DISTINGUISHING FEATURES OF WORK:

Under the general supervision of a Certified Tumor Registrar (CTR), serves as an associate in the Illinois State Cancer Registry (ISCR); abstracts and re-abstracts health information for inclusion in the Illinois State Cancer Registry; screens cancer related information to assure that the information is coded correctly, without duplications or omissions; serves in a supportive capacity to senior staff.

Positions at this level require the education and experience needed to meet the current eligibility requirements to take the certification examination of the National Cancer Registrars Association for the Certified Tumor Registrar.

ILLUSTRATIVE EXAMPLES OF WORK:

1. Under mentoring guidance, learns to perform operational activities of the ISCR, to increase knowledge, skill and expertise in preparation for the CTR certification examination; facilitates and performs clerical processing steps of electronic abstracts submitted to ISCR, including electronic file downloads through generating verification responses to reporting facilities.

2. Receives practical progressive training to interpret and communicate Illinois Health and Hazardous Substance Registry rules, and regulations, to participating organizations; performs office support duties related to maintaining electronic records and coordination of staff training sessions, materials and processes.

3. Assists CTR-certified cancer registrars in the development and implementation of program standards and methods.

4. Assists CTR-certified cancer registrars in the evaluation of processed data submissions.

5. As learning enrichment and study enhancement opportunities, attends and participates in staff meetings, conferences, workshops, and seminars.
CANCER REGISTRAR I (Continued)

6. Performs other duties as required or assigned which are reasonably within the scope of the duties enumerated above.
