VI. CLASS SPECIFICATIONS

The Commission will review the class specifications requiring Commission approval under the Classification Plan and will approve those that meet the requirements of the Personnel Code and Personnel Rules and conform to the following accepted principles of position classification:

- a) The specifications are descriptive of the work being done or that will be done;
- b) Identifiable differentials are set forth among classes that are sufficiently significant to permit the assignment of individual positions to the appropriate class;
- c) Reasonable career promotional opportunities are provided;
- d) The specifications provide a reasonable and valid basis for selection screening by merit examinations;
- e) All requirements of the positions are consistent with classes similar in difficulty, complexity and nature of work; and
- f) The relation of the class specifications to any applicable collective bargaining agreement.

The following class titles were submitted for abolishment, creation and revision by the Director of the Illinois Department of Central Management Services (CMS):

B. Health Information Administrator

Classification Analysis: The Department of Corrections advised that the class specification of the Health Information Administrator was lacking a description of the level of supervision within the Distinguishing Features of Work section. A review of the class content was conducted between the DOC and the Department of Central Management Services, Bureau of Personnel, Class Studies Unit and found to be accurate and current except for the aforementioned omission of the supervision language. The Health Information Administrator class performs its duties under the general supervision of higher-level administrative staff, and the attached draft shows this in class specification amendment format.

WILL THE COMMISSION APPROVE THE REVISION OF THE FOLLOWING CLASS TITLE TO BE EFFECTIVE ON MAY 1, 2021?
