**FIREFIGHTER II
PRACTICAL KEY**

The master practical key for Firefighter II is enclosed in this section. The form was developed for retention in the individual's training jacket indicating the completion of the required State Practicals.

The practicals can be given in segments of one subject at a time, in modules or in total. **ALL PRACTICAL SKILLS MUST BE COMPLETED BEFORE SUBMITTING THE "APPLICATION/VALIDATION-ATTESTATION"** verifying completion of the practicals. Certification is contingent on the receipt of the Application/Validation-Attestation. A copy of the practical key should be maintained in the department/school conducting the class **AND** in the training records of the employing fire department.

The number of skill sheets necessary to accomplish the skill are indicated in parenthesis after the objective number.

In cases where the work "or" appears before the objective, a choice can be made by the instructor as to which skill is performed.

Each evolution must be signed by the qualified instructor supervising the practical and the individual attesting to completion of the practicals skills.

Practical evolutions that require vacant buildings or props which are not available may be simulated to the extent that the skill is still performed.

Skills must be administered with the utmost caution for safety and by using the appropriate NFPA Standards. The firefighter shall wear all protective clothing that would be required on the fireground during an actual incident.
