pediatrics that is the subject of this discontinuation project.

3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

OSF Saint Anthony Medical Center believes that the available supply of Pediatric Beds in Rockford, Illinois, the Winnebago County Planning Area, and the Health Service Area 1 are sufficient to ensure that residents of these areas will continue to have access to these services.

Dear Paula:

This letter is in support of OSF Saint Anthony Medical Center filing a Certificate of Exemption (COE) with the Illinois Health Facilities and Review Board (IHFSRB) for the discontinuation of your 13-bed pediatric category of service.

For decades our two health systems have worked alongside each other to care for pediatric patients here in northern Illinois. We at SwedishAmerican have a great understanding and respect for the care your medical center provides, and we know with this proposed discontinuation children will still be treated with the utmost care in your facility. If the need should arise in the future, our pediatric unit and our providers will have the capacity and skills to accommodate your caseload.

We respectfully urge approval of the OSF Saint Anthony Medical Center COE application.

Best regards,
