Initiator thanked Mr. Star and Mr. Strong for their effort associated with the purchase of curtailed RECs from the long-term renewable contracts. Initiator inquired whether Mr. Star and Mr. Strong perceived any timing issues with respect to a possible June 1, 2014 implementation of SB103 were it to be passed during Veto Session.

Initiator asked about the expected schedule of the 2014 IPA Plan and the IPA's perspective on the load forecasts and the potential for reverse load migration resulting from a lower Price to Beat.

Initiator also discussed the possibility of the IPA purchasing curtailed RECs during plan year 2014/2015.

Was a response made? If so, complete the following for each person making the response *(attach an additional sheet that lists the other respondents' names, job titles, which entity they represent, email address and/or telephone number, if applicable):*

Respondent Name: Anthony Starr and Michael Strong  
Respondent Title: Acting Director and Chief Lega Counsel  
Location: Chicago, IL  
Telephone Number (if telephonic):

Provide a detailed summary of the response:

With respect to the question of SB103 implementation, the IPA responded that the implementation of the wires charge wouldn't have a direct impact on the Procurement Plan; however, the IPA did note that any transitional period could present some challenges if the legislation didn't address all the necessary details.

With respect to the question of load forecasts, the IPA did not express an opinion on whether the forecast would be higher or lower than current levels.

With respect to the possibility of future REC purchases, the IPA indicated that it was focusing its attention on new types of expenditures to satisfy the requirements of the RPS. The IPA also stated its understanding that expenditures of ACP funds wasn't subject to ICC approval but that it could not have a stand-alone procurement event for the ACP funds.
