9-1-1 SYSTEM PROVIDER LETTER OF INTENT

February 1, 2017

Paul Stoffels
Frontier Communications
3S050 Butternut Lane
Glen Ellyn, IL 60137

Dear Paul:

This letter is to confirm our intent to modify our 9-1-1 System. Enclosed is your copy of our modification plan to be filed with the Department of the Illinois State Police for approval. Thank you for your assistance in this matter.

Sincerely,

[Signature]

Brian Gallaher
Director
Brown County Fire Protection District
Mount Sterling Fire Department
Brown County Ambulance Service

enclosure: Modification Plan
Prior to 1988, Brown County Illinois operated two primary PSAP’s within the county. The Brown County Sheriff’s Office maintained one PSAP in their office and handled dispatching services for their own department as well as for the Brown County Ambulance Service. The Mount Sterling Police Department maintained the other primary PSAP which handled dispatching for the police department itself as well as for the Mount Sterling Fire Department. The other fire departments within the county used a fire bar telephone system and dispatched themselves appropriately.

Early in the year of 1988, the City of Mount Sterling and the County of Brown began negotiations to consolidate dispatching services into one location for both financial reasons as well as logistical reasons. Due to the physical constraints of the courthouse, which is where the sheriff’s office is located, the decision was made to locate the PSAP at the Mount Sterling Police Department. In addition to the physical constraints of the location, the City of Mount Sterling was better off financially than the County of Brown therefore; it made more sense from a financial standpoint to have the Mount Sterling Police Department be the agency that maintained the dispatching services. An intergovernmental agreement between the City of Mount Sterling and the County of Brown was entered into which stipulated the breakdown of costs as well as the location of the PSAP. Since this consolidation went into effect, the City of Mount Sterling has absorbed the majority of the expense of operating the PSAP. As of today, the actual cost to operate the PSAP at the current level of service is $230,000 annually. Prior to December 1, 2015, the City of Mount Sterling funded 80% of that cost with the County of Brown contributing the remaining 20%. The County of Brown increased their level of funding to 32% effective with their December 1, 2015 budget.

Since October of 1988, the Mount Sterling Police Department has maintained the only PSAP in Brown County handling emergency and non-emergency calls for the following:

- Mount Sterling Police Department
- Mount Sterling Fire Department
- Brown County Fire Protection District
- Brown County Ambulance Service
- Brown County Sheriff’s Office
- Brown County Emergency Management Agency
- Versailles Fire Protection District

The Brown County PSAP has handled land-line 9-1-1 calls for Brown County since the mandate to provide basic 9-1-1 went into effect in 2002. Cell phone 9-1-1 calls for Brown County were originally handled by the Illinois State Police until the Brown County Board entered into an agreement with the Cass County ETSB to answer our cell phone 9-1-1 calls. That arrangement remains in effect as of today.

The current Brown County PSAP has one dispatcher on duty 24 hours a day 7 days a week with the ability to call in a second off duty dispatcher as needed for larger scale events. We foresee no reason to have to change this arrangement once going live with E9-1-1. With that being said, there will be no additional expense necessary for hiring additional dispatchers.

In the year 2009, discussions began among the administrators of the emergency service agencies within Brown County to begin the process of implementing E9-1-1 in Brown County. At the January 10, 2011 Brown County Board meeting, a resolution was passed authorizing the Brown County Clerk to place a referendum question on the April 5, 2011 Consolidated Election ballot regarding the implementation of a land-line surcharge for the purpose of installing an enhanced 9-1-1 system within Brown County. The referendum passed on the first attempt by a vote of 560 - 399. The referendum allowed a $3.00 per land-line telephone surcharge to be imposed. The voters of Brown County passed this referendum with the understanding that their E9-1-1 PSAP would be located in Brown County, not elsewhere.
Following the passage of the referendum for E9-1-1, the Brown County Board created the Brown County ETSB and appointed the following board members:

- David Ferrill, Chairman of the ETSB – Brown County Board Member representing the Brown County Board of Supervisors.
- Brian Gallaher, Secretary of the ETSB – Chief of the Mount Sterling Fire Department, Brown County Fire Protection District & the Brown County Ambulance Service.
- Dane Flesner, ETSB Member – Mayor of the City of Mount Sterling.
- Karl Groesch, ETSB Member – Sheriff of Brown County.
- Brandon Norris, ETSB Member – Chief of the Mount Sterling Police Department.
- James Logsdon, ETSB Member – Chief of the Versailles Fire Protection District.
- Bill Scranton, ETSB Member – Member at large.

