Section 3.

Animal Care, Drugs, Testing, Violations and Penalties

Exhibitors with questions regarding medications and/or eligibility are encouraged to contact the Illinois State Veterinarian at 217-782-4944 prior to administration of medication. The State Expo Manager can also be reached at 217-782-0776.

1. All exhibitors in any and all events described in this Premium Book acknowledge by their entry into such events that they have no constitutional or statutory right to participate or compete in such events. All exhibitors hereby expressly acknowledge that the procedures set forth in this Premium Book are the exclusive procedures and remedies concerning any disqualification. The Illinois Junior Livestock Expo and/or the Department of Agriculture reserve the final and absolute right to interpret these rules and regulations, settle and determine all matters, questions and differences in regard thereto, otherwise arising out of, connected with or incident to the Expo.
2. Exhibitors and exhibitors' parents and/or legal guardians bear absolute responsibility for the care and custody of their animals. The use of drugs or other substances in any manner other than in accord with the labeling approved by FDA is a violation of Federal Law.
3. The Illinois Junior Livestock Expo is entitled to disqualify any exhibitor whose animal tests positive for a drug, even if the exhibitor and the exhibitor's parents and/or legal guardian are unaware of any wrongdoing, did not administer the drug, or had no knowledge of the administration of the drug. Even if the source of the drug is unknown, the Illinois Junior Livestock Expo is entitled to disqualify the exhibitor.
4. If an exhibitor administers any medication or drug to an animal prior to the Illinois Junior Livestock Expo, it is the exhibitor's sole responsibility to ensure that withdrawal times allow the animal to be slaughter eligible by the time it arrives at the Fairgrounds. The elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal period for most approved drugs.
5. The Illinois Junior Livestock Expo has the right to examine and/or test any animal (deceased or living), feed, liquids, or equipment at any time. The Illinois Junior Livestock Expo may sample an animal's blood, urine, milk, saliva, and/or tissue. Any samples taken for testing become the property of the Illinois Junior Livestock Expo. Samples may be collected, stored and tested in any manner the Illinois Department of Agriculture deems appropriate. Positive test results may be made public.
6. The Illinois Junior Livestock Expo may impound any animal for testing. Refusing such tests shall be cause for disqualification. Any animal tested at the Illinois Junior Livestock Expo is subject to being detained at the expense of the exhibitor until the Illinois Junior Livestock Expo receives final test results.
7. The drug test results of the testing laboratories are final and binding upon the exhibitor and the exhibitor's parents and/or legal guardians.

8. Violations:

- A. Drug Administration: It is a **violation** if any medication or drug is administered to an animal after it has arrived on the State Fairgrounds without the supervision of the official Expo Veterinarian. If an animal requires treatment while on the Fairgrounds, only the Official Expo Veterinarian is allowed to administer a medication or drug to the animal. Animals administered a medication or drug by the Official Expo Veterinarian having a reported withdrawal and/or elimination time period beyond the show date will be automatically disqualified from the competition.
- B. Unapproved Drug Use: It is a **violation** if a market animal tests “positive” (not a quantitative test) for any drug that has not been approved by the Food and Drug Administration and/or the United States Department of Agriculture (USDA) for such type of animal.

However, it shall not be a violation of this subsection if the exhibitor discloses the drug specifically as follows: the exhibitor provides to the Illinois Junior Livestock Expo at check-in, the Illinois Junior Livestock Expo AMDUCA form properly completed by the veterinarian that prescribed the non-FDA-approved drug for the animal. It shall also not be a violation of this subsection if the Expo Veterinarian prescribes a non-FDA-approved drug for an animal during the Junior Livestock Expo and completes the AMDUCA form. The AMDUCA form is available through the Illinois Department of Agriculture.

Although the preceding paragraph allows for certain use of non-FDA-approved drugs, please be aware that federal law (21 C.F.R. § 530.41) prohibits the following list of drugs, families of drugs, and substances for extra label animal uses. Therefore, notwithstanding the above paragraph, it is a **violation** with an increased penalty, including notification to the relevant authorities, if a market animal tests “positive” (not a quantitative test) for any of the following:

- 1) Chloramphenicol;
- 2) Clenbuterol;
- 3) Diethylstilbestrol (DES);
- 4) Dimetridazole;
- 5) Iprnidazole;
- 6) Other nitroimidazoles;
- 7) Furazolidone;
- 8) Nitrofurazone;
- 9) Sulfonamide drugs in lactating dairy cattle (except approved use of sulfadimethoxine, sulfabromomethazine, and sulfaethoxyypyridazine);
- 10) Fluoroquinolones;
- 11) Glycopeptides;
- 12) Phenylbutazone in female dairy cattle 20 months of age or older; and
- 13) Cephalosporins (not including cephalirin) in cattle, swine, chickens, or turkeys:
 - i. For disease prevention purposes;
 - ii. At unapproved doses, frequencies, durations, or routes of administration; or
 - iii. If the drug is not approved for that species and production class.

