

# Starting April 21, 2021

All filings must be submitted to the IWCC through CompFile.

**Motions**  
**Petitions**  
**Applications**  
**Petitions for Review**  
**Other Filings**

Filings on paper received on or after April 21 will not be processed.

If you filed on paper before April 21, you do not need to re-file.

Due to the process involved in migrating IWCC mainframe data to the Cloud, case number and arbitrator assignment for paper applications filed prior to April 21 **may be briefly delayed**.

**CompFile will be temporarily inaccessible** during the 6-day window of April 15 – April 20 to allow for upgrades to electronic settlements and the activation of Release 3 of CompFile. You will not be able to submit settlement contracts in CompFile during this time.

**Settlement contracts that do not have a case number and pro se settlement contracts** will be accepted on paper through April 8. After April 8, these settlement contracts cannot be submitted to the IWCC until April 21, when they can be submitted through CompFile.

**May 10 arbitration dockets** and all arbitration dockets thereafter - motions and petitions must have been filed in CompFile.

The current IWCC public look-up will **stop being updated** during the transition to completely electronic filing through CompFile. Historical information will still be available.