Since the creation of the ETSB, the board has taken calculated steps to move toward the implementation of E9-1-1 in Brown County as outlined in the public act. To date, the following accomplishments have been realized:

- Rural addressing in Brown County actually began in 2010 with the County of Brown assuming all costs associated with that endeavor. As of January 2015, all rural addresses in Brown County have been reassigned with a 9-1-1 address and the US Postal Service has signed off on the new addresses. Assignment of the new 9-1-1 addresses was done by utilizing the current grid system already in use by the Brown County Highway Department. By doing this, all county road marker signs were already in place and did not have to be replaced by the ETSB. The ETSB has implemented a program where residential address markers are available at a nominal fee. To date, there has been an approximate 40% participation rate with local residents purchasing the marker signs.

- Starting in 2012, security measures at the PSAP were implemented. This included the installation of bullet proof glass in all windows accessible by the general public. A coded security system was installed on all exterior doors to the building which limits access to the PSAP to only those individuals authorized to enter. A security camera system was installed which monitors all areas of the building that houses the PSAP. The room that houses the PSAP is of adequate size and more than adequately meets the needs of the PSAP therefore, no renovations to the PSAP itself would be necessary.

- Primary power to the PSAP is provided by Ameren Illinois.

- Backup power to the PSAP is provided by an automatic diesel generator.

- In mid 2014, ongoing communications with Frontier were established as they will be the 9-1-1 system provider for Brown County. Ongoing communications with Adams Telephone Cooperative have also been underway since mid 2014 as Adams is the other land-line telephone service provider in Brown County.

- In July of 2015, the Brown County ETSB retained Zuercher Technologies as its 9-1-1 consultant. Since that time, we have had bi-weekly conference calls between our ETSB, our 9-1-1 consultant, Frontier, Adams Telephone Cooperative and as necessary, all other parties involved with helping us move toward the implementation of E9-1-1 in Brown County. Some of the other parties that have been involved with
our conference calls have been the Illinois Commerce Commission, The Illinois State Police, neighboring county ETSB’s and PSAP’s as well as other internet based telephone service providers.

- In November of 2016, we entered into an intergovernmental agreement with the West Central Joint ETSB to serve as our backup E9-1-1 PSAP. By partnering with Morgan County, it gives us the opportunity to utilize some of the equipment that they already have in place which in turn reduces the amount of money that we would have to spend for Customer Premise Equipment (CPE).

- As of January 11, 2017 our MSAG is 100% complete with a 100% match rate verified with Frontier Communications Database.

- We have purchased CPE and console furniture which are scheduled to be installed beginning February 28, 2017.

- Upon completion of equipment installation, training of staff and testing of our system will begin immediately.

In 2008, prior to the passage of our referendum and the implementation of our ETSB, the Mount Sterling Fire Department, Brown County Fire Protection District & the Versailles Fire Protection District were awarded a FEMA – Assistance to Firefighter’s Grant. This grant was for the purchase of radio equipment including all new pagers, mobile and portable radios for the three fire departments as well as all new console, radio equipment and 16 channel recorder for the PSAP. With that being said all radio equipment that is in the PSAP presently, meets the needs for moving forward with E9-1-1 and would not have to be upgraded at this time.

Presently, the land-line surcharge nets us $7,580 monthly. We have been advised by the Illinois State Police that the cell phone surcharge will net approximately $2,100 monthly, once we begin receiving wireless 9-1-1 calls. Our plan going forward would be for the County of Brown to continue to pay a minimum of $75,000 annually toward the operating cost of running the PSAP and for the City of Mount Sterling to pay at least that much. Between what the city and the county pay and what the surcharge revenue generates, we anticipate that we will have sufficient funding to remain sustainable for many years to come.

Your consideration and assistance is greatly appreciated.

Should you have any questions, please contact Brian Gallaher at 217-773-2113 or email at briangallaher@frontier.com.
Exhibit 6

FINANCIAL ARRANGEMENTS

Explain the financial arrangements to be employed for call handling and telecommunication services to implement the proposed 9-1-1 System and future maintenance. If funds are provided through a telephone surcharge, list amount of surcharge, date collection started, how much is collected monthly and annually.

DETAILED DESCRIPTION OF THE FUNDING MECHANISM

The funds collected by the Brown County ETSB are wireline surcharge funds. The Brown County surcharge is $3.00 per access line.