- C. Violative Residue Limit (Tolerance): It is a **violation** if a test result indicates the presence of a drug, additive, or contaminant that exceeds a residue limit (tolerance) set by the FDA and applied by the FSIS.
 - D. Unethical Fitting and Grooming Practices: It is a **violation** if an animal evidences air pumping or the presence of inappropriate substances to alter conformation. Methods such as stomach pumping to induce artificial fill, performing surgical and/or non-surgical procedures to alter the animal's configuration or the natural conformation of any part of the animal's body, or unethical fitting are grounds for disqualification. The following generally accepted management practices are allowed: hoof trimming, dehorning, removal of hair, castration, branding, tattooing, ear notching and docking tails.
 - E. Falsification of Entries or Records: It is a **violation** to falsify or alter official entries, records or registrations of animals.
 - F. Unsportsmanlike Conduct: It is a **violation** for an exhibitor to act in any way that is outright discourteous or disrespectful to other exhibitors, judges, Expo personnel or Expo visitors, or to deliberately place or cause to be placed any animals or other person in a potentially harmful or disadvantageous position.
 - G. Approaching a Judge: It is a **violation** for any individual, except Illinois Junior Livestock Expo personnel, to approach a judge during a show. Further, it is a **violation** to interfere with a judge in the performance of his/her duty or to refuse the awards designated by a judge.
9. Penalties: In the event of a violation, the exhibitor and animal shall be disqualified. The Illinois Junior Livestock Expo will provide the disqualified exhibitor with a *Notice of Disqualification* setting forth the specific reasons for the disqualification. The exhibitor of the disqualified animal shall be subject to the following penalties:
 - A. Forfeiture of all monetary awards including sale proceeds associated with the exhibitor for the current Junior Livestock Expo. The exhibitor also forfeits the rights to any product resulting therefrom.
 - B. Return of all Junior Livestock Expo trophies and banners and other non-monetary awards associated with the exhibitor for the current Junior Livestock Expo.
 - C. Forfeiture of all titles associated with the exhibitor for the current Junior Livestock Expo.
 10. Appeal of Disqualification: A disqualified exhibitor shall have 10 days following the receipt of the *Notice of Disqualification* to file a Petition with the Director of the Illinois Department of Agriculture. The procedures set forth in 8 Illinois Administrative Code 1, SUBPART C shall govern the process of filing and considering a Petition from a disqualified exhibitor.
 11. If a Grand Champion animal is disqualified, the Reserve Grand Champion will be elevated to the respective designation. Disqualified animal photos and designations shall not be used in any advertising or promotional activities following the State Junior Livestock Expo.

SICK, NON-AMBULATORY AND DECEASED ANIMAL POLICY

12. The Illinois Junior Livestock Expo is fully committed to carrying out Animal Wellness and Care principles and ensuring the proper treatment of all animal exhibits. Therefore, sick animals shall not be exhibited because of the risk to the

animal, other animals, the exhibitor, other persons, and the integrity of competitions. The Illinois Expo Management, Department Superintendents, State of Illinois Veterinarians, and their respective designees, at their sole discretion, may prohibit an animal from showing and may require an animal to be sent to quarantine or leave the Fairgrounds on the basis of animal health and care concerns.

13. A veterinarian will be available during the Junior Livestock Expo and may be reached by calling 217/372-1418.
14. Upon arrival at the State Fairgrounds, all exhibitors irrevocably consent to emergency medical care that may be needed to preserve an animal's life or prevent extreme suffering. Exhibitors and any person affiliated with them hereby waive any claim related to emergency medical care and, to the fullest extent permitted by law, exhibitors and any person affiliated with them hereby agree to indemnify, defend and hold harmless the Illinois Junior Livestock Expo, Illinois Department of Agriculture, the State of Illinois, and respective agencies, affiliates, agents, officers, and employees from all claims and suits including court costs, attorney's fees, and other expenses related to emergency medical care. If the following conditions have been met, the Illinois Junior Livestock Expo is expressly authorized to perform any medical treatment, including but not limited to medical practices/ procedures, administering of medications, surgery, and euthanasia, for an animal in the absence of the exhibitor:
 - A. The exhibitor is unreachable after due diligence has been made to contact the exhibitor; and
 - B. The State Veterinarian (or designee), Department Superintendent and General Livestock Superintendent jointly determine the animal's health is in danger and delaying treatment would be detrimental to the animal's life, or that the animal is in extreme pain.
15. Upon entry to the Illinois State Fairgrounds only the official Expo Veterinarians (or designee) may administer any medications or treatments externally or internally to animals on the Fairgrounds.

