The Department is requiring submission of the documented monthly generator load testing results and the weekly documented visual inspections of all the emergency generators (temporary and permanent) in accordance with NFPA 110. The documentation is to be delivered to my office within 5 business days of completion of each and every weekly visual and monthly testing.

Please deliver the clinical updates to Karen Senger, RN BSN, Division Chief, Health Care Facilities and Programs, Illinois Department of Public Health 525 West Jefferson St., 4th Floor, Springfield, IL 62761. The facility must fully and continuously adhere to all ASTC requirements, without exception.