We received our first surcharge remittance check for December 2011 in February 2012.

Monthly Surcharge Collection:

State of Illinois "Hold Harmless" - $7,580.19

Total Monthly Surcharge Collected - $7,580.19

Total Surcharge Collected Annually - $90,962.28

The Brown County ETSB has the following five year strategic plan:

- **Year One:** We will purchase our CPE and begin installation and training. We will continue working with our 9-1-1 consultant, Frontier and all other entities necessary for moving forward with E9-1-1 implementation. We will continue to pay our contractual maintenance agreements. We will continue working with the City of Mount Sterling and the County of Brown to assure the sustainability of E9-1-1 in Brown County.

- **Year Two:** If needed, we will continue working toward implementation of E9-1-1 wireless service. We will work toward implementing NG9-1-1 service in Brown County. We will continue to pay our contractual maintenance agreements. We will continue to build our financial reserves. We will continue working with the City of Mount Sterling and the County of Brown to assure the sustainability of E9-1-1 in Brown County.

- **Year Three:** If needed, we will continue working toward implementation of NG9-1-1 service in Brown County. We will continue to pay our contractual maintenance agreements. We will continue to build our financial reserves. We will continue working with the City of Mount Sterling and the County of Brown to assure the sustainability of E9-1-1 in Brown County.

- **Year Four:** We will begin planning for enhancements to our communications equipment. We will continue to pay our contractual maintenance agreements. We will continue to build our financial reserves. We will continue working with the City of Mount Sterling and the County of Brown to assure the sustainability of E9-1-1 in Brown County.

- **Year Five:** We will begin implementation of the enhancements to our communications equipment. We will continue to pay our contractual maintenance agreements. We will continue to build our financial reserves. We will continue working with the City of Mount Sterling and The County of Brown to assure the sustainability of E9-1-1 in Brown County.

ORDINANCE NO. 11-01

WHEREAS, the State of Illinois has enacted into law the Emergency Telephone System Act (the "Act"); and

WHEREAS, the Act enables counties and municipalities to impose a surcharge on subscribers of telecommunication carriers at a rate per network connection in order to implement and/or upgrade and maintain a "9-1-1" emergency telephone system; and

WHEREAS, the Act allows the telecommunication carrier to recover the surcharge from its subscribers residing within the corporate limits of the county imposing the surcharge and to deduct 3% therefrom as reimbursement for its accounting and collecting expenses; and

WHEREAS, the County Board of Brown County deems it to be in the best interest of the county to implement and/or upgrade and maintain a "9-1-1" emergency telephone system and to impose a surcharge on carriers to pay for the costs associated therewith;

NOW THEREFORE, be it ordained by the County Board of Brown County as follows:

Section 1. A surcharge is hereby imposed, subject to the provisions of Section 2, upon all billed subscribers of network connections provided by telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of the county for funding of a "9-1-1" emergency telephone system.

Section 2. A referendum shall be placed by the County Clerk on the April 5, 2011, Consolidated Election ballot for all legal voters residing in the county to vote upon the following question:

Shall the County of Brown impose a surcharge of up to $3.00 per month per network connection, which surcharge will be added to the monthly bill you receive for telephone or telecommunications charges for the purpose of installing a 9-1-1 Emergency Telephone System?

____________ yes  __________ no

Section 3. If a majority of the votes cast upon the question are in favor thereof, a surcharge is hereby imposed at a rate of $3.00 per month per in-service network connection, as hereinafter defined. A network connection shall not be deemed to be in service where a subscriber’s account is uncollectible.

Section 4. For purpose of this ordinance, the following definitions shall apply:

a. "Network Connection" means the number of voice grade communication channels directly between a subscriber and a telecommunication carrier's public switched
network without the intervention of any other telecommunications carriers
switched network which would be required to carry the subscriber’s inter-
premises traffic and which connection either (1) is capable of providing access
through the public switched network to a 9-1-1 Emergency Telephone System if
one exists, or, (2) if no system exists at the time a surcharge is imposed under
Section 15.3 which would be capable of providing access through the public
switched network to the local 9-1-1 Emergency Telephone System if one existed.

b. “Transmitting Messages” shall have the meaning ascribed to the term in Section
8-11-2 of the Illinois Municipal code.

c. “Telecommunications Carrier” means any natural individual, firm, trust, estate,
partnership, association, joint stock company, joint adventure, corporation,
municipal corporation or political subdivision of this State, or a receiver, trustees,
conservator or other representative appointed by order of any court engaged in the
business of transmitting messages by means of electricity.

