See next page for narrative of consolidation

1. Frontier is the certified 9-1-1 system service provider in the new consolidated system.
2. National standards will be followed as issued by the originating agency.
3, 4 & 6 CPE
McDonough County 9-1-1 has purchased a hosted CPE solution provided by INDigital to replace their current CPE at both PSAPs. The ANI/ALI controller is co-located at Genesee Telecom in Genesee, Illinois. McDonough County has purchased 3 hosted Vesta workstations that will serve as the primary answering positions for McDonough County calls. They have also purchase one fully functional IP based MEVO phone that is capable of receiving ANI/ALI, call back number and have transfer and ring back features to be located at WIU to serve as a backup position for McDonough County. In addition a second fully functional IP based MEVO phone that is capable of receiving ANI/ALI, call back number and have transfer and ring back features will be used at the WIU primary PSAP to answer WIU calls and serve as backup and overflow for McDonough County.

Call Delivery Network
McDonough County will continue to utilize Frontier Communications as their 9-1-1 System Service Provider and will continue to use the existing CAMA trunking provided by Frontier. The CAMA trunks will be connected to the INDigital hosted controller via two Legacy Network Gateways (LNGs) at the McDonough County PSAP. The LNGs convert the CAMA trunks to Session Initiated Protocol (SIP) for call delivery. INDigital will install a 10 Mb circuit between the PSAPs and the ANI/ALI controller at Genesee, IL to transport the 9-1-1 calls via Internet Protocol (IP) to the PSAP(s). INDigital will install a Virtual Private Network (VPN) connection to serve as the backup network if there is a failure in the primary network (10 Mb circuit). INDigital will provide two CISCO termination routers that will detect and automatically reroute calls to the VPN if there is a failure in the primary network (10 Mb circuit).

Database
Currently, McDonough County has on-site ALI database storage devices at both of its PSAPs. McDonough County is replacing the on-site ALI storage devices at both PSAPs with Frontier's Regional ALI Service. Frontier will connect new ALI circuits between the Frontier Maceomb Central Office and the McDonough County PSAPs. The ALI circuits will be connected to the LNGs at the PSAP to convert the ALI data to IP before delivery to the call taker equipment. The ALI database and MSAG support will continue to be provided and administered by Frontier.

Transfers
Transfer capability will not change and will continue to utilize existing CAMA trunking for transferring to neighboring agencies through Frontier’s network as is done currently.

Backup and Overflow Call Routing
Backup and Overflow call routing will be shared with Hancock County post consolidation. Currently, the WIU PSAP is the backup and overflow PSAP for the McDonough County PSAP. The McDonough County PSAP is the backup and overflow PSAP for the WIU PSAP. The McDonough County PSAP is also the backup and overflow PSAP for Hancock County.

5. Split exchanges will be routed based on the calling customer's physical location. Any caller physically located in McDonough or Schuyler counties will be routed to McDonough's PSAP.

7. Frontier will be responsible for receiving move, add, change requests from phone companies in regards to database maintenance on a daily basis. Any errors found by us will be reported to Frontier via their Information Manager interface Monday through Friday.

8. McDonough County has installed a private IP network that is secured by a fortified firewall and individual device anti virus software. Individual users are required to change their account passwords in accordance with CJIS rules. Visitors are escorted at all times and no devices that access the network are in public areas.
Narrative Statement

Since 2001 McDonough County has answered the wireless 911 calls for Schuyler County and transferred the caller back to Schuyler County Sheriff’s Department. McDonough County now wishes to answer all 911 calls originating in Schuyler County and dispatch the appropriate resources needed.

Through grant funding provided by the Illinois State Police, McDonough and Schuyler will extend the radio frequencies that Schuyler currently uses to the McDonough County dispatch centers. Each frequency will be programmed into each answering position in McDonough County to allow for continuity of service and redundancy. The radio frequencies will also be added into McDonough’s recorder system.

In order to limit the amount of phone communications via center to center, McDonough will share a CAD screen with Schuyler. This will allow McDonough to see which resources are available for emergency calls and allow Schuyler dispatchers to track resources visually as they progress through the call for service. The two centers will be linked between a fiber connection provided by a local telco.

Frontier will be responsible for routing the trunking from Schuyler County telcos to the selective router in Macomb. All calls will then be delivered to the INdigital network and routed to the appropriate PSAP (McDonough) for answering. Please see below for details on the INdigital network.