Special Note: It is a violation if any medication or drug is administered to an animal without the supervision of the official Expo Veterinarian.

16. Notification to the Expo Veterinarian shall be completed by the attending official veterinarian and signed by the exhibitor or their guardian. Within 2 hours of treatment, the official Expo Veterinarian shall electronically report all performed treatments to the Illinois Department of Agriculture.
17. No animals can be unloaded that are non-ambulatory (i.e. downer) or unable to walk off the vehicle under their own power. The exception to this policy will be unloading the animal for euthanizing and disposing of the animal. If an animal becomes non-ambulatory after arrival at the Illinois State Fairgrounds, the following policy will be strictly enforced:
 - A. The owner shall immediately notify the Department Superintendent.
 - B. The Department Superintendent shall immediately notify the State Veterinarian and General Livestock Superintendent about the animal in question and the evolving circumstances.

- C. The official Illinois Expo Veterinarian, Department Superintendent, General Livestock Superintendent, and owner (or representative) will consult to determine the best course of action with primary focus on the animal's well-being. If euthanasia is determined to be the best option, this will be at the owner's expense.
- D. Livestock that becomes non-ambulatory after arriving at the Illinois State Fairgrounds must be disposed of or removed for treatment within 12 hours of discovery or receiving notice of the animal's condition. If the animal is treatable and the previously identified committee agrees, the owner must remove that animal from the Fairgrounds (at the owner's expense) within the 12 hour period.
- E. If an animal dies while at the Illinois Junior Livestock Expo, the animal's owner(s) shall immediately notify the Department Superintendent, who shall notify the General Livestock Superintendent who shall contact the State Veterinarian. The animal shall be removed from the building or display area within 30 minutes. Fairgrounds staff will assist in loading the carcass into a vehicle for removal or to an appropriate holding area, but the animal's owner(s) is responsible for removing the carcass from the Fairgrounds. In all instances, the Department Superintendent and General Livestock Superintendent must be present to assist in coordinating the removal of the carcass.
- F. The Illinois Department of Agriculture reserves the right to examine and/or test any animal that dies on the Fairgrounds, including having a necropsy performed. If a necropsy is performed, the Department of Agriculture will bear the cost.

PREMISES REGISTRATION NUMBER VOLUNTARY

Premises Registration is voluntary to exhibit livestock (beef, dairy, horses, swine, sheep, goats, poultry and rabbits) at the Illinois Junior Livestock Expo. Choosing to register your premises puts you on the frontline of controlling and preventing the spread of animal disease. A disease outbreak can't be predicted but it can impact every segment of animal agriculture. Participation ensures that you have the information you need, when you need it most, to protect your animals and your investment. Registering a premise involves obtaining a seven-character alpha-numeric "identifier" for the farm, ranch, veterinary clinic or other site where livestock or fowl are handled, housed, managed or processed.

If an exhibitor wants to register their animals an application form can be found on-line at www.agr.state.il.us/premiseid. Exhibitors who register on-line will receive a premise

registration number immediately. An application can also be obtained by calling 217/782-4944. If completing application and returning by mail, it may take up to four (4) weeks to receive the number.

FILING A PROTEST

If another exhibitor or any member of the public has reason to believe that an animal should be disqualified, he/she must contact the appropriate Department Superintendent and/or Junior Livestock Expo officials and file a protest presenting his/her evidence in writing. Such protest and evidence must be filed after official check-in of the animal of protest or within twenty-four hours after the respective show. If, after reviewing the evidence, the State Expo disqualifies the animal and disqualified exhibitor requests an administrative hearing, the complaining person shall be required to testify under oath at the hearing and present his/her evidence. If the complaining person refuses to testify or cannot be found to be served with a subpoena, no disqualification will be made on the basis of that complaining person's evidence.