Section 5. The County Clerk shall provide any telecommunication carrier subject to
the surcharge with a certified list of those network connections assigned to the county to be
exempt from imposition of the surcharge. The certified list may be revised by the county on 60
days prior written notice provided to the telecommunication carriers.

Section 6. The surcharge shall be imposed on the first day of the month following the
expiration of 90 days from the date the County Clerk certifies to any of the telecommunication
carriers who are subject to the surcharge that the referendum referred to in Section 2 has passed.

Section 7. Each telecommunication carrier is hereby authorized and instructed to
recover an accounting and collection charge by deducting 3% from the amount of surcharge
otherwise due and owing the county prior to remittance under Section 8 of this ordinance.

Section 8. Every telecommunication carrier shall remit to the County Treasurer the
amount of surcharge due and owing for each calendar month within 30 days following expiration
of each month to which the surcharge applies, net of any network or other “9-1-1” or
sophisticated “9-1-1” system charge then due the particular telecommunication carrier as shown
on an itemized bill and the 3% accounting and collection charge described in Section 7.

Section 9. Simultaneously with the remittance described in Section 8 above each
telecommunication carrier shall make a return to the County Treasurer for the period to which the
remittance applies stating as follows:

a. The name of the telecommunication carrier.

b. The telecommunication carrier’s principal place of business.

c. The number of network connections to which the surcharge applies.
d. The amount of surcharge due.

e. Such other reasonable and related information as the corporate authorities may require.

Section 10. If it shall appear that an amount of surcharge has been paid which was not due under the provisions of this ordinance, whether as the result of a mistake of fact or an error of law, then such amount shall be credited against any surcharge due, or to become due, under this ordinance from the telecommunication carrier who made the erroneous payments; provided that no amounts erroneously paid more than three (3) years prior to the filing of a claim therefore shall be so credited. Ninety days prior notice shall be given to the Emergency Telephone Systems Board on any credit against a surcharge due.

Section 11. No action to recover any amount of surcharge due under the provisions of this ordinance shall be commenced more than three (3) years after the due date of such amount.

Section 12. If any provision of this Ordinance or any application thereof should be rendered or declared unlawful, invalid, or unenforceable by virtue of any judicial action, or by any existing or subsequently enacted Federal or State legislation, the remaining provisions of this Ordinance shall remain in full force and effect.

ADOPTED AT MT. STERLING, ILLINOIS THIS ___ DAY OF JANUARY, 2011.

AN ORDINANCE ESTABLISHING AN EMERGENCY
TELEPHONE SYSTEM BOARD IN BROWN COUNTY, ILLINOIS
ORDINANCE NO. 11-04

WHEREAS, the State of Illinois has enacted into law the Emergency Telephone System
Act, Illinois Compiled Statutes Chapter 50, Paragraph 750 et seq., as amended (the "ACT"): and

WHEREAS, the ACT mandates the establishment of an Emergency Telephone System
Board (ETSB) by the County Board of any County that impose a surcharge pursuant to 50 ILCS
750/15.3.

WHEREAS, the majority of the legal voters voting on the referendum presented to them
at the April 5, 2011, Consolidated Election voted in favor of the imposition of an up to $3.00 per
month surcharge per network connection.

WHEREAS, the County Board in Brown County must now create and establish an
Emergency Telephone System Board (ETSB).

NOW, THEREFORE, BE IT ORDAINED BY THE COUNTY BOARD OF BROWN
COUNTY, ILLINOIS, AS FOLLOWS:

SECTION ONE: ESTABLISHED. An Emergency Telephone System Board of Brown
County, Illinois, is hereby established in accordance with statute and shall be known as the
Brown County Emergency Telephone System Board (Brown County ETSB).

SECTION TWO: COMPOSITION. The Brown County ETSB shall consist of not more
than seven (7) members, who shall be appointed by the Chairman of the County Board of Brown
County, Illinois, with the advice and consent of the County Board. Said members of Brown
County Emergency Telephone System may consist of one (1) Brown County Board Member, one
(1) Mt. Sterling City Council Member, one (1) public at-large member who is a resident of the
local exchange service territory included in the 9-1-1 coverage area, and four (4) members whom
shall be representative of the 9-1-1 public safety agencies, including, but not limited to, police
departments, fire departments, emergency medical services providers and emergency services
and disaster agencies in Brown County, to be appointed on the basis of their ability or experience
and shall be representative of both the rural and the urban areas located within Brown County,
Illinois.