In the event that a resident calls 911 and the request for service is not an emergency, the caller will be transferred to an answering position in the Schuyler County Sheriff’s Department.

During the transition, McDonough County will remove 911 trunks from their backup location at the Office of Public Safety (OPS) on the campus of Western Illinois University and route all rollover calls to their new backup in Hancock County. OPS will no longer answer 911 calls originating on campus or roll over calls from the main PSAP. Calls originating from campus will be answered by the main PSAP and transferred back to OPS. This will allow a reduction in networking costs for the Illinois State Police.

FIVE YEAR STRATEGIC PLAN FOR CONSOLIDATION OR MODIFIED PLAN

(Provide a detailed summary of the proposed system's operation, including but not limited to, a five-year strategic plan for implementation of the consolidation or Modified plan with financial projections)

Narrative:

Funding
The McDonough ETSB is funded entirely by surcharge revenue. McDonough County receives all of the landline and wireless surcharge funds for McDonough County, all wireless surcharge funds for Henderson County and all wireless surcharge funds for Schuyler County.
Public Act 96 has mandated the consolidation of Henderson and Schuyler counties with one of their neighbors. It is anticipated that McDonough will consolidate with Schuyler and Henderson will choose one of its immediate neighbors. At that time, McDonough will lose the additional income Henderson County surcharge generates. The ETSB sets forth a budget every fall outlining the projected hardware costs for the next fiscal year. This amount is subtracted from the projected income and the balance is then transferred over to the McDonough County Communications Board to assist in staff personnel costs. For the past 3 fiscal years, the ETSB has not been able to meet its obligation of one-third of the costs. McDonough County projects that the new funding formula will alleviate a large portion of the monthly cost burden by the State paying networking costs associated with dispatching emergency services. At this point, it is still unknown whether the new surcharge rate of $0.87 per line will allow us to remain financially stable for the next five years.

Staffing
Staff members are employees of the Macomb-McDonough County Communications Center which is a consolidated dispatch center. A separate board was created to be able to govern employees, administer payroll and the associated benefits. Per the intergovernmental agreement, the McDonough County ETSB is obligated to contribute $90,000 per year or other agreed upon amount to the Communication Board to cover personnel costs. It is anticipated with consolidation that our workload will increase. The dispatch staff is unionized with a contract negotiation scheduled for November 2016. McDonough’s current staffing model allows for nine full time dispatchers. As call volumes increase we anticipate hiring additional staff to answer non-emergency phone lines during peak day time hours. This will allow trainees to be hired as call takers with the opportunity to advance to a fully certified dispatcher.

Current Staff:
8 Full time dispatchers
3 Part time dispatchers
3 Full time administrative staff

Goal:
9 Full time dispatchers
3-5 Part time dispatchers
3 Full time administrative staff

Equipment
McDonough County ETSB has strived to maintain current equipment for personnel to use while dispatching emergency services. Prior to consolidation, McDonough County purchased a new CPE system that will allow our jurisdiction to be NG9-1-1 ready. With the aid of grant funding, McDonough will be able to upgrade our current CAD server and recorder to expand services to Schuyler County. Upon approval of the consolidation plan McDonough will need to upgrade current radio equipment to effectively communicate via radio with the new backup location in Hancock County. This should happen during FY17. Upon the completion of upgrades necessitated by consolidation McDonough County should not require any major equipment purchases in the next few years as we monitor our new revenue stream.

TEST PLAN DESCRIPTION

1) Description of test plan (back-up, overflow, failure, database).

- All network components (Trunks and Database links) will be separately tested (and verified as operational) before end user call through testing begins.
- Test codes will be established to allow for end users to generate test calls to the system to validate ANI delivery and ALI Data Base Accuracy of less than 1% error rate, and at least 10% end user (land line) call through testing.
- Frontier will validate that overflow routing to appropriate backup PSAP will occur in a traffic busy, and trunk/network failure condition, by simulating each scenario, and validating test calls reach the overflow PSAP (with ANI/ALI).

WHEREAS, at the direction of the Schuyler County Board, a referendum was placed by the Schuyler County Clerk on the ballot, and on November 4, 2014, the legal voters residing in the County, voted upon the following question, with the following results:

Shall the County of Schuyler impose a surcharge of $2.60 per month per network connection on telecommunications carriers, which surcharge expense would be added to the monthly bill you receive for telephone or telecommunications charges for the purpose of installing an Enhanced 9-1-1 Emergency Telephone System?

