- The Supervisor position under the Chief Boiler Inspector has not been posted because the job description is still being worked on.
- Illinois Safety Boiler Inspector conference is currently scheduled for October 28-30, 2019 and will be held in the OSFM command center in Springfield, IL. The conference will focus on Inspector training conducted by a National Board instructor. Attendance will be OSFM Boiler Division Inspectors, Insurance Inspectors and Owner/User Inspectors. Additional topics will include Part 3 of the NBIC and historical boilers.
- A discussion on the current status of historical boiler inspections revealed no serious concerns with current rules. Interim Chief, Polick mentioned Illinois tracks about 70 historical boilers. Past inspections by OSFM Inspectors revealed several near miss concerns –one concern involved not having a permit holder attend a fired historical boiler while another near miss concern was a malfunctioning boiler feed water stop valve.