SECTION THREE: TERM OF OFFICE. The initial term of office for each member shall
be as follows: two (2) members for a one-year term; two members for two-year terms and three
members for three-year terms. When these members are to be re-appointed, they will each serve
three-year terms. Straws will be drawn to determine the initial terms of office. The terms of
office will begin on the first Monday of the month following their appointment by the Chairman

-1-
of the Brown County Board with the advice and consent of the Brown County Board.

SECTION FOUR: POWERS AND DUTIES. The Brown County ETSB shall have the power and duty to perform the following functions:

1. Planning of a “9-1-1” System;

2. Upgrading or maintenance of the System, including the establishment of equipment specifications and coding systems;

3. Receiving monies from the surcharge imposed under County Board Ordinance No. 11-01 passed and adopted January 10, 2011, and from any other source, for deposit into the Emergency Telephone System Fund;

4. Authorizing all disbursements from the fund;

5. Hiring any staff necessary for the implementation or upgrade of the system.

6. Causing all monies received by the Brown County ETSB pursuant to the surcharge to be deposited into a separate interest-bearing Emergency Telephone System Fund Account of which the Treasurer of the County of Brown is custodian, causing all interest accrued on the fund to remain in the fund, and to make no expenditures from said fund except by resolution passed by a majority of all members of the Brown County ETSB; which expenditures to be made only to pay for costs associated with the following:

   a) The design of the Emergency Telephone System;

   b) The coding of initial master street address guide data base and updating maintenance thereof;

   c) The repayment of any monies advanced for the implementation of the System;

   d) The charges for automatic number identification and automatic location identification equipment;

   e) The non–recurring charges related to installation of the Emergency Telephone System and the ongoing network charges;

   f) The acquisition and installation, or the reimbursement of costs therefor to other governmental bodies that have incurred those costs, of road or street signs that are essential to the implementation of the emergency telephone
system and that are not duplicative of signs that are the responsibility of the jurisdiction charged with maintaining road and street signs.

g) Other products and services including personnel costs necessary for the implementation, upgrade, and maintenance of the System, including costs directly attributable to the construction, leasing, or maintenance of any building or facilities or costs of personnel directly attributable to the opening of the system, costs directly attributable to the operation of the Emergency Telephone System do not include the costs of public safety agency personnel who are and equipment that is dispatched in response to any emergency call.

SECTION FIVE: ANNUALLY PREPARE AND SUBMIT TO THE COUNTY BOARD.

1. An annual budget showing the estimated receipts and intended disbursements pursuant to this Ordinance, for the fiscal year immediately following the date the budget is submitted, which date must be at least 90 days prior to the fiscal year;

2. An annual report showing the income and disbursements made pursuant to the Ordinance during the fiscal year preceding the date the annual report is submitted, which date must be within 60 days of the close of the fiscal year.

SECTION SIX: MEETINGS. The Brown County ETSB shall prescribe the time and place of its regularly scheduled meetings and the manner in which special meetings may be called. All meetings shall be open to the public with due Notice given.

SECTION SEVEN: The Brown County ETSB is not part of, nor governed by the Brown County Board. The Brown County ETSB, once appointed by the Brown County Board, operates independently of the Brown County Board.

SECTION EIGHT: PASSAGE. This Ordinance becomes effective immediately upon its passage and adoption by the County Board of Brown County, Illinois.

APPROVED and ADOPTED AT MT. STERLING, ILLINOIS THIS 9th DAY OF MAY, 2011.

Dave Ferrill, Chairman
Brown County Board

INTERGOVERNMENTAL AGREEMENT
BETWEEN THE WEST CENTRAL JOINT EMERGENCY TELEPHONE SYSTEM BOARD AND THE BROWN COUNTY EMERGENCY TELEPHONE SYSTEM BOARD.

This agreement is entered into by and between the West Central Joint Emergency Telephone System Board (hereinafter referred to as “West Central Joint ETSB”), a unit of local government in the State of Illinois and the County of Brown acting through its 911 Emergency Telephone System Board (hereinafter referred to as “Brown County ETSB”), a unit of local government in the State of Illinois.

