Plan Narrative.

Bedford Park, Summit, Hometown and Hickory Hills ETSBs intend to consolidate their individual ETSBs with one another pursuant to the Section 15.4a of the Statute. This will form a new ETSB to be called DesPlaines Valley ETS3. The DesPlaines Valley ETSB will be the 9-1-1 Authority that is responsible for the 9-1-1 system and receives and spends 9-1-1 surcharge funds in support of the two PSAPs under its control, Bedford Park PSAP (Bedford Park and Summit) in Bedford Park, IL and Hickory Hills PSAP (Hickory Hills and Hometown) in Hickory Hills, IL. The dissolution and consolidation of these four ETSBs will result in the creation of a joint ETSB serving a combined population of over 30,000 residents. Bedford Park, in addition to the residential population, is highly industrial and has a significant hotels that serve Midway Airport which is adjacent to the Village. Bedford Park routinely has an additional 17,000 workers daily and transient persons of over 200,000 daily within the Village.

This consolidation of ETSBs and two PSAPs will result in neither the Villages of Bedford Park, Summit, Hometown nor Hickory Hills expending more funds than they currently expend for 9-1-1 dispatch services.

The Villages desire to maintain two PSAPs under DesPlaines Valley ETSB for the following reasons: While the Villages have a location that could house all the workstations needed, remodeling of the space would be required not only for equipment but for dispatch personnel. Additionally both the Bedford Park and Hickory Hills PSAPs have state of the art equipment installed either of which would still remain, unused, if a one PSAP consolidation were undertaken. Furthermore, both the existing PSAPs will serve as backup to other sharing common technology. Finally, should one PSAP be planned, the peripheral work done by telecommunicators which include records, LEADS and prisoner monitoring would require new backfill positions for each member Village further stretching their meager fiscal year budgets and making any savings moot with the additional personnel required for these critical job functions.

Page 7 #2 Explanation: Both the Bedford Park and Hickory Hills PSAPs in this consolidation operate on VHF and UHF radio systems and as such have no interoperability with adjacent agencies. All calls received for one of the adjacent agencies is transferred per the Call Handling Agreements in place.

Page 7 #3 Explanation: The two PSAPs will direct dispatch police and fire/EMS units except Bedford Park fire/EMS calls are transferred to Oak Lawn (a primary/secondary PSAP) while Hickory Hills fire/EMS response is provided by Roberts Park Fire Protection District and the fire/EMS calls are transferred to Justice PSAP (a primary/secondary PSAP) for processing of the call and subsequent dispatch of personnel.
Page 8 #13: ATT has provided a network diagram and they have determined the current 9-1-1 trunks lines are sufficient to meet the P1 grade of service with the addition of Summit to Bedford Park and Hometown to Hickory Hills.

FIVE YEAR STRATEGIC PLAN FOR CONSOLIDATION PLAN

(Provide a detailed summary of the proposed system's operation, including but not limited to, a five-year strategic plan for implementation of the consolidation plan with financial projections)

Narrative:

The Villages of Summit, Bedford Park, Hometown and Hickory Hills have passed resolutions (attached) from their individual governmental units to dissolve their current ETSB's and join their individual ETSB's into one new ETSB to be known as DesPlaines Valley ETSB serving a combined population of 30,585, on or before March 9, 2017 and upon written approval of the State 9-1-1 Administrator. The new combined Des Plaines Valley ETSB will become the 9-1-1 Authority responsible for the management and administration of the two PSAPs within the new combined system. Bedford Park (serving Bedford Park and Summit) and Hickory Hills (serving Hickory Hills and Hometown) as consolidated PSAPs.

Each of the aforementioned entities have a long, and cooperative history of working alongside one another and all the member Villages believe the formation on the new combined ETSB will be a step forward in providing enhanced public safety call taking and dispatch services to the public they serve.

Additionally, the Village of Summit has decided to close its PSAP and combine it into the existing PSAP in Bedford Park on or before March 9, 2017 and upon written approval of the State 9-1-1 Administrator. Additionally, the Village of Hometown has decided to close its PSAP and combine it into the existing PSAP in Hickory Hills on or before March 9, 2017 and upon written approval of the State 9-1-1 Administrator.

The two new PSAPs will each will serve as the backup PSAP to one another as well as the default routing location for 9-1-1 call overloads or network or equipment failures.

The plan to close Summit and move to Bedford Park will be within six months following the approval of the State 9-1-1 Administrator. During the implementation period, 9-1-1 database files will be transferred and tested. Additionally, CAD data, including street address and other locations, unit recommendation and class and priority of Calls for Service will need to be verified in the CAPERS CAD system used by Bedford Park.

The two new PSAPs will each will serve as the backup PSAP to one another as well as the default routing location for 9-1-1 call overloads or network or equipment failures.

The plan to close Hometown PSAP and move to Hickory Hills will be accomplished within six months following the approval of the State 9-1-1 Administrator. During the implementation period, 9-1-1 database files will be transferred and tested. Additionally, CAD data, including street address and other location, unit recommendation and class and priority of Calls for Service will need to be loaded and tested in the CAPERS CAD system used by Hickory Hills. The target date for completion of the new consolidated center is on or before March 9, 2017. As a portion of this consolidation will be the hiring of an additional dispatch person, hopefully originating from the Summit PSAP.

The anticipated cost to add Summit into Bedford Park is estimated at $370,000.00

The anticipated cost to add Hometown into Hickory Hills will be $200,000.00 plus some radio licensing costs that are unknown as this time.

TEST PLAN DESCRIPTION

1) Description of test plan (back-up, overflow, failure, database).

These are four existing PSAPs that have each tested their individual exchanges throughout their history of operations. When Summit consolidates with Bedford Park they will ask ATT to test the circuits to make sure the ESN of Summit is converted to route to Bedford Park. Additionally, Summit will contact all the wireless carriers that service them and notify them of the switch to Bedford Park and make sure the wireless ESN is converted to route to their new consolidated center.

These are four existing PSAPs that have each tested their individual exchanges throughout their history of operations. When Hometown consolidates with Hickory Hills, they will ask ATT to test the circuits to make sure the ESN of Hometown is converted to route to Hickory Hills. Additionally, Hometown will contact all the wireless carriers that service them and notify them of the switch to Hickory Hills and make sure the wireless ESN is converted to route to their new consolidated center.

Both new consolidated centers will act as each others overflow and backup PSAPs and will have ATT test the 9-1-1 ESN’s to make sure the default and overflow routing is correct.

2) List wireline exchanges to be tested.

All wireline exchanges will be tested for routing accuracy prior to cutover.

3) List of wireless and VoIP Carriers to be tested.

Wireless and VoIP carriers will be tested for routing accuracy prior to cutover as well as all tower sectors tested for routing accuracy and location, if in Phase II mode.
