A. Program Description

For over 30 years, the Illinois Racing Board Charity Fund Program has provided more than \$24 million for medical, dental, family, counseling, and other wellness services (“Wellness Services”) to persons who reside or work on the backstretch of Illinois’ pari-mutuel race tracks. The State of Illinois and Illinois Racing Board (“IRB”) is the only racing jurisdiction in the United States that has this type of program. Specifically, section 31.1 of the Illinois Horse Racing Act of 1975 (“Racing Act”) requires organization licensees (a/k/a race tracks) collectively to contribute annually to charity the sum of \$750,000 to non-profit organizations that provide Wellness Services to persons who reside or work on the backstretch of Illinois’ pari-mutuel race tracks.

Objectives and Goals

1. To provide Wellness Services to assist the needs of the persons who reside or work on the backstretch of Illinois’ pari-mutuel race tracks, which care for the wellbeing of the equine athletes participating at live race meets.
2. To increase the wellness and quality of life of backstretch residents and workers, the applicant will provide Wellness Services to increase the overall number of backstretch residents and workers being treated, while limiting non-treatment expenses.
3. Assist backstretch residents and workers in receiving timely, adequate and necessary Wellness Services to continue employment on the backstretch with the least amount of inconvenience and disruption to such persons and Illinois horse racing.

Eligible Applicants

Include the Charitable Trust Organization number.

Annually, the IRB awards these funds in the form of a grant to applicants that help address the needs of backstretch residents and workers at Illinois’ pari-mutuel race tracks, including, but not limited to the following:

2. The applicant must provide milestones and submit results, including timing and scope of expected performance, on a quarterly basis.
3. The applicant must relate financial data to performance accomplishments of the award. The applicant will submit results of this on a quarterly basis.

In addition, all project specific deliverables or milestones in the designated reporting formats provided by the IRB to applicant in any issued Notice of State Award ("NOSA"), Uniform State Grant Agreement or otherwise requested by the IRB to comply with Grant Accountability and Transparency Act ("GATA"), specifically audit requirements.

Performance Measures

1. Completion of all Deliverables shall be reported through the term of the executed Uniform State Grant Agreement, including any renewals; provided, however, the IRB may include 2 "one-year" renewal terms and execution of a new grant agreement for each additional "one-year" renewal term. This initial grant term will go through December 31, 2018, subject to any renewals.
2. The applicant will report additional data to include itemization of grant expenditures during the reporting period including receipts or other documents to verify payment. The applicant shall provide summary documentation by line item of actual expenses incurred for the purchase of goods and services necessary for conducting program activities.

The applicant shall use Generally Accepted Accounting Principles ("GAAP") to record expenditures and revenues as outlined in 2 CFR 200, *et al.* Expenditures shall be recorded in the applicant's records in such a manner as to establish an audit trail for future verification of appropriate use of agreement funds. All financial record keeping on the part of the applicant shall be in accordance with GAAP consistently applied and subject to Generally Accepted Government Audit Standards ("GAGAS").

B. Funding Information

1. The IRB Charity Fund Program is a state funded program [230 ILCS 5/31.1]. For calendar year 2018, the IRB anticipates the availability of approximately \$750,000 in total funds. The anticipated number of State awards will be 1-2, with average awards ranging from \$0 to \$750,000. The grant period will begin January 1, 2018, and will end on December 31, 2018; provided, however, the IRB may include 2 “one-year” renewal terms and execution of a new Uniform State Grant Agreement for each renewal term. The release of this NOFO does not obligate the IRB to make an award. Services may not be provided until a Uniform State Grant Agreement is fully executed.
2. All grants are subject to the terms of the Illinois Grant Funds Recovery Act [30 ILCS 705]. The grant program may provide up to a maximum of 100% funding assistance on total approved project costs. No IRB Charity Fund Program funds shall be made for construction that is not an expansion of an already existing program facility or included in applicant’s application; provided, however, prior written approval of the IRB is required for any capital construction expenditures.
3. Rules and regulations are enforced limiting the use of funds for their intended purpose of the program via audit, reporting, on-site reviews, and monitored on a quarterly basis.
4. Specific contract deliverables and expenditures of grant funds shall also adhere to 2 CFR 200, as applicable, and all applicable Federal OMB circulars.
5. Applicant must submit a project plan which supports the level of funding and details how the award will be executed by the applicant. The project plan must include necessary detail to enable the IRB to manage the grant agreement activity against planned project performance.

Non-profit organizations currently providing Wellness Services to persons who reside or work on the backstretch of Illinois' pari-mutuel race tracks or similar assistance to non-backstretch residents or workers and wishing to expand to backstretch assistance are the only organizations eligible for grants under this program. Include the Charitable Trust Organization number.
2. A non-profit organization may apply for a grant but will not be eligible for a grant award until the entity has pre-qualified through the GATA Grantee Portal, www.grants.illinois.gov.
3. During pre-qualification, Dun and Bradstreet verifications are performed including a check of Debarred and Suspended status and good standing with the Illinois Secretary of State. The pre-qualification process also includes a financial and administrative risk assessment utilizing an Internal Controls Questionnaire. If applicable, the entity will be notified that it is ineligible for award because of the Dun and Bradstreet verification. The entity will be informed of corrective action needed to become eligible for a grant award.
4. An applicant's failure to meet the eligibility criterion by the time of application deadline will result in the IRB returning the application without review or if reviewed, may preclude the IRB from making a state award to such applicant.

Indirect Cost Rates Requirements

In order to charge indirect costs to a grant, the applicant organization must have an annually negotiated indirect cost rate agreement ("NICRA"). There are three types of NICRAs:

1. Federally Negotiated Rate – Organizations that receive direct federal funding, may have an indirect cost rate that was negotiated with the Federal Cognizant Agency. Illinois will accept the federally negotiated rate. The organization must provide a copy of the Federally NICRA.
2. State Negotiated Rate – The organization must negotiate an indirect cost rate with the State of Illinois if it does not have a Federally NICRA or the organization may elect to use the De Minimis Rate. If an organization has not previously established an indirect cost rate, an indirect cost rate proposal must be submitted to the State of Illinois through the indirect cost rate system, CARS, no later than three months after the effective date of the award. If an organization previously established an indirect cost rate, the organization must annually submit a new indirect cost rate proposal through CARS within six months after the close of the grantee's fiscal year. All grantees must complete an indirect cost rate negotiation or elect the de minimis Rate in CARS to claim indirect costs. Indirect costs claimed without an established negotiated rate or a de minimis rate election in CARS may be subject to disallowance.

3. De Minimis Rate – An organization that has never received a Federally NICRA may elect a de minimis rate of 10% of modified direct costs (“MTDC”). Once established, the de minimis rate may be used indefinitely. The State of Illinois must verify the calculation of the MTDC annually in order to accept the de minimis rate.