WITNESSETH

WHEREAS, the West Central Joint ETSB and the Brown County ETSB may enter into intergovernmental cooperation agreements as provided in Article VII, Section 10 of the Illinois Constitution and the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.); and

WHEREAS, the Brown County ETSB has determined that it has need for a backup Public Safety Answering Point (PSAP); and

WHEREAS, the West Central Joint ETSB, acting initially and primarily through its PSAP at 200 West Douglas, Jacksonville, is willing to serve as a backup PSAP for the Brown County ETSB

WHEREAS, the parties desire to memorialize in writing the respective rights and obligations of the parties to this Agreement.

THEREFORE, in consideration of the mutual agreements contained in this Agreement, the recitals of fact set forth above, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. The West Central Joint ETSB will only be called upon to provide backup PSAP services to the Brown County PSAP in the following situations:
   a. There exists an emergency which overloads a Brown County’s primary PSAP to the point that the Brown County PSAP cannot adequately handle all incoming calls;
   b. An emergency, natural disaster, electrical fire, computer failure, phone system failure, or other similar occurrence renders Brown County’s Primary PSAP inoperable, out of order, or otherwise nonfunctional; or
   c. A request for backup assistance is made by Brown County’s PSAP and this request is agreed to by West Central Joint ETSB.

2. If Brown County’s primary PSAP is expected to remain inoperable for more than one hour, then that party will send personnel to assist with staffing the other party’s Dispatch Center to answer the Brown County’s 911 calls and provide command and control dispatch services during the period that the Brown County PSAP remains inoperable.
3. Brown County has inspected the West Central Joint Dispatch Center and acknowledge that the equipment, and phone service, among other things necessary to facilitate provision of the required services under this Agreement are in place subject to the provisions of paragraph 4.

4. Brown County has inspected the West Central Joint Dispatch Center and acknowledges that any additional equipment, phone service, or other items reasonably necessary to allow the Dispatch Center of either to perform the services required under this Agreement shall be procured by the party that will benefit from the backup service. However, the obligation herein shall be based upon mutual agreement between both parties. At the conclusion of this or any other contract, each party shall be entitled to remove items that each party purchased and which were installed and/or used at the other party’s Dispatch Center; provided however, that such removal must not adversely impact or impede the operation of the other party’s Dispatch Center and the operation of its 911 system. The maintenance and upkeep of equipment and items placed by a party in the other party’s Dispatch Center shall be maintained by the placing party.

5. The parties agree to use reasonable efforts to provide services in the situations listed in paragraph two of this agreement.

6. Each party agrees to protect, defend, indemnify and hold harmless the other party including the agents, employees, directors, officers, successors, and assigns of the party for any claim, causes of action, judgments, loss or damage of any kind arising out of, or in connections with provision of backup PSAP services under this Agreement, unless such loss is caused by or results from the gross negligence, recklessness or intentional misconduct of the party who would otherwise be defended, indemnified and held harmless under this provision. An act of gross negligence, recklessness or intentional misconduct by one party shall not relieve it from its duty to protect, defend, indemnify, and hold harmless the other party as described above.

7. Nothing contained herein shall constitute or create an employer-employee, landlord-tenant, or partnership relationship between the parties.

8. Nothing contained in this Agreement shall be construed to prohibit, or allow either party to prevent the other from relocating, upgrading, or otherwise changing its Dispatch Center.

9. Any notice required under this Agreement shall be sent to the following addresses, unless the recipient notifies the other party of a different address in writing:

   If to the West Central Joint ETSB, then to:

   West Central Joint ETSB, 911 Coordinator
   200 West Douglas, Municipal Building
   Jacksonville, IL 62650
If to the Brown County ETSB, then to:

Brown County ETSB, 911 Coordinator
835 Route 24 West
Mount Sterling, IL 62353

10. The initial term of this Agreement shall be twelve months from the effective date printed below, and shall automatically renew for an additional twelve-month period, unless notice is given six months prior thereto. The contract shall thereafter terminate upon six months prior notice, whereupon Brown County ETSB may remove its equipment and make other arrangements for back up service.

11. If any part of this agreement is found to be unenforceable by a court of competent jurisdiction, that part shall be stricken or modified by said court and the remainder of the agreement shall not be affected.

12. This agreement shall be construed in accordance with the laws of the State of Illinois.

This agreement shall be effective as of the latest adoption date printed below.

