

77 Ill. Adm. Code 1125 - PURPOSES OF SECTIONS

Section 1125.540 – Service Demand – Establishment of General Long-term Care

Established LTC Provider:

- Document Need of LTC services/facility in the proposed Planning Area; and
- Document Referral Source continuation of referrals to applicant, based upon projection of historic referrals to the applicant

New LTC Provider:

- Document Need of LTC services/facility in the proposed Planning Area; and
- Document referral source commitment to send patients to proposed service/facility. (Show approximate number of anticipated patients for planning purposes).

Section 1125.Maldistribution/Unnecessary Duplication

- **“Maldistribution”** means bad or faulty distribution: undesirable inequality or unevenness of placement or apportionment (as of healthcare resources) over a planning area.
- **“Unnecessary Duplication”** means the presence of excessive, duplicative health care services in a defined geographic area (Planning Area), resulting in the existence of more services than are needed by the service population.