Votes YES 1805 55.85%
Votes NO 1427 44.15%

WHEREAS, a majority of the votes cast upon the question, were in favor thereof, and a surcharge should hereby be imposed at a rate of up to Two Dollars and Sixty Cents ($2.60) per month per in-service network connection.

IT IS THEREFORE RESOLVED BY THE COUNTY BOARD OF SCHUYLER COUNTY, ILLINOIS AS FOLLOWS:

Section One. A surcharge is hereby imposed upon all telephone subscribers passed through telecommunications carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of Schuyler County and terminating within the State of Illinois for funding of an Enhanced 9-1-1 emergency telephone system, including implementing, maintaining, and upgrading this system.
Section Two. A surcharge is hereby imposed at a rate of Two Dollars and Sixty Cents ($2.60) per month per in-service network connection, as hereinafter defined. A network connection shall not be deemed to be in service where a subscriber’s account is uncollectable.

Section Three. For purpose of this resolution the following definitions shall apply:

a. "Network Connection" means the number of voice grade communication channels directly between a subscriber and a telecommunications carrier’s public switched network, without the intervention of any other telecommunications carrier’s switched network which would be required to carry the subscriber’s inter premises traffic and which connection either (1) is capable of providing access through the public switched network to a 9-1-1 Emergency Telephone System, if one exists, or, (2) if no system exists at the time a surcharge is imposed under the Act which would be capable of providing access through the public switched network to the local 9-1-1 Emergency Telephone System if one existed.

b. “Telecommunications Carrier” means any natural individual firm, trust, estate, partnership, association, joint stock company, joint venture, corporation, municipal corporation or political subdivision of this State, or a receiver, trustee, conservator, or other representative appointed by order of any court engaged in the business of transmitting messages by means of electricity.

Section Four. The County Clerk shall provide any telecommunication carrier subject to the surcharge with a certified list of those network connections to the County to be exempt from imposition of the surcharge. The certified assigned list may be revised by the County on sixty (60) days prior written notice provided to the telecommunication carriers.

Section Five. The surcharge shall be imposed on the first day of the month following the expiration of ninety (90) days from the date the County Clerk certifies to the individual telecommunication carriers subject to the surcharge that the referendum referred to above has passed.

Section Six. In lieu of the telecommunication carrier imposing a 3% accounting and collection charge on its subscribers as permitted under the Act, each telecommunications carrier is hereby authorized and instructed to recover said accounting and collection charge by deducting 3% from the gross amount of surcharge collected and otherwise due and owing to the County prior to remittance under Section Seven of the Ordinance.

Section Seven. The amount of surcharge collected by the telecommunications carrier shall be paid to the Schuyler County Emergency Telephone System Board not later than thirty (30) days after the surcharge is collected, net of any network or other Enhanced 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier, as shown on an itemized bill and the 3% accounting and collection charge as described in Section Six.
Section Eight. Simultaneously with the remittance described in Section Seven above each telecommunications carrier shall make a return to the Schuyler County Treasurer for the period to which the remittance applies stating as follows:

a. The name of the telecommunications carrier.
b. The telecommunications carrier’s principal place of business.
c. The number of network connections to which the surcharge applies.
d. The amount of surcharge due.
e. Such other reasonable and related information as the corporate authorities may require.

Section Nine. It shall appear that an amount of surcharge has been paid which was not due under the provisions of this Ordinance, whether as the result of a mistake of fact or an error of law, then such amount shall be credited against any surcharge due, or to become due, under this Ordinance from the telecommunication carrier who made the erroneous payments; provided that no amounts erroneously paid more than three (3) years prior to filing of a claim therefore shall be so credited. Ninety (90) days notice shall be given to the Schuyler County Emergency Telephone System Board on any credit against a surcharge due.

Section Ten. No action to recover any amount of surcharge due under the provisions of this Ordinance shall be commenced more than three (3) years after the due date of such amount.

Section Eleven. There is hereby created a Consolidated Emergency Telephone System Board for McDonough County and Schuyler County known as the McDonough County Emergency Telephone System Board (McDonough Co ETSB) as required by the Act.

a. There shall be fifteen (15) members of the McDonough County ETSB, representing the following:

10. Four (4) members appointed by the Chairperson of the Schuyler County Board. One member must represent citizens at large from Schuyler County who does not represent any of the other groups mentioned above

b. Eleven (11) members including the Chairperson of the McDonough County ETSB shall be appointed by the Chairperson of the McDonough County Board with the approval of the McDonough County Board.