Accepted and adopted by the West Central Joint ETSB
On the 14th day of November, 2016

EXHIBITS 8 & 9 AGREEMENTS
For period January 1, 2017 – December 31, 2017

FOR 9-1-1 EMERGENCY COMMUNICATIONS
This agreement is made between the Brown County 9-1-1, hereinafter referred to as “PSAP”, and Meredosia Fire Protection District for the purpose of effective handling and routing of 9-1-1 emergency calls.

CALL HANDLING (Exhibit 8)
The Brown County 9-1-1 PSAP receiving a call for emergency services in Meredosia Fire Protection District’s jurisdiction shall ensure dispatch of Meredosia Fire Protection District via call relay in the following manner:

Primary: 217 243 6123
West Central PSAP Center

Secondary: 217 - 584 1831

AID OUTSIDE NORMAL JURISDICTION BOUNDARIES (Exhibit 9)
Once an emergency unit is dispatched in response to a request through the system by direct dispatch, call referral, call relay, or call transfer, such until shall render its service to the requesting party without regard to whether the unit is operating outside normal jurisdiction boundaries.

The Legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to Meredosia Fire Protection District’s published telephone number.

Brown County 9-1-1 PSAP agrees to keep all records, times, and places of all calls. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of Meredosia Fire Protection District to maintain the report of the call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the 9-1-1 Authority.

This agreement is made between the Brown County 9-1-1 Communications System Public Safety Answering Point, hereinafter referred to as “PSAP”, and Cass County 9-1-1 for the purpose of effective handling and routing of 9-1-1 emergency calls.

CALL HANDLING (Exhibit 8)
The Brown County 9-1-1 PSAP receiving a call for emergency services in Cass County 9-1-1’s jurisdiction shall ensure dispatch of Cass County 9-1-1 via call relay in the following manner:

Primary:  217-452-7197
Secondary:  217-452-7718

AID OUTSIDE NORMAL JURISDICTION BOUNDARIES (Exhibit 9)
Once an emergency unit is dispatched in response to a request through the system by direct dispatch, call referral, call relay, or call transfer, such until shall render its service to the requesting party without regard to whether the unit is operating outside normal jurisdiction boundaries.

The Legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to Cass County 9-1-1’s published telephone number.

Brown County 9-1-1 PSAP agrees to keep all records, times, and places of all calls. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of Cass County 9-1-1 to maintain the report of the call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the advisory and policy board.

TEST PLAN DESCRIPTION

1. Description of test plan (back-up, overflow, failure, database)
The new E9-1-1 network design for the Mount Sterling Police Department consists of two trunks from the Frontier Selective Router in Bloomington, IL to the Mount Sterling Police Department at 145 W. Main St. The 9-1-1 trunks will be programmed in the Frontier Selective Router with an overflow route to the West Central Dispatch Center in Jacksonville, IL. Should both trunks in the trunk group to the Mount Sterling PSAP become busy or be taken out of service, the Frontier Selective Router will determine if 9-1-1 calls can be re-routed to the overflow route to the West Central PSAP.

There are 3 telephone service providers in Brown County: Frontier Communications, Adams Telephone (ILEC), and Adams Telephone (CLEC). All three landline telephone services providers will conduct call-through testing using local 7 digit numbers from their respective central offices in Brown County. These test calls will ensure proper routing of 9-1-1 test calls to the Frontier Selective Router and to the Mount Sterling Police Department PSAP. Both ANI and ALI are required. Test calls will be placed on both 9-1-1 trunks to the Mount Sterling PSAP. Also, Frontier will busy out the trunk group to the Mount Sterling PSAP to ensure that overflow is going to the 9-1-1 trunk to the West Central PSAP that is designated for the Mount Sterling PSAP.

Frontier Communications will provide a telephone extract of all customers in the 9-1-1 database. The telephone records will be sorted by their respective NPA/NXX using excel spreadsheets. Testing of at least 10% of each NPA/NXX will be done to ensure the 9-1-1 test call is delivered to the Mount Sterling PSAP and proper ANI/ALI is displayed. Each test 9-1-1 call will be recorded in the NPA/NXX spreadsheet as either a successful or unsuccessful 9-1-1 test call. This spreadsheet will be provided to the ISP.

2. List wireline exchanges to be tested.

| 217-773 | Mount Sterling | Frontier Communication |
| 217-225 | Versailles | Frontier Communication |
| 217-322 | Rushville | Frontier Communication |
| 217-289 | Hersman | Adams Telephone |
| 217-327 | Chambersburg | Adams Telephone |
